## GUTINNEEN AIR13

# GUTINNEEN Rabbit Hutch User Manual

MODEL: AIR13

## Introduction

---

Thank you for choosing the GUTINNEEN Rabbit Hutch AIR13. This manual provides essential information for the safe and effective setup, operation, and maintenance of your new rabbit hutch. Designed for both indoor and outdoor use, this hutch offers a secure and comfortable environment for small animals such as rabbits, bunnies, guinea pigs, and small chickens.

## Safety Instructions

---

- **Adult Assembly Required:** This product contains small parts and requires adult assembly. Keep children and pets away during assembly.
- **Proper Placement:** When used outdoors, place the hutch on a level, stable surface away from direct sunlight during hot periods and protected from strong winds and heavy rain. When used indoors, ensure adequate ventilation.
- **Animal Compatibility:** This hutch is designed for small breeds of rabbits, bunnies, guinea pigs, and small chickens. Ensure the size and number of animals are appropriate for the hutch's dimensions to prevent overcrowding and stress.
- **Regular Inspection:** Periodically inspect the hutch for any damaged or loose parts, especially the wire netting and latches. Repair or replace components as needed to maintain animal safety and security.
- **Predator Protection:** While the hutch offers protection, it is recommended to place it in a secure area, especially overnight, to further safeguard against predators.

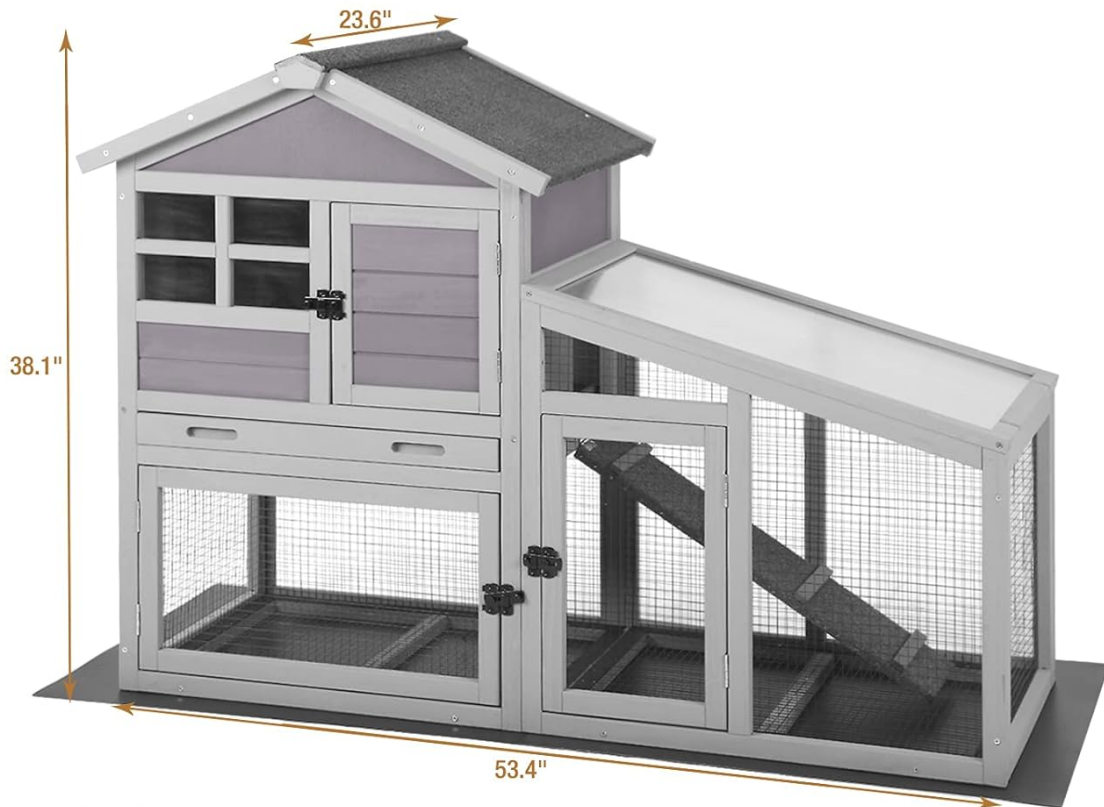

- **Ventilation:** Ensure proper airflow within the hutch to prevent heat buildup and maintain a healthy environment for your pets.

## Package Contents

Please verify that all components are present before beginning assembly:

- Wooden hutch panels and frame components
- Hardware pack (screws, latches, hinges)
- 1 x Removable Bottom Wire Mesh
- 1 x PVC Layer
- 1 x Metal Feeder
- 1 x Chewing Toy
- Assembly instructions (this manual)

# Indoor & Outdoor Rabbit Hutch

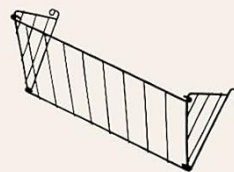

## Includes

1 x REMOVABLE  
Bottom Wire Mesh

1 x PVC Layer

1 x Metal Feeder

1 x Chewing Toy

## Setup and Assembly

---

Assembly of the GUTINNEEN Rabbit Hutch is designed to be straightforward. Follow the step-by-step instructions provided in the separate assembly guide included with your package. Ensure all screws are tightened securely, but do not overtighten to avoid damaging the wood.

- **Prepare the Area:** Choose a flat, stable, and safe location for assembly.
- **Assemble the Base:** Construct the main base frame, ensuring it is square and stable.
- **Install Wire Netting and PVC Layer:** Place the removable wire netting at the bottom of the hutch sections. Lay the PVC layer over the base to create a leak-proof floor, protecting against urine leakage and making cleaning easier.
- **Construct Upper and Run Sections:** Attach the upper house section and the extended run area according to the diagrams.
- **Attach UV Roof:** Secure the UV-resistant roof over the appropriate sections. This roof is designed to prevent overheating and provide protection from rain.
- **Install Doors and Latches:** Attach all doors and ensure latches operate smoothly for secure closure.
- **Insert Pull-Out Tray:** Slide the leak-proof pull-out tray into its designated slot for easy waste collection.

## Operating Instructions

---

The GUTINNEEN Rabbit Hutch is designed for versatile use, providing a safe and comfortable habitat for your small pets.

- **Animal Placement:** Gently introduce your rabbit, bunny, guinea pig, or small chicken to the hutch. Ensure they have access to fresh water and appropriate food.
- **Access Doors:** The hutch features multiple doors for easy interaction with your pets and convenient access for cleaning. Use the secure latches to ensure doors are properly closed when not in use.
- **Ramp Access:** A ramp connects the upper house section to the lower run area, allowing your pets to move freely between levels.
- **Indoor/Outdoor Use:** This hutch is suitable for both indoor and outdoor environments. When used outdoors, the UV-resistant roof provides protection from sun and rain.

# A HOME FOR PETS

Large enclosure holds 1-2 rabbits/chickens( small-medium)for safe roaming

UV PROTECTION

NATURAL WOOD

NON TOXIC

WATER RESISTANT

## Maintenance

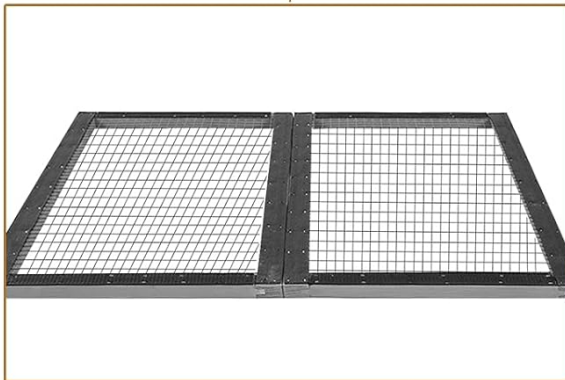

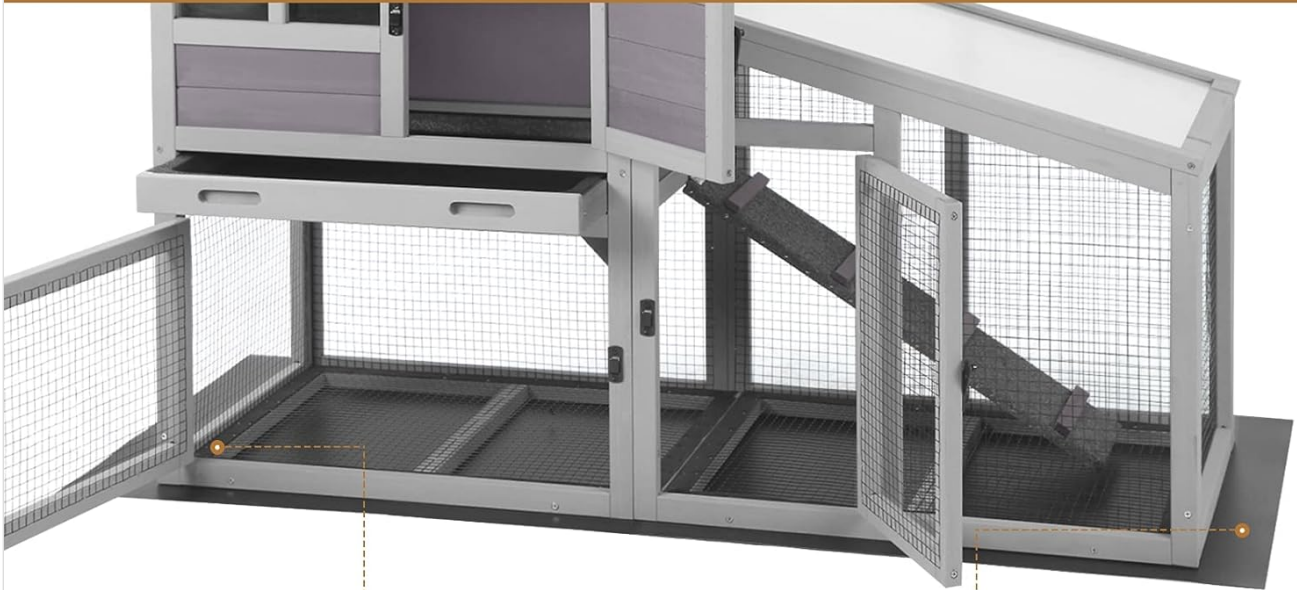

Regular maintenance is crucial for the longevity of your hutch and the health of your pets.

- **Daily Cleaning:** Remove any visible waste and replenish food and water daily.
- **Tray Cleaning:** The pull-out tray should be emptied and cleaned regularly. The quality plastic tray is designed to be leak-proof and resistant to rust, making this process simple.
- **PVC Layer and Wire Netting:** The PVC layer prevents urine from leaking onto the floor, and the movable wire netting keeps pets from standing directly in waste. Both should be cleaned frequently to maintain hygiene and prevent bacterial infections.
- **Deep Cleaning:** Perform a thorough cleaning of the entire hutch weekly or as needed. This includes scrubbing surfaces, disinfecting, and replacing bedding.
- **Wood Care:** The wooden components are treated for durability. For outdoor use, consider applying a pet-safe sealant annually to further protect the wood from weather elements.
- **UV Roof Care:** Periodically wipe down the UV-resistant roof to ensure it remains clear and effective in protecting

against UV rays and shedding water.

## Removable Wire Netting & PVC Layer

- Separate The Urine & Poop
- Prevent The Predators From The Underground

**Wire Netting**

**Easy Clean PVC Layer**

## Troubleshooting

Problem	Possible Cause	Solution
Urine leakage from the bottom.	PVC layer not properly installed or damaged; tray not fully inserted or damaged.	Ensure the PVC layer is correctly positioned and intact. Verify the pull-out tray is fully inserted. Inspect the tray for cracks or damage and replace if necessary.
Pets standing in waste.	Wire netting is missing or displaced; infrequent cleaning.	Ensure the movable wire netting is correctly in place. Increase the frequency of cleaning the hutch and emptying the tray.
Hutch feels unstable.	Loose screws or uneven ground.	Check all screws and tighten them. Ensure the hutch is placed on a completely level surface.

Problem	Possible Cause	Solution
Difficulty opening/closing doors.	Misaligned hinges or latches; debris obstructing movement.	Inspect hinges and latches for alignment and adjust if needed. Clear any debris from the door tracks or hinges.

## Specifications

---
