IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using this electric mattress pad. Failure to follow these instructions may result in fire, electric shock, or injury.

- **Potential Burn Hazard:** Always follow instructions for proper use and handling.
- Keep away from children and flammable materials.
- Do not use with infants, persons insensitive to heat, or persons unable to remove the pad themselves.
- Do not use with a damaged cord or plug.
- Do not use with other heating devices.
- Do not dry clean. Dry cleaning solvents may damage the insulation.
- Do not use pins or other metallic objects with this product.

SETUP INSTRUCTIONS

1. **Unpack:** Carefully remove the mattress pad and controller from the packaging.
2. **Placement:** Lay the mattress pad flat on your mattress with the connector end positioned at the foot of the bed.

Ensure the pad is spread evenly and smoothly.

3. **Secure:** If your mattress pad has skirted edges, fit them around the mattress like a fitted sheet to secure the pad in place.
4. **Connect Controller:** Locate the connector on the mattress pad and firmly plug the controller cord into it. Ensure a secure connection.
5. **Power Connection:** Plug the power cord from the controller into a 120V AC electrical outlet. Do not use with extension cords or power strips.
6. **Position Controller:** Place the controller in a convenient location where it will not be covered or fall off the bed.

OPERATING INSTRUCTIONS

1. **Turning On:** Press the "On/Off" button on the controller. The display will illuminate, showing the current heat setting.
2. **Adjusting Heat:** Use the "+" and "-" buttons to cycle through the 10 available heat settings. Start with a lower setting and adjust as needed for your comfort.
3. **Preheat Feature:** To preheat your bed, press the "Preheat" button. The pad will warm up quickly to a comfortable temperature. After preheating, you can select your desired heat setting.
4. **Auto-Off:** For safety and energy conservation, the mattress pad is equipped with an automatic shut-off feature. The pad will turn off after a set number of hours (typically 10 hours, refer to specific model details if available).
5. **Turning Off:** Press the "On/Off" button again to turn off the mattress pad. The display will turn off. Unplug the unit from the wall outlet when not in use for extended periods.

CARE AND MAINTENANCE

Proper care will ensure the longevity and performance of your Sunbeam Electric Mattress Pad.

Washing Instructions:

- **Disconnect:** Always disconnect the controller from the mattress pad and unplug the power cord from the wall outlet before washing.
- **Pre-soak (Optional):** For best results, pre-soak the mattress pad for 15 minutes in cold water with a mild detergent.
- **Machine Wash:** Wash on the "delicate" or "gentle" cycle in a washing machine with cold water and a small amount of mild detergent. Do not use bleach.
- **Rinse:** Rinse on the "normal" cycle with cold water.
- **Machine Dry:** Tumble dry on low heat or "delicate" cycle for 5-10 minutes. Remove while still damp and air dry completely over a clothesline or shower rod. Do not use commercial dryers.
- **Do Not Iron:** Do not iron the mattress pad.
- **Do Not Dry Clean:** Dry cleaning solvents may damage the wiring insulation.

Storage:

When not in use, store the mattress pad neatly folded in its original bag or a breathable storage container in a cool, dry place. Avoid placing heavy objects on top of the pad during storage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Mattress pad is not heating.	Not plugged in; controller not connected securely; power outage; internal fault.	Ensure power cord is firmly plugged into a working outlet. Check that the controller cord is securely connected to the pad. Verify power to the outlet. If problem persists, contact customer support.
Uneven heating.	Pad not spread flat; internal wiring issue.	Ensure the mattress pad is spread smoothly and evenly on the bed. Avoid bunching or folding. If uneven heating continues, discontinue use and contact customer support.
Controller display is off or flashing.	Auto-off activated; power interruption; error code.	If auto-off, simply turn the unit back on. Unplug the unit for 5 minutes, then plug back in to reset. If an error code is displayed, refer to the specific error code section (if available in full manual) or contact customer support.
Pad feels too hot or not hot enough.	Heat setting too high/low; external factors (room temperature, bedding).	Adjust the heat setting using the "+" or "-" buttons. Consider the ambient room temperature and the type of bedding used over the pad.
