

1 Hora GAR156

1 Hora GAR156 20W USB-C PD Car Charger

Model: GAR156 | Brand: 1 Hora

INTRODUCTION

Thank you for choosing the 1 Hora GAR156 20W USB-C PD Car Charger. This manual provides essential information for the safe and efficient use of your new car charger. Please read these instructions carefully before use and retain them for future reference.

PRODUCT FEATURES

- **Dual-Mode Car Charger:** Equipped with a 20W Type-C PD charging port, compatible with a wide range of devices including Galaxy S20, Honor View 20, Huawei P9, Xiaomi Mi A3, and iPhone 13 series. This single car charger meets diverse charging needs.
- **Intelligent Fast Charging:** This car charger intelligently adjusts the charging speed for different devices, providing optimal power delivery. It charges devices up to 3 times faster than standard car chargers with 20W PD power. Compatible with 12-24V vehicles.
- **Multi-Protection Safety:** The Type-C car charger features a built-in smart chip that protects your device from short-circuiting, over-voltage, overheating, and over-current. Constructed from high-quality metal, it offers superior thermal capacity and enhanced durability for reliable use.
- **Stable Connection Design:** The shrapnel contact design ensures a firm connection, providing a stable power source for your device even on uneven roads.
- **Included Accessories:** Comes with a 1-meter 3A USB-C to USB-C fast charging cable to provide an improved charging experience.

PACKAGE CONTENTS

Please check the package contents upon opening:

- 1x 1 Hora GAR156 20W USB-C PD Car Charger
- 1x 1-meter 3A USB-C to USB-C Fast Charging Cable

- 1x User Manual

SETUP

1. **Insert the Car Charger:** Firmly insert the 1 Hora GAR156 car charger into your vehicle's 12V/24V cigarette lighter socket. The charger's indicator light will illuminate, confirming it is powered on.
2. **Connect the Cable:** Plug one end of the provided USB-C to USB-C cable into the USB-C port on the car charger.
3. **Connect Your Device:** Plug the other end of the USB-C to USB-C cable into the charging port of your compatible mobile device (smartphone, tablet, etc.).

OPERATING INSTRUCTIONS

1. **Automatic Charging:** Once your device is connected to the car charger, it will automatically detect the device and begin charging.

2. **Intelligent Power Delivery:** The charger's intelligent chip will optimize power delivery to your device for the fastest possible safe charge.
3. **Fast Charging Indication:** If your device supports fast charging, it may display a specific fast charging icon or message on its screen.

Image: A smartphone connected to the 1 Hora car charger, showing a 66% charge level and the text 'CARGA RAPIDA' (Fast Charge) indicating active fast charging. The car charger itself is illuminated with a blue light, signifying operation.

Video: This video demonstrates the installation and use of a 1 Hora car charger, showing how to plug it into the car's power outlet and connect a smartphone for charging. It highlights the fast charging capability and the illuminated indicator light of the charger.

SAFETY INFORMATION

- Do not disassemble, modify, or repair the product yourself.
- Keep the charger away from water, moisture, and extreme temperatures.
- Avoid dropping or subjecting the charger to strong impacts.
- Do not use the charger if it appears damaged.
- Ensure the vehicle's power outlet is clean and free of debris before inserting the charger.

- Unplug the charger when not in use or when leaving the vehicle.

MULTIPROTECCIÓN

MAINTENANCE

- Clean the charger with a dry, soft cloth. Do not use liquid cleaners or aerosols.
- Store the charger in a cool, dry place when not in use.
- Regularly check the USB-C cable for any signs of wear or damage. Replace if necessary.

TROUBLESHOOTING

Problem: Device is not charging.

Solution:

- Ensure the car charger is fully and securely inserted into the vehicle's power outlet.

- Verify that the USB-C cable is properly connected to both the charger and your device.
- Check if your vehicle's power outlet is functional (e.g., by testing with another device).
- Try using a different USB-C cable to rule out a faulty cable.
- Test the charger with a different device to confirm charger functionality.

Problem: Device is charging slowly.

Solution:

- Confirm that your device supports fast charging (Power Delivery - PD).
- Ensure you are using the included 3A USB-C to USB-C cable or another high-quality fast-charging compatible cable.
- Close any unnecessary background applications on your device that might consume power.
- Check if the vehicle's power output is stable.
