Adjustable Comfort Twin XL Deluxe Adjustable Bed Base 2.0 User Manual

Model: J15210-0402

1. INTRODUCTION

Thank you for choosing the Adjustable Comfort Twin XL Deluxe Adjustable Bed Base 2.0. This advanced bed base is designed to enhance your comfort and well-being with its ergonomic adjustability, massage functions, and convenient features. This manual provides essential information for safe setup, operation, and maintenance of your new adjustable bed base. Please read it thoroughly before assembly and use.

2. SAFETY INFORMATION

Please observe the following safety precautions to prevent injury or damage to the product.

- **Child Safety Lock:** The wireless remote control is equipped with a child safety lock feature. Always engage this lock when the bed is unattended to prevent accidental operation by children.
- **Weight Capacity:** The maximum weight recommendation for this bed base is 750 pounds, including the mattress and occupants. Do not exceed this limit.
- **Clearance:** Ensure adequate clearance around the bed base during operation to prevent obstructions or pinching hazards.
- **Power Cord:** Keep the power cord away from heated surfaces and ensure it is not pinched or damaged. Do not operate the bed base with a damaged cord or plug.
- **Liquids:** Avoid spilling liquids on the bed base, especially near electrical components.
- **Professional Service:** Do not attempt to disassemble or service the internal components of the bed base. Refer all servicing to qualified personnel.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged.

- Adjustable Bed Frame (Twin XL)
- Hardware Kit (bolts, washers, nuts, etc.)
- Wireless Remote Control (with batteries)
- Power Supply and Cables
- Assembly Instructions (this manual)
- Mattress Retainer Bar
- Legs (adjustable height options may be included)

4. SETUP AND ASSEMBLY

The Adjustable Comfort Bed Base is designed for easy, tool-free assembly. It is recommended to have two people for lifting and positioning the bed base.

1. **Unpack Components:** Carefully remove all components from the packaging. Place the main bed base frame upside down on a clean, flat surface to access the underside.
2. **Attach Legs:** Screw the bed legs into the designated threaded receivers on the underside of the frame. Ensure they are tightened securely.
3. **Install Motors and Control Box:** Locate the head and foot motors. Slide them into their respective positions. Connect the motor cables and power cables to the central control box, ensuring all connections are firm and correctly matched (color-coded if applicable).
4. **Secure Control Box:** If applicable, secure the control box to the frame using the provided fasteners or ensure it is properly seated in its designated slot. Some models may have a twist-tie or similar mechanism to prevent it from falling out.
5. **Flip the Base:** With assistance, carefully flip the bed base over so it rests on its legs.
6. **Install Mattress Retainer Bar:** Insert the mattress retainer bar into the slots at the foot of the bed base. This prevents the mattress from sliding when the base is elevated.
7. **Insert Remote Batteries:** Open the battery compartment on the wireless remote control and insert the provided batteries, observing polarity.
8. **Connect Power:** Plug the power cord into a grounded electrical outlet.
9. **Test Functions:** Use the remote control to test all functions (head/foot elevation, massage) to ensure proper operation before placing your mattress.

Easy Assembly

Setup requires no tools, and we include everything you need (yes, even the batteries). Plus, the zero clearance design works on most existing platform frames.

5. OPERATING INSTRUCTIONS

Your Adjustable Comfort Bed Base is operated using the wireless remote control.

5.1. Wireless Remote Control

The remote features intuitive buttons for various adjustments. It includes a backlit display for use in low light and a built-in flashlight.

Easy Assembly

While our adjustable bases are super high-tech, setting it up is simple. Setup requires no tools, and we include everything you need (yes, even the batteries).

- **Head Up/Down:** Adjusts the head section elevation (0-60°).
- **Foot Up/Down:** Adjusts the foot section elevation (0-40°).
- **Massage On/Off & Intensity:** Activates the 3-speed dual head and foot massage function. Press repeatedly to cycle through intensities.
- **Flat:** Returns the bed base to a flat position.
- **Zero Gravity:** Activates the pre-programmed zero-gravity position, designed to relieve pressure.
- **Preset Positions (e.g., TV/PC, Lounge):** One-touch buttons for common ergonomic positions.
- **Memory Buttons:** Allows you to save and recall your favorite custom positions. Consult the remote's specific instructions for programming details.
- **Child Safety Lock:** Refer to the remote's instructions for engaging and disengaging the child safety lock.

5.2. USB Charging Ports

Convenient USB charging ports are located on the side of the bed base for charging your electronic devices.

Simply plug your device's USB cable into the available ports. Ensure the bed base is powered on for the USB ports to function.

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your adjustable bed base.

- **Cleaning:** To clean the upholstered surfaces, wipe with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the fabric.
- **Inspections:** Periodically check all connections, including power cords and motor cables, to ensure they are secure and free from damage.
- **Motor Care:** The motors are designed for quiet operation and require no special maintenance. Avoid obstructing the motor areas.

7. TROUBLESHOOTING

If you encounter issues with your adjustable bed base, refer to the following common solutions.

Problem	Possible Cause	Solution
Bed base does not operate.	No power, loose connections, remote batteries dead.	Ensure power cord is securely plugged into a working outlet. Check all cable connections to the control box and motors. Replace remote control batteries.
Remote control not responding.	Dead batteries, remote out of range, child safety lock engaged.	Replace remote batteries. Ensure you are within range of the bed base. Disengage the child safety lock (refer to remote instructions).
Massage function not working.	Loose connection, power issue.	Check the massage motor connections to the control box. Verify the bed base has power.
USB ports not charging.	Bed base not powered, device cable faulty.	Ensure the bed base is plugged in and powered on. Try a different USB cable or device to rule out cable/device issues.

If the problem persists after attempting these solutions, please contact customer support.
