2. Safety Information

Please read and understand all instructions before beginning installation. Failure to do so may result in electric shock, fire, or other injuries that could be hazardous or fatal. This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

- **WARNING:** To avoid electric shock, disconnect power at the circuit breaker or fuse box before installation or servicing.
- All electrical connections must be in accordance with local codes, ordinances, or the National Electric Code (NEC).
- Consult a qualified electrician if you are unsure about the installation process.
- This fixture is ETL listed for use in damp locations. Do not install in areas where it will be directly exposed to water.
- Proposition 65 Warning: This product may contain chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm.

3. Package Contents

Carefully unpack the fixture and check that all parts are included. Retain the packaging material until you are certain all parts are present and in good condition.

- Chandelier Fixture (ASH32581A2)
- Instruction Manual
- Required Hardware for installation

Note: Light bulbs are not included and must be purchased separately. This fixture requires (5) 60-watt candelabra base B10 bulbs.

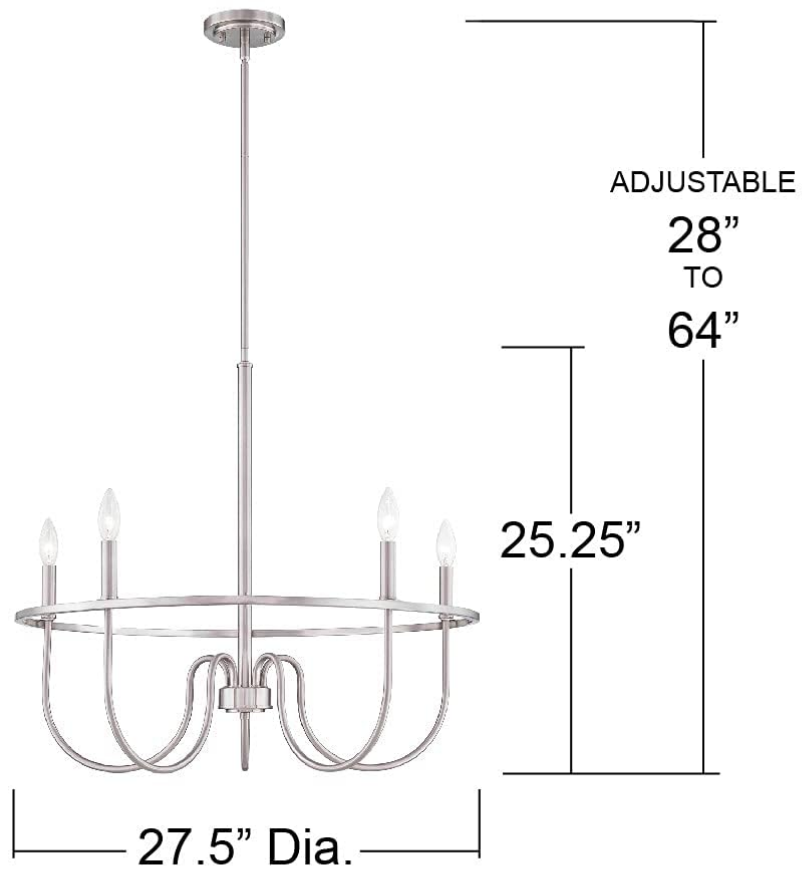

4. Setup and Installation

Installation requires assembly and mounting to a ceiling electrical box. Ensure power is disconnected at the circuit breaker before starting.

1. **Prepare for Installation:** Turn off electricity at the main fuse box or circuit breaker. Clear the work area.
2. **Assemble the Fixture:** Follow the detailed assembly instructions provided in the included manual. This typically involves attaching the downrods and canopy to the main fixture body.
3. **Mount the Fixture:** Secure the mounting bracket to the ceiling electrical box. Connect the electrical wires (black to black, white to white, ground to ground) using wire connectors. Carefully tuck the wires into the outlet box.
4. **Secure the Canopy:** Attach the fixture canopy to the mounting bracket, ensuring it is flush with the ceiling.
5. **Install Bulbs:** Screw in five (5) 60-watt candelabra base B10 bulbs (not included) into the sockets. Do not exceed the maximum wattage.
6. **Restore Power:** Turn the electricity back on at the main fuse box or circuit breaker.

Image 4.2: Front view of the assembled chandelier, illustrating the five light sockets and brushed nickel finish.

5. Operating Instructions

Once installed and powered, the chandelier operates like any standard light fixture.

- **Turning On/Off:** Use the wall switch connected to the fixture to turn the lights on or off.
- **Dimming Functionality:** This fixture is dimmable. If connected to a compatible dimmer switch (sold separately), you can adjust the light intensity. Ensure that the bulbs used are also dimmable.

6. Maintenance

Regular maintenance will help preserve the appearance and functionality of your chandelier.

- **Cleaning:** Always disconnect power before cleaning. Use a soft, dry cloth to wipe the fixture. Avoid abrasive cleaners or solvents as they may damage the finish.
- **Bulb Replacement:** Ensure the fixture is cool and power is disconnected before replacing bulbs. Use only the specified bulb type and wattage (5 x 60-watt candelabra base B10 bulbs).
- **Inspection:** Periodically check all connections and mounting hardware to ensure they remain secure.

7. Troubleshooting

If you experience issues with your chandelier, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Light does not turn on	Power is off at the circuit breaker. Loose wire connections. Defective bulb(s).	Check and reset the circuit breaker. Verify all wire connections are secure (ensure power is off first). Replace bulb(s) with new ones.
Lights flicker	Loose bulb. Incompatible dimmer switch or bulb. Loose wire connection.	Tighten bulbs. Ensure dimmer and bulbs are compatible. Check wire connections (ensure power is off first).

If the problem persists after trying these steps, please contact customer support.
