Belkin OVA079zz

Belkin UltraGlass Screen Protector User Manual

Model: OVA079zz | Compatible with iPhone 14 Plus and iPhone 13 Pro Max

INTRODUCTION

This manual provides comprehensive instructions for the installation, use, and maintenance of your Belkin UltraGlass Screen Protector. Designed for iPhone 14 Plus and iPhone 13 Pro Max, this screen protector offers enhanced durability and clarity. Please read these instructions carefully before installation to ensure optimal performance and protection for your device.

WHAT'S INCLUDED

Your Belkin UltraGlass Screen Protector package includes the following items:

- 1 x Belkin iPhone 13 Pro Max UltraGlass Antimicrobial-Treated Screen Protector
- 1 x Easy Align Tray
- 1 x Cleaning Cloth
- 1 x Dust Removal Sticker

Ultra Defense

Up to 2X Stronger*

Impact Protection

Scratch Guard

Touch Sensitive

Anti-Fingerprint

*Based on drop tests of lithium aluminosilicate versus single-tempered aluminosilicate glass, using rough sandpaper. 80% of samples survived a drop height 2x higher than conventional single-tempered aluminosilicate glass.

INSTALLATION GUIDE

Follow these steps for a precise and bubble-free installation of your screen protector.

1. Preparation

1. Ensure your work surface is clean and free of dust to prevent particles from getting trapped under the screen protector.
2. Remove any existing case or screen protector from your iPhone.

2. Clean Your Device Screen

1. Use the included microfiber cloth to thoroughly clean your iPhone screen. Gently wipe away any oil, smudges, or fingerprints.
2. Use the dust removal sticker to pick up any remaining dust particles from the screen. Ensure all areas, including the edges,

are free of dust.

Virtually Scratch Proof

Tested to the highest possible rating against scratches from keys, coins, or anything else

Image: A hand using a dust removal sticker to clean an iPhone screen, ensuring no particles remain before screen protector application.

3. Position the Easy Align Tray

1. Remove the clear plastic insert from the Easy Align Tray and discard it.
2. Place your iPhone into the Easy Align Tray, ensuring it sits securely.

Precision Application at Home

Included Easy Align tray provides simple, precise, and bubble-free application

Image: An iPhone placed securely within the Easy Align Tray, ready for screen protector application.

4. Apply the Screen Protector

1. While holding the screen protector, remove the liner by pulling the number 1 tab downwards.
2. Align the screen protector with your phone using the Easy Align Tray and carefully lower it from top to bottom. Ensure the green line on the number 2 tab aligns with the white arrows of the tray as you reach the bottom.
3. Once aligned, swipe your finger along the center of the screen to initiate adhesion and push out any initial air bubbles.
4. Pull the clear number 2 tab upwards to remove the remaining lining.

5. Remove Air Bubbles

1. Remove your phone from the Easy Align Tray.
2. Use the microfiber cloth to gently but firmly push out any remaining air bubbles towards the closest edge of the screen.

PRODUCT FEATURES

The Belkin UltraGlass Screen Protector offers several key features:

- **High Scratch Protection:** The UltraGlass top layer provides a high level of scratch protection.
- **Clear Display:** Protects your screen from discoloration with an antimicrobial treatment, maintaining clarity.
- **Precision Fit:** Designed for a perfect fit with iPhone 14 Plus and iPhone 13 Pro Max, compatible with most cases.
- **Double Ion-Exchanged Glass:** Strengthened glass offers superior resistance and protection.
- **Easy Application:** Patented Easy Align Tray ensures a simple and accurate at-home application.

Impact Protection

Double ion-exchange technology created a denser and stronger protective glass, without sacrificing touchscreen response or clarity

Crystal Clarity

Superb screen clarity with the smooth glide of real glass

Image: An iPhone with the screen protector installed, shown in a pocket with keys and coins, demonstrating its scratch-proof capability.

Treated Screen Protector

The glass contains an antimicrobial agent to protect the product from microbial growth that causes discoloration and degradation

SPECIFICATIONS

Attribute	Detail
Model Number	OVA079zz
Compatible Devices	iPhone 14 Plus, iPhone 13 Pro Max
Material	UltraGlass
Item Hardness	Extra hard
Special Features	Anti-Fingerprint, Double ion-exchange strengthened glass, Scratch Resistant, Tear Resistant
Color	Transparent
Water Resistance Level	Water Resistant
Item Weight	0.353 ounces
Product Dimensions	3.5"L x 0.7"W

MAINTENANCE

To maintain the clarity and effectiveness of your Belkin UltraGlass Screen Protector, follow these simple maintenance tips:

- **Regular Cleaning:** Use a soft, lint-free cloth (like the included microfiber cloth) to gently wipe the screen protector. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, alcohol, or ammonia-based solutions, as these can damage the

screen protector's coating.

- **Prevent Scratches:** While the screen protector is highly scratch-resistant, avoid placing your phone face down on rough surfaces or in pockets with sharp objects.

TROUBLESHOOTING

If you encounter issues during or after installation, refer to the following common solutions:

- **Air Bubbles:** Small bubbles often disappear within 24-48 hours. For larger bubbles, use the microfiber cloth to gently push them towards the nearest edge. If a bubble persists due to a dust particle, you may need to carefully lift a corner of the protector with a piece of tape, remove the dust with another piece of tape, and reapply.
- **Misalignment:** If the screen protector is significantly misaligned immediately after application, it may be possible to gently lift it and reapply. However, this increases the risk of dust or damage. Ensure careful alignment during the initial application using the Easy Align Tray.
- **Dust Under Protector:** Dust particles are the most common cause of persistent bubbles. Ensure your screen is meticulously clean before application. If dust is trapped, refer to the air bubble removal tip above.
- **Reduced Touch Sensitivity:** Ensure the screen protector is fully adhered without any gaps or large bubbles. If issues persist, verify your phone's touch sensitivity settings.

WARRANTY AND SUPPORT

Belkin products are designed for quality and durability. Many Belkin screen protectors, including the UltraGlass series, come with a lifetime warranty. For specific warranty details and to register your product, please visit the official Belkin website.

For further assistance, technical support, or to inquire about warranty claims, please contact Belkin Customer Support through their official website or contact channels.
