

Level Up Way LevelUpWay-PHWBG

LevelUpWay 2025 Hydrogen Water Bottle Generator User Manual

Brand: Level Up Way

Model: LevelUpWay-PHWBG

PRODUCT OVERVIEW

The LevelUpWay 2025 Hydrogen Water Bottle Generator is designed to enhance your hydration experience by infusing drinking water with additional hydrogen molecules. This innovative device utilizes advanced SPE PEM technology to produce hydrogen-rich water, offering a convenient solution for daily use.

Key features include a dual chamber design, a 7-layer SPE platinum catalyzed membrane, and the ability to deliver up to 4000 PPB hydrogen concentration and -750 ORP after just two electrolysis cycles. Constructed with durable food-grade Tritan plastic, it ensures safety and quality, free from chlorine byproducts. The bottle also incorporates an oxygen gas exhaust vent, colorful indicator lights, and a built-in alert system for a seamless and secure hydrogen generation process.

Figure 1: LevelUpWay 2025 Hydrogen Water Bottle Generator.

SETUP AND FIRST USE

Before initial use, please ensure all components are present and undamaged. Wash the bottle thoroughly with clean water. Do not use abrasive cleaners or harsh chemicals.

Component Identification

Figure 2: Exploded view of the hydrogen water bottle, showing the bottle lid, food-grade Tritan plastic body, silicone plug, high-quality hydrogen generator (SPE-PEM), and power button.

- **Bottle Lid**: Secures the water and prevents spills.
- **Food-grade Tritan Plastic Body**: The main reservoir for water.
- **Silicone Plug**: Located at the base, must be removed during operation for proper gas exhaust.
- **High Quality Hydrogen Generator (SPE-PEM)**: The core component for electrolysis.
- **Power Button**: Activates the hydrogen generation process.

Filling the Bottle

Fill the bottle with potable water up to the indicated water line. Do not overfill, as this may affect the electrolysis process and potentially cause leaks.

1.5L OF HYDROGEN WATER PER DAY

Equivalent to hundreds of fruits and vegetables supply antioxidant value

 516 APPLES	 756 BANANAS
 38 CARROTS	 45 SPINACH
 3.7 PUMPKINS	 66 LEMON

Figure 3: Ensure water is filled to the designated line for optimal performance.

OPERATING INSTRUCTIONS

To begin hydrogen generation, ensure the bottle is filled with water to the marked line and the silicone plug at the base is removed to allow for oxygen gas exhaust. Press the power button located at the base of the unit. The device will initiate the electrolysis process, indicated by colorful lights and the appearance of hydrogen bubbles in the water.

The advanced water ionizer technology, featuring a dual chamber design and a 7-layer SPE platinum catalyzed membrane, efficiently produces hydrogen. After approximately two cycles, the water will reach a hydrogen concentration of up to 4000 PPB and an ORP of -750. This process typically takes a few minutes.

High Quality Materials

2 chamber 7-layer system with platinum PEM technology

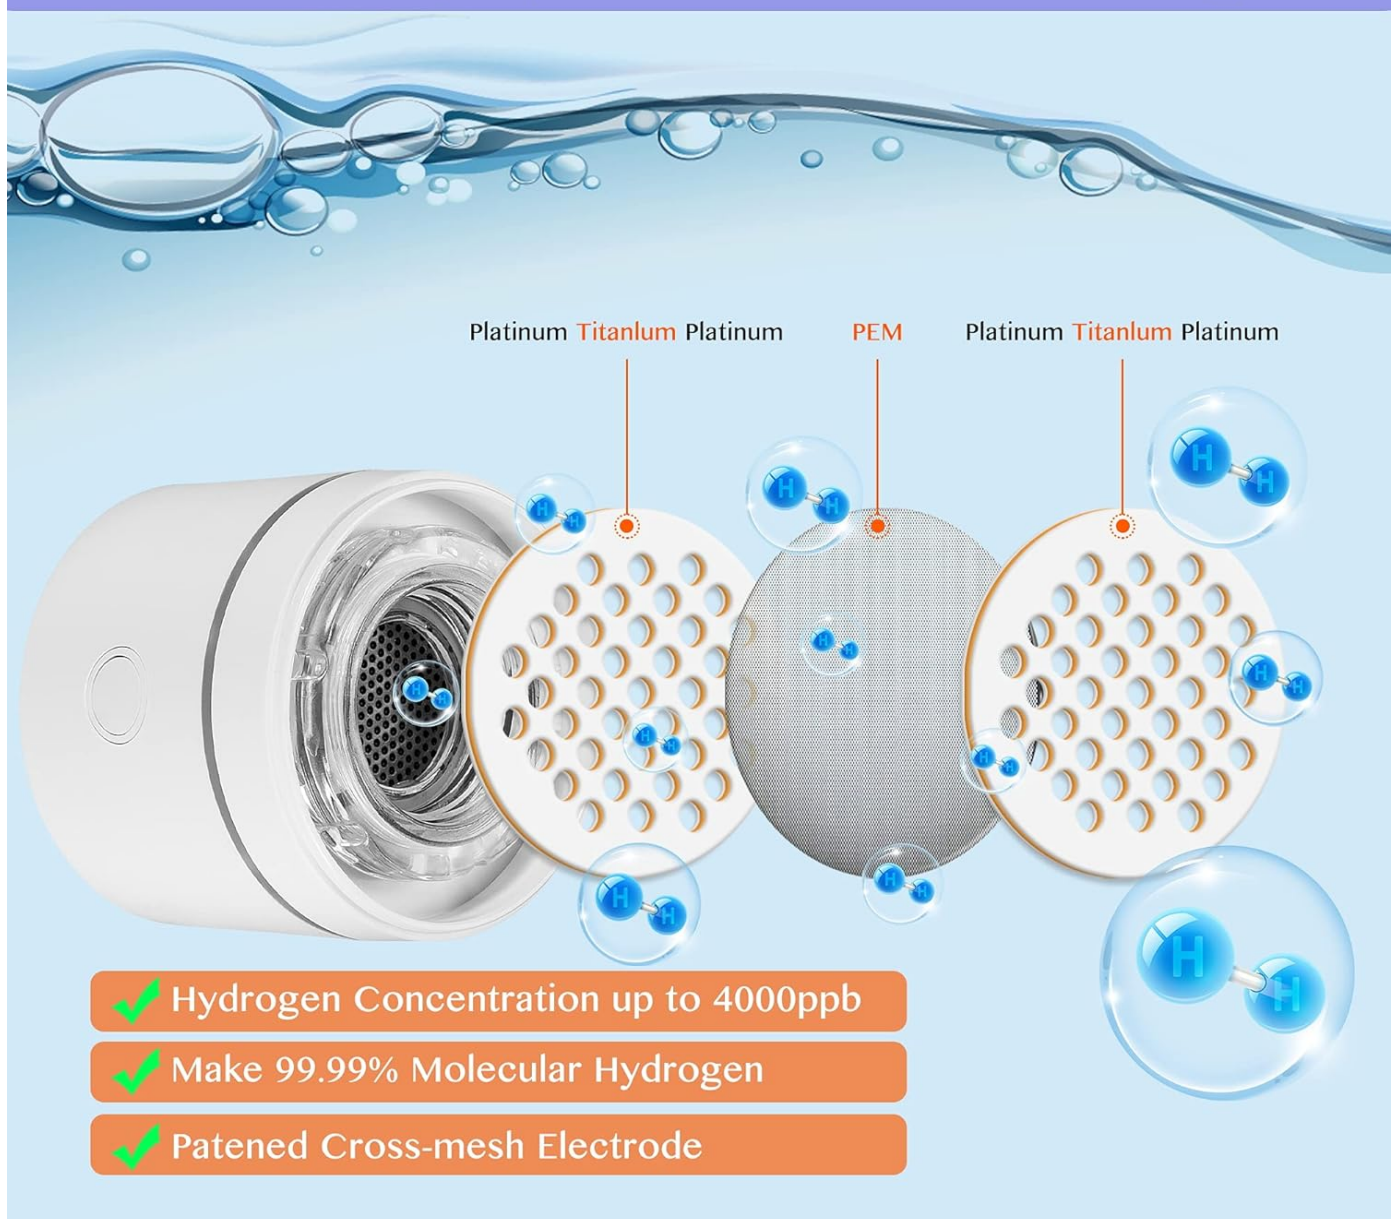

Figure 4: Illustration of hydrogen (H_2) molecules being infused into the water during the generation process.

Once the cycle is complete, the indicator lights will change or turn off, signaling that the hydrogen-rich water is ready for consumption. For optimal benefits, consume the water shortly after generation.

MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your LevelUpWay Hydrogen Water Bottle Generator.

Cleaning

- Regularly rinse the bottle and its components with clean water.
- For thorough cleaning, disassemble the bottle as shown in Figure 2 and clean each part individually.
- Avoid using abrasive brushes, harsh detergents, or chemical cleaners, as these can damage the Tritan plastic and the SPE PEM membrane.
- Ensure the hydrogen generator base is kept dry and clean. Do not submerge the base in water.

Membrane Care

The 7-layer SPE platinum catalyzed membrane is a critical component. To maintain its efficiency:

- Use clean, filtered water with a TDS level not exceeding 1000 PPM.
- If you notice reduced hydrogen production or a change in water taste, a descaling process may be necessary. Consult the manufacturer's website or customer support for detailed descaling instructions.

!!! Fill Water to the Water Line

Figure 5: Detailed view of the high-quality 2-chamber, 7-layer system with platinum PEM technology, designed for efficient hydrogen generation.

This section addresses common issues you might encounter with your hydrogen water bottle generator.

Problem	Possible Cause	Solution
No hydrogen bubbles or indicator lights not activating.	Low battery, improper water level, or silicone plug not removed.	Ensure the device is fully charged. Verify water is filled to the marked line. Confirm the silicone plug at the base is removed.
Water leaking from the base.	Bottle not securely tightened to the base, or internal seal issue.	Ensure the bottle is firmly screwed onto the base. If the issue persists, contact customer support.
Unpleasant odor or taste in water.	Buildup on the membrane or insufficient cleaning.	Perform a thorough cleaning and descaling of the bottle and membrane. Use only clean, potable water.
Charging issues.	Faulty charging cable or port.	Try a different USB charging cable. Ensure the charging port is clean and free of debris. If the issue persists, contact customer support.

The device features a built-in alert system to notify you of certain operational issues. Refer to the indicator light patterns for specific alerts.

SPECIFICATIONS

Feature	Detail
Brand	Level Up Way
Model Name	Level Up Way - Premium Hydrogen Water Bottle Generator
Product Dimensions	1"L x 1"W x 1"H
Item Weight	0.6 Kilograms (1.32 pounds)
Volume	250 Milliliters
Special Feature	Leak Proof
Power Source	Battery Powered
Supported Water TDS Level Maximum	1000 PPM
Shelf Life	3 Years
UPC	850035108000
Batteries required	No (internal rechargeable battery)

WARRANTY AND SUPPORT

Level Up Way is a trusted American brand committed to quality and customer satisfaction. We offer reliable customer support and easily accessible spare parts to ensure a worry-free ownership experience.

ONE
YEAR
PROTECTION

Figure 6: Level Up Way is a trusted American brand offering one year of product protection.

Your LevelUpWay Hydrogen Water Bottle Generator comes with a **1-year protection**. For any inquiries, technical assistance, or to order spare parts, please contact our dedicated customer support team.

Extended Protection Plans

For additional peace of mind, extended protection plans are available:

- **3-Year Protection Plan:** Available for purchase.
- **4-Year Protection Plan:** Available for purchase.
- **Complete Protect:** A monthly plan covering all eligible past and future purchases.

For more details on protection plans and to contact support, please visit the official Level Up Way store or refer to your purchase documentation.
