Google Nest Cam (Outdoor or Indoor, Battery) User Manual

Model: GA02411-US | Brand: Google

INTRODUCTION

The Google Nest Cam (Outdoor or Indoor, Battery) is a versatile security camera designed for both indoor and outdoor use. It offers advanced features to help you monitor your home effectively. This manual provides detailed instructions for setting up, operating, and maintaining your Nest Cam.

Key Features

- **Intelligent Alerts:** Differentiates between people, animals, and vehicles.
- **Wire-Free & Weather Resistant:** Flexible placement indoors or outdoors.
- **1080p HDR Video with Night Vision:** Clear video day and night.
- **3 Hours Free Event Video History:** Review recent activity without a subscription.
- **Two-Way Talk:** Communicate with visitors or deter unwanted guests.
- **Local Storage:** Stores up to an hour of recorded events during outages.
- **Google Home App Integration:** Control and manage your camera from one app.

WHAT'S INCLUDED

Your Google Nest Cam package includes the following items:

- 2 Nest Cam Cameras
- Magnetic and Wall Plates
- Wall Anchors and Screws
- Charge Cable
- Power Adapter

Figure 1: Two Google Nest Cams included in the package.

SETUP AND INSTALLATION

Setting up your Nest Cam is designed to be straightforward. Follow the instructions in the Google Home app for a guided installation process.

App Requirement

The Nest Cam requires the Google Home app and a free Google Account. It is not compatible with the older Nest app or Nest website.

Wire-Free Installation

The battery-powered design allows for wire-free installation, making it easy to place almost anywhere.

Figure 2: Wire-free installation is as simple as hanging a picture frame.

Power Options

Your Nest Cam is primarily battery-powered. For continuous power and 24/7 video recording (with Nest Aware Plus subscription), you can add a weatherproof power cable or an indoor stand with a power cable (both sold separately).

Figure 3: Nest Cam with optional weatherproof power cable for continuous operation.

OPERATING YOUR NEST CAM

The Google Home app is your central hub for controlling and monitoring your Nest Cam.

Intelligent Alerts

The Nest Cam has built-in intelligence to detect and differentiate between people, animals, and vehicles, sending specific alerts to your phone.
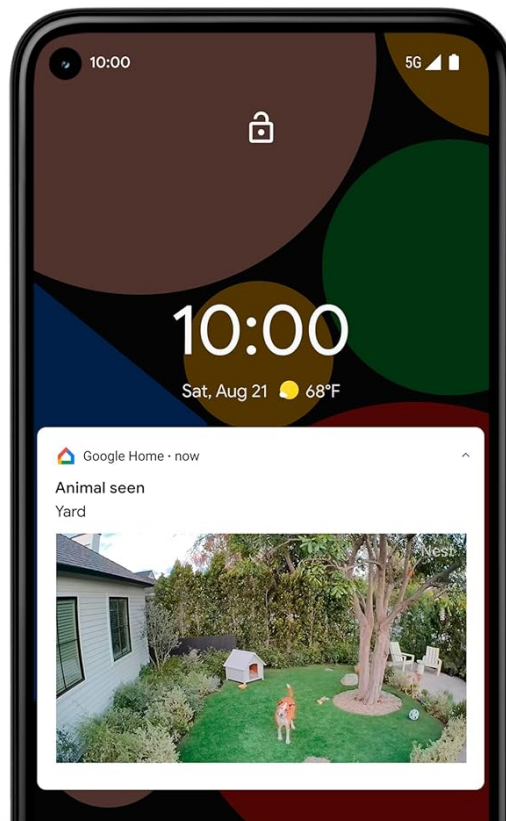

Figure 4: Intelligent alerts for people, animals, and vehicles.

Live View and Video History

Access a live 1080p HDR video feed from anywhere, 24/7. The camera also provides night vision for clear viewing in low-light conditions. You get 3 hours of free event video history, with options to extend up to 60 days with a Nest Aware subscription (sold separately).

Know what's happening 24/7. Or go back in time.

Check in 24/7 on the Google Home app[1]

3 hours of event video history included[2]

Add a Nest Aware subscription for up to 60 days of video history[3]

Figure 5: Reviewing video history in the Google Home app.

Figure 7: Night vision provides clear images in the dark.

Two-Way Talk

Use the built-in speaker and microphone to talk to visitors or communicate with family members through the camera.

Take action in an instant.

Talk and listen with the built-in microphone and speaker.

Call emergency services directly from the Google Home app.[6]

Figure 8: Two-way talk and emergency service calling from the app.

Figure 9: Activating two-way talk via the Google Home app.

Activity Zones

Define specific areas within the camera's view as Activity Zones to receive notifications only when activity is detected in those critical areas.

Figure 10: Customizing Activity Zones for targeted alerts.

Offline Storage

If your Wi-Fi goes down or there's a power outage, the Nest Cam will store up to an hour of recorded events locally, so you don't miss important moments.

**Wi-Fi problems?
Not a problem.**

Stores up to one hour of recorded events if the Wi-Fi goes down or there's a power outage.[4]

Figure 11: Nest Cam continues to record during outages.

MAINTENANCE

To ensure optimal performance of your Nest Cam, consider the following maintenance aspects:

Battery Charging

As a battery-powered device, the Nest Cam will require periodic recharging. The Google Home app will notify you when the battery is low.

Continuous Power Options

For uninterrupted operation and 24/7 video recording (with Nest Aware Plus), consider purchasing a weatherproof power cable for outdoor use or an indoor stand with a power cable for indoor use.

Accessories to customize your camera.

Accessories sold separately.

Easy indoor placement with the tabletop stand.

Add a weatherproof cable for continuous power and 24/7 video recording.[1,8]

Figure 12: Optional accessories for enhanced power and placement.

TROUBLESHOOTING

If you encounter issues with your Nest Cam, try the following steps:

Connectivity Issues

If your camera shows as 'offline' or is not connecting to your Wi-Fi network, ensure your Wi-Fi is stable. Remember that the camera stores up to an hour of events during outages. If reconnection fails, you may need to reset the camera. Locate the reset button (refer to the device diagram in the app) and press it for 15 seconds to perform a factory reset, then repeat the connection process.

App Compatibility

Ensure you are using the Google Home app. The Nest Cam is not compatible with the older Nest app.
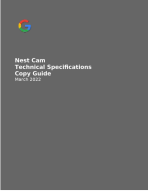

SPECIFICATIONS
