## 2. IMPORTANT SAFETY INFORMATION

To reduce the risk of fire, electric shock, or injury, always follow basic safety precautions when using electrical appliances. This appliance is for household use only.

- Read all instructions before using the appliance.
- Do not immerse the appliance, cord, or plug in water or other liquids.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before handling.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.

- Do not use outdoors.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to 'off', then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- Use only cotton or cotton blend fabrics for warming.
- Avoid placing chemical fiber towels, clothing not resistant to high temperatures, or wet/damp materials inside the warmer.

## 5. OPERATING INSTRUCTIONS

1. **Prepare Items:** Ensure towels, bathrobes, or blankets are dry and made of cotton or cotton blend materials. Fold or roll them neatly to fit inside the warmer bucket.
2. **Load Warmer:** Open the lid and place the items inside the warmer. Do not overfill.
3. **Close Lid:** Securely close the lid.
4. **Power On:** Press the power button once to turn on the warmer. The indicator light will illuminate.
5. **Select Time:** Repeatedly press the power button to cycle through the timing options: 15, 30, 45, or 60 minutes. The corresponding indicator light will show the selected time.
6. **Warming Process:** The warmer will begin heating. It typically takes 6-10 minutes to warm the inner towel.
7. **Retrieve Items:** Once the warming cycle is complete, carefully open the lid and remove your warm items. Use caution as items may be hot.
8. **Power Off:** The unit will automatically shut off after the selected time. To manually turn off, press and hold the power button.

## 6. MAINTENANCE

- **Cleaning:** Always unplug the warmer and allow it to cool completely before cleaning. The lid can be separated for easier cleaning. Wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners or scourers.
- **Interior Cleaning:** Wipe the interior with a soft, damp cloth. Ensure no water enters the electrical components.
- **Storage:** Store the towel warmer in a cool, dry place when not in use.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Warmer does not turn on.	Not plugged in; power outlet malfunction; unit malfunction.	Ensure power cord is securely plugged into a working outlet. Test outlet with another appliance. If problem persists, contact customer support.
Items are not warm enough.	Insufficient warming time; warmer overfilled; items too thick.	Select a longer warming time. Reduce the number of items in the warmer. Ensure items are suitable for warming.
Warmer shuts off unexpectedly.	Overheating protection activated; power interruption.	Unplug the unit and allow it to cool down for 30 minutes. Check for power interruptions. If issue recurs, contact customer support.
