iSpchen 3D Horn Decoration Sticker User Manual

Model: DE-MLMH07578B

1. INTRODUCTION

Welcome to the iSpchen 3D Horn Decoration Sticker user manual. This guide provides detailed instructions for the proper installation, use, and care of your new decoration sticker. Please read this manual thoroughly before installation to ensure optimal results and product longevity.

2. PRODUCT OVERVIEW

2.1 Components

The iSpchen 3D Horn Decoration Sticker is a single, self-adhesive decorative item.

2.2 Features

- **Material:** Constructed from high-quality plastic, offering good pressure resistance, anti-collision, and scratch resistance. It is soft, durable, environmentally friendly, and tasteless.
- **Design:** Features a unique horn-shaped design, providing an eye-catching and fashionable visual effect.
- **Adhesion:** Equipped with a self-adhesive backing for easy application and removal without leaving traces.
- **Versatility:** Suitable for various applications including passenger cars, motorcycles, helmets, and as a general home decoration.

2.3 Dimensions and Weight

Each horn sticker measures approximately 110 mm (height) with a base diameter of 70 mm and weighs approximately 40g.

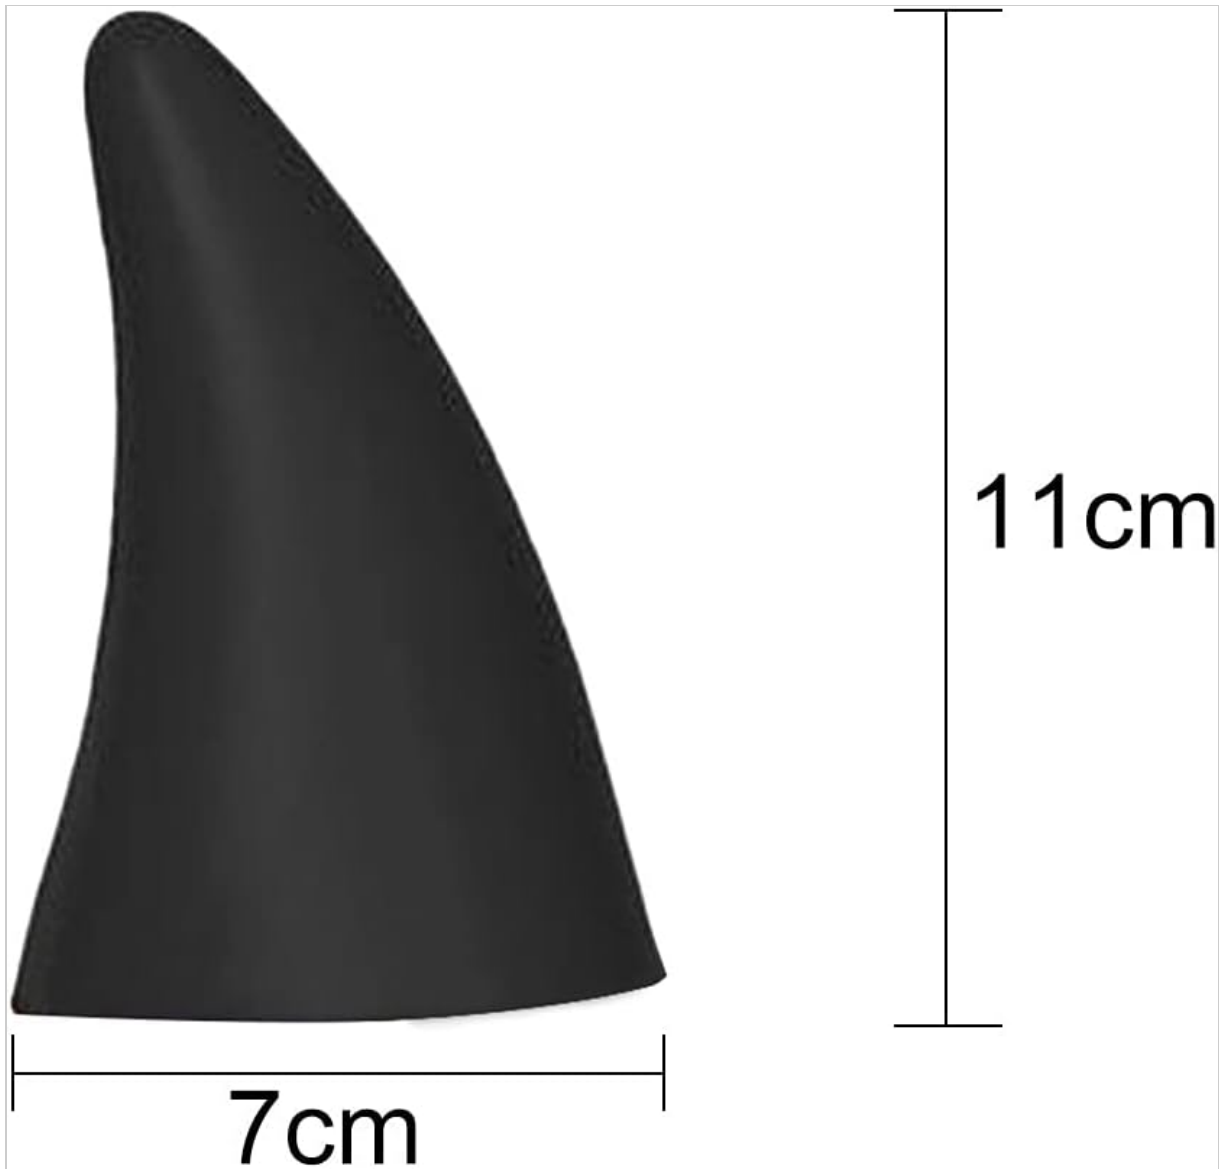

Figure 2: Diagram showing the dimensions of the horn sticker: 11 cm height and 7 cm base diameter.

3. INSTALLATION INSTRUCTIONS

Follow these steps for proper installation of your iSpchen 3D Horn Decoration Sticker:

1. **Clean the Surface:** Ensure the application surface (e.g., car body, helmet) is clean, dry, and free of dust, grease, or wax. Use a mild cleaner and allow it to dry completely.
2. **Determine Placement:** Carefully decide the exact position where you want to apply the sticker. Temporarily hold the sticker in place to visualize the final look.
3. **Peel the Backing:** Gently peel off the protective backing from the adhesive side of the sticker. Avoid touching the adhesive surface with your fingers to maintain its stickiness.
4. **Apply the Sticker:** Align the sticker with your chosen position. Press it firmly onto the surface, starting from one edge and working your way across to prevent air bubbles. Apply even pressure across the entire sticker.
5. **Secure Adhesion:** After application, press down firmly on the entire sticker for at least 30 seconds to ensure strong adhesion. For best results, avoid washing the vehicle or exposing the sticker to extreme moisture for 24-48 hours after installation.

Figure 4: A red iSpchen 3D Horn Decoration Sticker held in a hand, demonstrating its form and color in an indoor setting.

4. USAGE AND APPLICATION

The iSpchen 3D Horn Decoration Sticker is designed for versatile decorative purposes. It can be applied to:

- **Passenger Cars:** Enhance the exterior of your car by applying the horns to the roof, hood, or bumper.
- **Motorcycles:** Customize your motorcycle with these unique horn decorations.
- **Helmets:** Personalize your helmet for a distinctive look.
- **Home Decoration:** Use as a creative accent on various surfaces around your home.

5. CARE AND MAINTENANCE

To ensure the longevity and appearance of your iSpchen 3D Horn Decoration Sticker, follow these maintenance guidelines:

- **Cleaning:** Clean the sticker gently with a soft cloth and mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the material or adhesive.
- **Avoid High-Pressure Washing:** When washing your vehicle, avoid directing high-pressure water streams directly at the sticker's edges, as this may compromise the adhesive.
- **Temperature Extremes:** While durable, prolonged exposure to extreme temperatures (very hot or very cold) may affect the adhesive over time.
- **Removal:** If you need to remove the sticker, gently peel it off. The self-adhesive design is intended to be removed without leaving traces. If any residue remains, it can typically be cleaned with an adhesive remover safe for automotive finishes.

6. TROUBLESHOOTING

6.1 Adhesion Issues

- **Sticker not sticking well:** Ensure the surface was thoroughly cleaned and dry before application. Cold temperatures can affect adhesive performance; apply in moderate temperatures if possible.
- **Air bubbles:** If air bubbles appear, try gently pressing them towards the nearest edge to push the air out. For stubborn bubbles, a small pinprick can release the air, then press down firmly.

6.2 Damage to Sticker

- **Scratches or scuffs:** The sticker is designed to be scratch-resistant, but heavy impact can cause damage. Minor scuffs may sometimes be buffed out with a soft cloth, but significant damage may require replacement.

7. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	iSpchen
Model Number	DE-MLMH07578B
Material	Plastic
Color	Black (also available in Red)
Dimensions (Height)	Approx. 110 mm (11 cm)
Dimensions (Base Diameter)	Approx. 70 mm (7 cm)
Weight	Approx. 40 g
