Livpure LIV-UTC-NEON-RO+UV

Livpure RO+UV+UF+Taste Enhancer Water Purifier User Manual

Model: LIV-UTC-NEON-RO+UV

INTRODUCTION

This manual provides essential information for the installation, operation, and maintenance of your Livpure RO+UV+UF+Taste Enhancer Water Purifier, Model LIV-UTC-NEON-RO+UV. Please read these instructions carefully before using the appliance to ensure safe and efficient operation.

SAFETY INSTRUCTIONS

- Ensure the power supply matches the specifications indicated on the product label.
- Do not operate the purifier with a damaged power cord or plug.
- Keep the appliance away from direct sunlight, high temperatures, and corrosive chemicals.
- Only use genuine Livpure replacement filters and parts.
- Do not attempt to repair or modify the purifier yourself. Contact authorized service personnel.
- Ensure proper ventilation around the unit.

PRODUCT OVERVIEW

The Livpure RO+UV+UF+Taste Enhancer Water Purifier is designed to provide clean and safe drinking water through a multi-stage purification process. It features an 8-liter storage capacity and a stylish faucet for dispensing purified water.

Figure 1: Livpure RO+UV+UF+Taste Enhancer Water Purifier. This image shows the main purification unit with its three filter cartridges visible, alongside a separate external storage tank.

Purification Stages:

1. **Sediment Filter:** Removes suspended impurities like dust, sand, and dirt.
2. **Pre-Activated Carbon Adsorber:** Absorbs chlorine, organic impurities, and bad odors.
3. **Antiscalant Cartridge:** Prevents scaling on the RO membrane, extending its life.
4. **RO Membrane:** Removes dissolved salts, heavy metals, pesticides, and other harmful contaminants.
5. **UV Disinfection Column:** Deactivates bacteria, viruses, and other microorganisms.
6. **UF Membrane:** Provides additional purification by removing fine suspended particles and microorganisms.
7. **Taste Enhancer:** Improves the taste of purified water.

SETUP AND INSTALLATION

The Livpure water purifier comes with an installation kit. Professional installation is recommended to ensure proper functioning and to validate any applicable warranty.

Installation Steps (General Guide):

1. **Unpacking:** Carefully unpack all components from the box. Verify that all parts listed in the installation kit are present.
2. **Site Selection:** Choose a suitable location near a water source, drain, and electrical outlet. Ensure the surface is flat and stable.
3. **Mounting (if applicable):** If wall-mounted, securely fix the mounting bracket to the wall using appropriate fasteners.
4. **Water Connection:** Connect the raw water inlet to the purifier using the provided tubing and connectors. Ensure all connections are tight to prevent leaks.
5. **Drain Connection:** Connect the waste water outlet to a drain.
6. **Faucet Installation:** Install the stylish faucet on your sink or countertop as per the instructions in the installation kit. Connect the purified water outlet to the faucet.
7. **Electrical Connection:** Plug the power cord into a grounded electrical outlet.
8. **Initial Flush:** Before first use, allow the purifier to run for a few minutes to flush out any manufacturing residues. Discard the first few liters of purified water.

Refer to the detailed instructions provided in the physical installation kit for specific diagrams and steps.

OPERATING INSTRUCTIONS

Once installed, operating your Livpure water purifier is straightforward.

1. **Power On:** Ensure the purifier is plugged in and the power switch (if present) is turned on.
2. **Automatic Operation:** The purifier will automatically start purifying water when the storage tank level drops below a certain point and stop when the tank is full.
3. **Dispensing Water:** Open the stylish faucet to dispense purified water from the storage tank.
4. **Countdown Timer:** The unit features a countdown timer, which may indicate filter life or service intervals. Refer to the display for status updates.

MAINTENANCE

Regular maintenance ensures the longevity and efficiency of your water purifier.

- **Filter Replacement:** Filters (Sediment, Carbon, Antiscalant, RO, UF) have a limited lifespan. Replace them as per the manufacturer's recommendations or when indicated by the purifier's countdown timer or performance. Using non-genuine filters may void the warranty and compromise water quality.
- **UV Lamp Replacement:** The UV lamp also has a limited operational life and should be replaced periodically.
- **Tank Cleaning:** Periodically drain and clean the storage tank to prevent bacterial growth.
- **External Cleaning:** Wipe the exterior of the purifier with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Professional Servicing:** Schedule regular professional servicing to ensure all components are functioning correctly.

TROUBLESHOOTING

This section addresses common issues you might encounter with your water purifier.

Problem	Possible Cause	Solution
No water dispensing	No power; water supply off; tank empty; clogged filters.	Check power connection; ensure water supply is on; wait for tank to fill; replace filters.
Slow water flow	Clogged filters; low water pressure.	Replace filters; check household water pressure.
Unpleasant taste/odor	Expired carbon filter; contaminated tank.	Replace carbon filter; clean storage tank.
Water leakage	Loose connections; cracked housing; damaged O-rings.	Tighten connections; contact service for inspection and repair.
Purifier not turning on	No power; faulty power adapter.	Check power outlet and connections; test power adapter.

If the problem persists after attempting these solutions, please contact Livpure customer support.
