1. PRODUCT OVERVIEW

The Livpure LIV-PLATINO-PLUS-COPPER2000 is an advanced water purification system designed to provide clean and safe drinking water. It incorporates multiple stages of purification, including Reverse Osmosis (RO), Ultraviolet (UV), Ultrafiltration (UF), and a Mineraliser, along with a copper enrichment feature. This system is engineered for wall-mount installation and features an interactive feather touch interface for ease of use.

2. IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions carefully before operating the appliance.
- Ensure the power supply matches the specifications indicated on the product label.
- Do not immerse the appliance, cord, or plug in water or other liquids.
- Keep the appliance away from direct sunlight, heat sources, and flammable materials.
- Only use genuine Livpure replacement filters and parts.
- Do not attempt to repair or modify the appliance yourself. Contact qualified service personnel for assistance.
- Ensure proper grounding to prevent electrical hazards.
- Keep children away from the appliance during operation and maintenance.

3. INCLUDED COMPONENTS

The Livpure LIV-PLATINO-PLUS-COPPER2000 Water Purifier package typically includes the following items:

- Water Purifier Unit
- Installation Kit (includes necessary fittings, pipes, and mounting hardware)

Please verify all components are present upon unboxing. If any items are missing or damaged, contact customer support immediately.

4. INSTALLATION GUIDE

The Livpure LIV-PLATINO-PLUS-COPPER2000 is designed for wall-mount installation. Professional installation is highly recommended to ensure proper functioning and to validate the warranty.

4.1 Site Selection

- Choose a clean, dry, and well-ventilated location near a water source and an electrical outlet.
- Ensure the wall is strong enough to support the weight of the purifier when full of water (approximately 11 kg + water weight).
- Avoid locations exposed to direct sunlight or extreme temperatures.
- Allow sufficient space around the unit for maintenance and filter replacement.

4.2 Installation Steps (Professional Recommended)

1. **Mounting the Unit:** Securely mount the purifier on the selected wall using the provided mounting hardware from the installation kit. Ensure it is level.
2. **Water Inlet Connection:** Connect the raw water supply to the purifier's inlet port. Ensure all connections are tight to prevent leaks.
3. **Drain Line Connection:** Connect the waste water drain line to a suitable drainage point.
4. **Power Connection:** Plug the power cord into a grounded electrical outlet.
5. **Initial Flush:** Before first use, allow the purifier to run for a few minutes to flush out any manufacturing residues. Refer to the operation section for details on dispensing water.

5. OPERATING INSTRUCTIONS

The Livpure LIV-PLATINO-PLUS-COPPER2000 features an interactive feather touch interface for easy operation.

5.1 Powering On

Once installed and connected to power, the unit will display a 'WELCOME!' message on its LED screen. The purification process will begin automatically to fill the internal storage tank.

Image 5.1: Close-up of the interactive feather touch interface with options for 'CONTINUOUS FLOW', 'CUSTOMIZED GLASS', and 'CUSTOMIZED BOTTLE'.

5.2 Dispensing Water

The purifier offers custom dispensing options:

- **Continuous Flow:** Touch the 'CONTINUOUS FLOW' option to dispense water continuously. Touch again to stop.
- **Customized Glass:** Touch 'CUSTOMIZED GLASS' to dispense a pre-set amount of water suitable for a glass.
- **Customized Bottle:** Touch 'CUSTOMIZED BOTTLE' to dispense a pre-set amount of water suitable for a bottle.

Place your container under the dispenser nozzle before selecting a dispensing option.

5.3 Countdown Timer

The unit is equipped with a countdown timer feature. Refer to the display for information related to filter life or service reminders.

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your water purifier. Always disconnect the power supply before performing any maintenance.

6.1 Cleaning the Exterior

Wipe the exterior of the purifier with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners, as these can damage the surface.

6.2 Filter Replacement

The Livpure LIV-PLATINO-PLUS-COPPER2000 utilizes a multi-stage purification system. Filters have a limited lifespan and require periodic replacement. The unit's countdown timer or service indicator will alert you when filter replacement is due.

- **Super Sediment Filter:** Removes larger suspended particles.
- **Pre-Activated Carbon Filter:** Absorbs chlorine, organic impurities, and improves taste.
- **UF Cartridge + Carbon Block Filter:** Further filtration for fine particles and improved water quality.
- **RO Membrane-HR:** Removes dissolved solids, heavy metals, and microorganisms.
- **Mineraliser:** Adds essential minerals back into the purified water.
- **Copper Cartridge:** Enriches water with copper.

Contact authorized Livpure service personnel for filter replacement to ensure proper installation and use of genuine parts.

Copper cartridge

Avail benefits from copper enriched water

Image 6.1: Illustration showing the copper cartridge component, which enriches the purified water.

6.3 Auto Flush & Leakage Sensor

The purifier is equipped with an auto-flush function to clean the RO membrane and a leakage sensor for safety. If a leak is detected, the unit may automatically shut off the water supply. Contact service if a leak persists.

7. TROUBLESHOOTING

This section addresses common issues you might encounter. For problems not listed here, or if solutions do not resolve the issue, contact customer support.

Problem	Possible Cause	Solution
No water dispensing	No power supply Water inlet valve closed Storage tank empty Clogged filters	Check power connection Open water inlet valve Wait for tank to fill Contact service for filter inspection/replacement

Problem	Possible Cause	Solution
Slow water flow	Clogged filters Low water pressure	Contact service for filter inspection/replacement Check household water pressure
Unusual taste/odor	Expired carbon filter New filter residue	Contact service for carbon filter replacement Flush the system for a few minutes
Water leakage	Loose connections Damaged component	Turn off water supply and power. Contact service immediately.
Unit not turning on	No power supply Blown fuse/tripped breaker	Check power cord and outlet Check household electrical panel

8. PRODUCT SPECIFICATIONS

Below are the technical specifications for the Livpure LIV-PLATINO-PLUS-COPPER2000 Water Purifier:

Feature	Specification
Brand	Livpure
Model Name	LIV-PLATINO-PLUS-COPPER2000
Purification Method	RO + UV + UF + Mineraliser + Copper
Special Feature	Countdown Timer, Interactive Feather Touch Interface, Auto Flush & Leakage Sensor
Installation Type	Wall Mount
Power Source	Corded Electric
Supported Water TDS Level Maximum	2000 PPM
Storage Capacity	8.5 litres
Filtration Capacity	15 litres per hour
Item Weight	11 kg
Product Dimensions (LxWxH)	44.5 x 58.2 x 35.2 cm
Color	White

Image 8.1: Visual summary of key features including Water Saving Purification (HR70), Interactive LED Display, 8.5 Litres Storage Capacity, Custom Dispensing Options, Auto Flush & Leakage Sensor, Mineraliser, 7 Stage Advanced Purification, In-tank UV Sterilization, and 15 litres per hour filtration capacity.

9. WARRANTY AND SUPPORT

9.1 Warranty Information

According to product information, this item is listed with "No Warranty". It is advisable to confirm the current warranty policy with Livpure or your retailer at the time of purchase, as policies can change.

9.2 Customer Support

For any service requests, technical assistance, or inquiries regarding your Livpure LIV-PLATINO-PLUS-COPPER2000 Water Purifier, please contact Livpure customer support. Refer to the contact details provided in your purchase documentation or visit the official Livpure website for the most up-to-date support information.
