Troubleshooting

Common Issues and Solutions

- **Tablet not turning on:** Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again. If unresponsive, try holding the Power button for 10-15 seconds for a forced restart.
- **Wi-Fi connection issues:** Check if Wi-Fi is enabled in settings. Restart your Wi-Fi router. Forget the network and reconnect. Ensure you are within range of the Wi-Fi signal.
- **Slow performance:** Close unused applications. Clear cache from apps. Restart the tablet. Consider performing a factory reset as a last resort (back up your data first).
