Dalmbox DL-FHX-BLACK

Dalmbox Portable Metal Safe Box with Key Lock - Instruction Manual

Model: DL-FHX-BLACK

INTRODUCTION

This manual provides essential instructions for the safe and effective use of your Dalmbox Portable Metal Safe Box with Key Lock. Please read this manual thoroughly before operating the product and retain it for future reference. This safe box is designed to provide secure storage for important documents, valuables, and personal items.

IMPORTANT SAFETY INFORMATION

- **Fire Resistance:** This product is designed with fire-retardant metal material. While it offers enhanced protection against fire, it is not entirely fireproof. Extreme or prolonged exposure to fire may still cause damage to contents.
- **Water Resistance:** This safe box is **not water resistant**. Do not expose it to water or high humidity.
- **Key Security:** Keep all keys in a secure location, separate from the safe box. Do not store spare keys inside the safe box.
- **Placement:** Place the safe box on a stable, flat surface. Avoid placing it in areas prone to extreme temperatures or moisture.
- **Children:** Keep the safe box and its keys out of reach of children.

PACKAGE CONTENTS

Verify that all items listed below are present in your package:

- Dalmbox Portable Metal Safe Box
- Keys (2 included)
- Instruction Manual (this document)

SETUP

1. Initial Unpacking

Carefully remove the safe box from its packaging. Inspect the box for any signs of damage. If damage is present, contact customer support immediately.

2. Locating the Keys

The keys are typically attached to the exterior handle or secured within the packaging. Locate both keys. It is recommended to store one key in a safe, separate location as a backup.

Figure 1: Close-up view of the key lock mechanism and the two included keys. Ensure both keys are secured.

OPERATING INSTRUCTIONS

1. Opening the Safe Box

1. Insert one of the provided keys into the keyhole located on the lid of the safe box.
2. Turn the key clockwise (or counter-clockwise, depending on the lock mechanism) until the lock disengages.
3. Lift the lid to open the safe box.

Figure 2: The Dalmbox safe box in a partially open state, illustrating the key lock on the lid.

2. Storing Items

The interior of the safe box features a protective addition (felt lining) at the bottom to help prevent scratches and provide cushioning for your valuables.

- Place documents, cash, passports, jewelry, or other valuables neatly inside the box.
- Ensure the contents do not obstruct the locking mechanism when closing the lid.

Heavy duty and Durable

Figure 3: Interior view of the safe box with various items, such as gold bars, cash, and a passport, demonstrating its storage capacity.

3. Closing and Locking the Safe Box

1. Close the lid firmly.
2. Insert the key into the keyhole and turn it counter-clockwise (or clockwise) until the lock engages.
3. Remove the key and store it in a secure location.

The box with Fire-retardant Coatings

Figure 4: The Dalmbox safe box in a closed and locked position, highlighting its portable design with a handle.

4. Portability

The Dalmbox safe box is designed for portability, featuring an exterior handle and a weight of approximately 7 lbs. This allows for easy transport between locations such as home, office, or car.

Figure 5: A hand demonstrating the portability of the safe box using its handle, suitable for various environments.

MAINTENANCE

- **Cleaning:** Wipe the exterior of the safe box with a soft, dry cloth. Avoid abrasive cleaners or solvents that could damage the finish.
- **Lock Care:** Periodically check the key lock for smooth operation. If the lock feels stiff, a small amount of graphite lubricant can be applied to the key and inserted into the lock.
- **Storage:** When not in use, store the safe box in a dry environment to prevent rust or corrosion.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Key does not turn or is stiff.	Debris in lock, or lack of lubrication.	Gently try to wiggle the key. Apply a small amount of graphite lubricant to the key and insert it into the lock. Do not force the key.
Lid does not close properly.	Contents are obstructing the lid or lock mechanism.	Rearrange contents inside the box to ensure nothing is blocking the lid or the locking mechanism.
Safe box appears damaged upon arrival.	Shipping damage.	Do not use the product. Contact customer support immediately for assistance.
