AROEVE MK01

AROEVE Air Purifier MK01 User Manual

Model: MK01 | Brand: AROEVE

1. INTRODUCTION

The AROEVE Air Purifier MK01 is designed to improve indoor air quality by filtering out various airborne particles. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your air purifier.

Image 1.1: The AROEVE Air Purifier MK01, a compact and efficient device for improving indoor air quality.

2. SAFETY INFORMATION

Please read all safety instructions carefully before using the appliance. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Ensure the voltage of the air purifier (120V) is suitable for use only in the United States.
- Do not operate the air purifier with a damaged cord or plug.
- Keep the air purifier away from water or wet areas.
- Do not block air inlets or outlets.
- Unplug the appliance before cleaning or performing any maintenance.
- Keep out of reach of children and pets.

3. PACKAGE CONTENTS

Verify that all components are present upon opening the package:

- AROEVE Air Purifier MK01 Unit
- Filter (pre-installed or separate)
- User Manual (this document)

4. SETUP

Follow these steps to set up your AROEVE Air Purifier:

1. Unpack the air purifier and remove all packaging materials.
2. Place the unit on a firm, level surface. Ensure there is adequate space around the unit for proper airflow (at least 6 inches from walls or furniture).
3. If the filter is not pre-installed, open the filter compartment (usually at the bottom or back) and insert the filter. Ensure it is securely in place.
4. Plug the power cord into a standard 120V AC outlet.

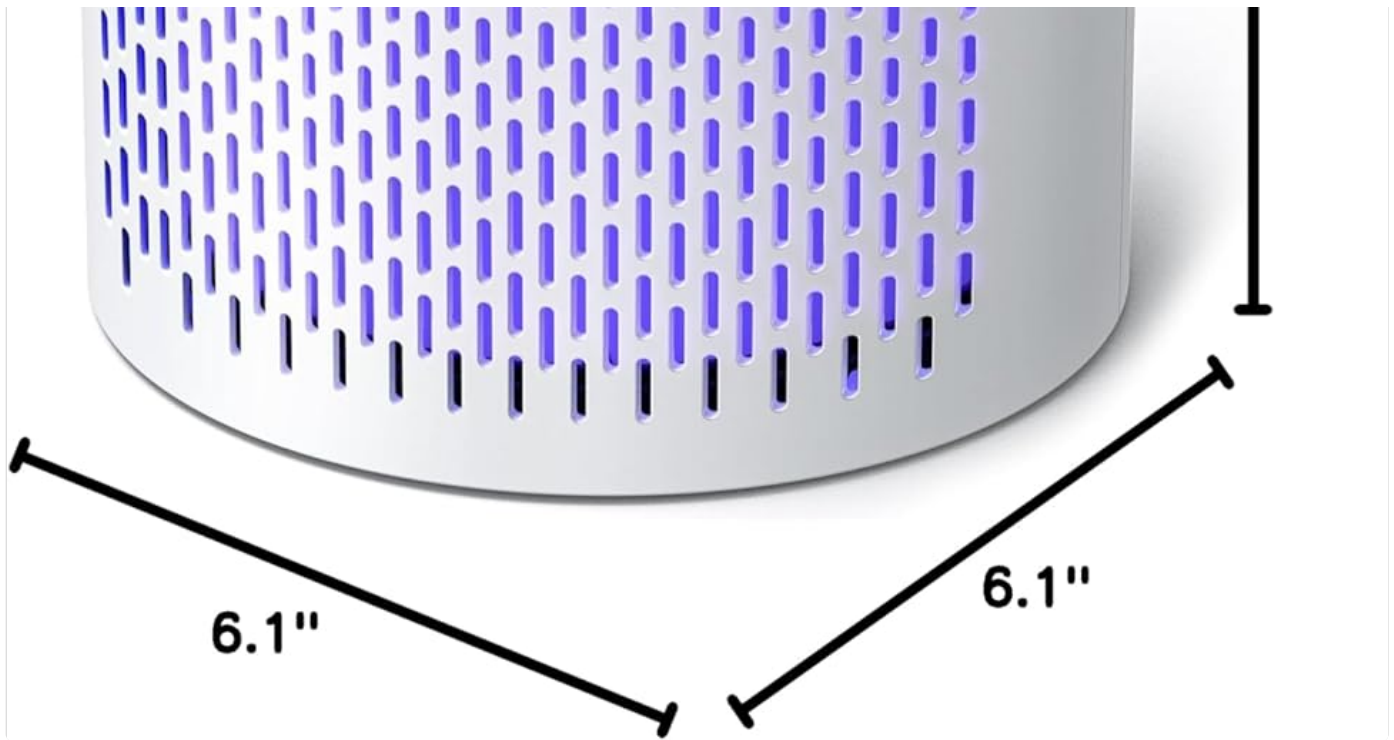

Image 4.1: The compact dimensions of the AROEVE Air Purifier MK01 (6.1"D x 6.1"W x 9.7"H) allow for flexible placement in various rooms.

5. OPERATING INSTRUCTIONS

The AROEVE Air Purifier MK01 features intuitive controls for easy operation.

5.1 Power On/Off

Press the power button (Controller Type: Button Control) to turn the unit on or off. The unit will typically start in a default mode.

5.2 Fan Speed Control

Adjust the fan speed to your preference. Higher speeds provide faster air purification, while lower speeds offer quieter operation.

Breathe Fresh Air within Minutes

287 ft²
Applicable area

Flowise
Technology

*Per 1 hour pollen filtration efficiency was taken - the applicable area was converted based on AHAM

Image 5.1: The AROEVE Air Purifier MK01 is capable of refreshing the air in rooms up to 287 sq ft within minutes, ensuring a clean breathing environment.

5.3 Sleep Mode

Activate Sleep Mode for ultra-quiet operation. In this mode, the fan speed is reduced to its lowest setting, resulting in a noise level as low as 22 dB, ideal for undisturbed sleep.

Silent Purification At Sleeping Night

22dB

Noise Low Than

SilentAirMax
Technology

*When MK01 runs in Sleep Mode, the noise is the lowest 22dB.

Image 5.2: The air purifier operates at a low noise level of 22dB in sleep mode, providing silent purification for a peaceful night.

5.4 Aroma Pad Feature

The unit includes an aroma pad located below the air outlet. Add 4-5 drops of your favorite essential oil (not included) to the sponge. As the purifier circulates air, the fragrance will disperse throughout the room, enhancing your environment.

Add Your Favourite Oil Fragrance

Add several drops of essential oil to the sponge-breathe the fresh air and relax!

*Note: Essential oils are not included in the package!

Image 5.3: The aroma pad feature allows users to add essential oils for a pleasant fragrance while purifying the air.

5.5 Filter Types

The AROEVE Air Purifier supports different filter types to cater to specific needs:

- **Standard Version:** General air purification.
- **Pet Dander Version:** Optimized for filtering pet dander and related allergens.
- **Smoke Remove Version:** Designed for enhanced removal of smoke particles and odors.

Choose What Filter You Need

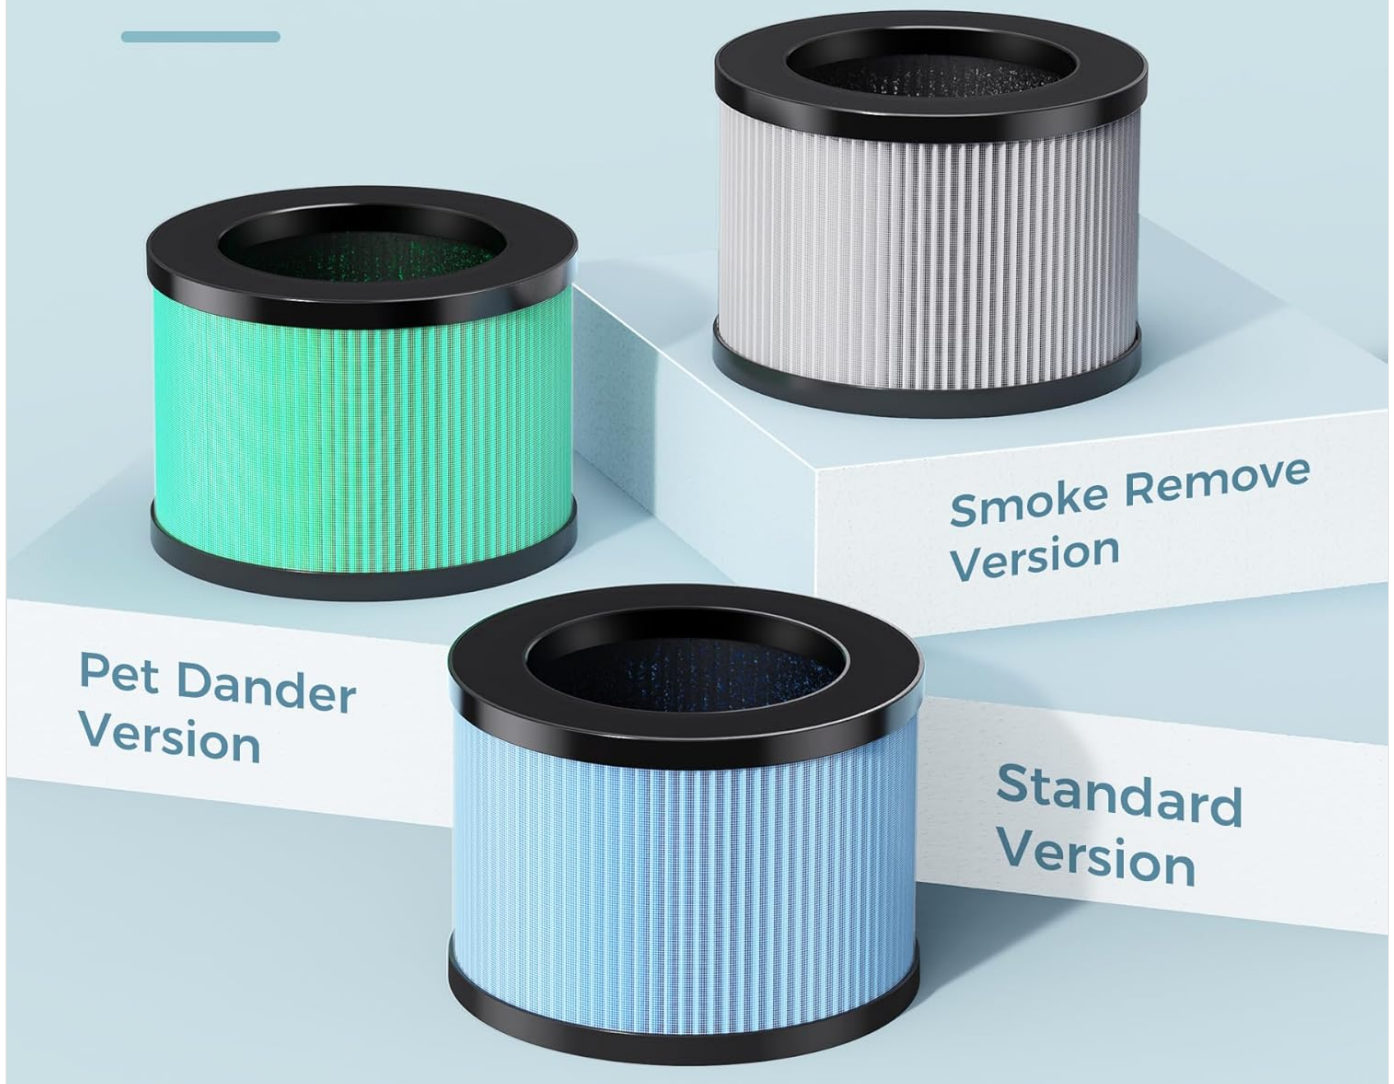

Image 5.4: Various filter options are available, including Standard, Pet Dander, and Smoke Remove versions, to customize purification based on specific needs.

6. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your air purifier.

6.1 Filter Replacement

The air purifier is equipped with a replacement reminder. A red indicator light will illuminate to signal that the filter cartridge needs replacement. For optimal performance, it is recommended to replace the filter cartridge once every 3-6 months, depending on usage and air quality.

1. Unplug the air purifier from the power outlet.
2. Locate and open the filter compartment.
3. Remove the old filter and dispose of it properly.
4. Insert the new filter, ensuring it fits snugly.

5. Close the filter compartment.
6. Plug the unit back in. Reset the filter indicator if necessary (refer to specific model instructions for reset procedure, usually by holding the power button for a few seconds).

6.2 Cleaning the Unit

Wipe the exterior of the air purifier with a soft, dry cloth. Do not use abrasive cleaners or solvents. Ensure no liquid enters the unit.

7. TROUBLESHOOTING

Refer to this section for common issues and their solutions.

Problem	Possible Cause	Solution
Unit does not turn on.	Not plugged in; power outlet malfunction; power button not pressed.	Ensure power cord is securely plugged in. Test the outlet with another device. Press the power button firmly.
Reduced airflow or purification efficiency.	Clogged filter; blocked air inlets/outlets.	Check and replace the filter if the indicator light is on. Ensure air inlets and outlets are clear of obstructions.
Unusual noise.	Filter not installed correctly; foreign object inside.	Check filter installation. Unplug and inspect for any foreign objects.
Red indicator light remains on after filter change.	Filter reset not performed.	Refer to the specific model instructions for resetting the filter indicator (typically by holding the power button for a few seconds after filter replacement).
