2. SAFETY INSTRUCTIONS

- Ensure all components are securely fastened before use.
- Keep children and pets away from the desk during height adjustment.
- Do not place hands or objects in the path of moving parts.
- Avoid overloading the desk; the maximum weight capacity is 70 kg.
- Do not disassemble or modify the desk's electrical components. Contact qualified personnel for repairs.
- Ensure the power cord is not pinched or damaged.
- Unplug the desk from the power outlet before cleaning or maintenance.
- The desk features an anti-collision system and overheat protection for safety. Do not attempt to bypass these features.

3. PACKAGE CONTENTS

The package includes the following items:

- Electric Standing Desk (Desktop and Frame components)
- User Manual

- Assembly Hardware and Tools (if applicable)

Please check all components upon receipt. If any parts are missing or damaged, contact customer support.

4. ASSEMBLY INSTRUCTIONS

Assembly is required for this product. Follow the detailed instructions provided in the separate assembly guide included with your purchase. Ensure all screws are tightened securely, but do not overtighten.

Key Assembly Considerations:

- **Frame Assembly:** Connect the lifting columns to the feet and crossbar.
- **Desktop Attachment:** Securely attach the desktop to the assembled frame.
- **Control Panel Installation:** Mount the control panel to the underside of the desk in an easily accessible location.
- **Cable Management:** Utilize the integrated cable management hole to organize power and data cables.

5. OPERATING INSTRUCTIONS

5.1. Height Adjustment

The desk's height can be electrically adjusted to suit your preference, allowing you to switch between sitting and standing positions. The adjustable height range is from 72 cm (minimum) to 116 cm (maximum).

- Use the **Up (▲)** and **Down (▼)** buttons on the control panel to manually adjust the desk height.
- Press and hold the button until the desired height is reached. Release the button to stop the movement.

1. To Set a Memory Preset:

- Adjust the desk to your desired height using the Up (▲) or Down (▼) buttons.
- Press and hold one of the memory buttons (1, 2, 3, or 4) until you hear a beep or see the display flash, indicating the height has been saved.

2. To Use a Memory Preset:

- Simply press the corresponding memory button (1, 2, 3, or 4). The desk will automatically move to the saved height.

5.3. Anti-Collision System

The desk is equipped with an anti-collision system. If the desk encounters an obstacle during height adjustment (either moving up or down), it will automatically stop and reverse slightly to prevent damage or injury.

5.4. Overheat Protection

For prolonged motor life and safety, the desk includes an overheat protection feature. If the motor is used continuously for an extended period, it may temporarily stop operation to cool down. Normal function will resume once the motor temperature returns to a safe level.

5.5. Quiet Operation

The electric motor operates quietly, typically under 45 dB, ensuring a minimal disturbance to your work environment.
