MAINTENANCE

To ensure the longevity and cleanliness of your LEGO City Police Car Toy, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft cloth or brush to gently remove dust and dirt from the bricks. For deeper cleaning, bricks can be washed by hand in lukewarm water (up to 40°C or 104°F) with a mild detergent. Rinse thoroughly and air dry. Do not use hot water, harsh chemicals, or abrasive materials, as these can damage the plastic.
- **Storage:** Store LEGO bricks in a clean, dry place away from direct sunlight and extreme temperatures. This helps prevent discoloration and warping.
- **Handling:** Avoid excessive force when connecting or disconnecting bricks to prevent damage.

TROUBLESHOOTING

While LEGO sets are designed for durability and ease of assembly, you may encounter minor issues.

Here are some common troubleshooting tips:

- **Missing Pieces:** In the rare event of a missing piece, please refer to the Support section for information on how to contact LEGO Customer Service for replacement parts.
- **Difficulty Connecting Bricks:** Ensure that bricks are aligned correctly before applying gentle, even pressure. Some new bricks may require slightly more force initially.
- **Model Instability:** Double-check all connections according to the instructions. Loose connections can lead to instability. Re-press firmly on all assembled sections.
