Biddeford Blankets 6 Ounce Quilted Electric Heated Mattress Pad with Digital Controller

Model: 5260-5361283100 (Twin Size)

INTRODUCTION

Thank you for choosing the Biddeford Blankets 6 Ounce Quilted Electric Heated Mattress Pad. This product is designed to provide warmth and comfort for a restful night's sleep. Please read this manual thoroughly before use to ensure safe and proper operation.

IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

1. Read all instructions before using this mattress pad.
2. Do not use with infants, children, incapacitated persons, or anyone insensitive to heat.
3. Do not use with a damaged cord or plug. If the cord or plug is damaged, do not use the product.
4. Do not use with other heating devices.
5. Do not use if wet.
6. Ensure the controller is not covered or placed under the mattress pad during operation to prevent overheating.
7. Always unplug the mattress pad from the electrical outlet when not in use.

SETUP

Follow these steps to properly set up your electric heated mattress pad:

1. **Unpack:** Carefully remove the mattress pad and controller(s) from the packaging.
2. **Position:** Place the mattress pad directly on your mattress, ensuring it lies flat and smooth. The fitted skirt should securely fit around the mattress, similar to a standard mattress protector.
3. **Connect Controller:** Locate the connector on the mattress pad and the corresponding plug on the digital controller. Firmly push the controller plug into the mattress pad connector until it clicks into

place. Ensure a secure connection.

4. **Power Connection:** Plug the power cord from the controller into a standard 120V AC electrical outlet. Do not use with extension cords or power strips unless specifically rated for high-wattage appliances.
5. **Placement of Controller:** Place the controller in an easily accessible location, such as a nightstand, ensuring it is not covered by bedding or other items.

The Biddeford Blankets 6 Ounce Quilted Electric Heated Mattress Pad, folded, with its digital controller resting on top.

The quilted electric heated mattress pad laid out on a bed, showing two digital controllers for dual zone heating (for Queen/King sizes, Twin has one controller).

OPERATING INSTRUCTIONS

Your Biddeford Blankets heated mattress pad features a user-friendly digital controller.

1. **Power On/Off:** Press the power button (usually a circular button with a power symbol) to turn the mattress pad on or off. The digital display will illuminate when on.
2. **Adjust Heat Settings:** Use the up (▲) and down (▼) arrow buttons to select your desired heat level. There are 10 heat settings available, from 1 (low) to H (high).
3. **Pre-Heat Function:** Press the 'PRE-HEAT' button to quickly warm your bed before use. The pre-heat function will typically operate at a higher setting for a short period and then revert to your last selected heat setting.
4. **Automatic Shut-Off:** For safety and energy conservation, the mattress pad is equipped with a 10-hour automatic shut-off feature. The unit will automatically turn off after 10 hours of continuous operation.
5. **Dual Controls (Queen/King Sizes):** Queen and King size mattress pads come with two individual controllers, allowing each side of the bed to have independent heat settings. Twin and Full sizes include one controller.

MAINTENANCE

Proper care will extend the life of your heated mattress pad.

1. **Washing Instructions:** The mattress pad is machine washable. Disconnect the controller(s) completely before washing. Wash on a gentle cycle with cold water.
2. **Drying Instructions:** The mattress pad is dryer safe. Tumble dry on low heat. Ensure the pad is completely dry before reconnecting the controller(s) or storing. Do not iron.
3. **Storage:** When not in use, store the mattress pad in its original bag or a breathable storage container in a cool, dry place. Avoid placing heavy objects on top of the pad to prevent damage to the internal wiring.

TROUBLESHOOTING

If you experience issues with your heated mattress pad, please refer to the following common solutions:

- **No Heat/Power:**
 - Ensure the power cord is securely plugged into a working electrical outlet.
 - Verify that the controller is firmly connected to the mattress pad.
 - Press the power button on the controller to turn the unit on.

- **Uneven Heating:**
 - Ensure the mattress pad is spread flat on the bed without folds or wrinkles.
 - Allow sufficient time for the pad to heat evenly across the entire surface.

- **Controller Error Code:**
 - If an error code appears on the digital display, unplug the unit from the wall outlet for 5 minutes, then plug it back in. If the error persists, contact customer support.

If these steps do not resolve the issue, please contact Biddeford Blankets Customer Support.
