Sun Joe SPX-ACS-MAX

Sun Joe SPX-ACS-MAX Auto Cleaning System User Manual

Model: SPX-ACS-MAX | Brand: Sun Joe

INTRODUCTION

The Sun Joe SPX-ACS-MAX Auto Cleaning System is designed to enhance your pressure washing experience, providing a comprehensive set of accessories for effective and efficient cleaning of vehicles, windows, and various outdoor surfaces. This system includes a variety of brushes, a turbo nozzle with an extension rod, a microfiber cloth, and universal adapters to ensure compatibility with most pressure washer brands up to 3500 PSI.

PACKAGE CONTENTS

Verify that all items are present upon unboxing:

- Utility Bristle Brush
- Rotary Wash Brush (5.7-inch diameter with 0° to 180° adjustable head)
- Wheel + Rim Brush
- Turbo Nozzle
- 20-inch Extension Rod
- 16" x 16" Microfiber Cloth
- 7 Universal Pressure Washer Adapters

SETUP

The Sun Joe SPX-ACS-MAX system is designed for easy attachment to most pressure washers. Identify the correct adapter for your specific pressure washer model. The accessories utilize a twist-lock connection for secure fitting.

1. **Select Adapter:** Choose one of the seven provided adapters that matches your pressure washer's connection type.
2. **Attach Adapter:** Securely attach the selected adapter to your pressure washer's spray gun or lance.
3. **Connect Accessory:** Align the desired cleaning accessory (brush, nozzle, or extension rod) with the adapter and twist to lock it into place. Ensure a firm connection before operating.

TACKLE YOUR TOUGHEST GRIME

AUTO CLEANING SYSTEM Pressure Washer Accessories Kit

Consistent Pressure

Maintains steady cleaning power.

Deep Cleaning

Removes grime, dirt, and mildew.

Gentle on Paint

Bristles won't scratch vehicle surfaces.

High-Speed Rotation

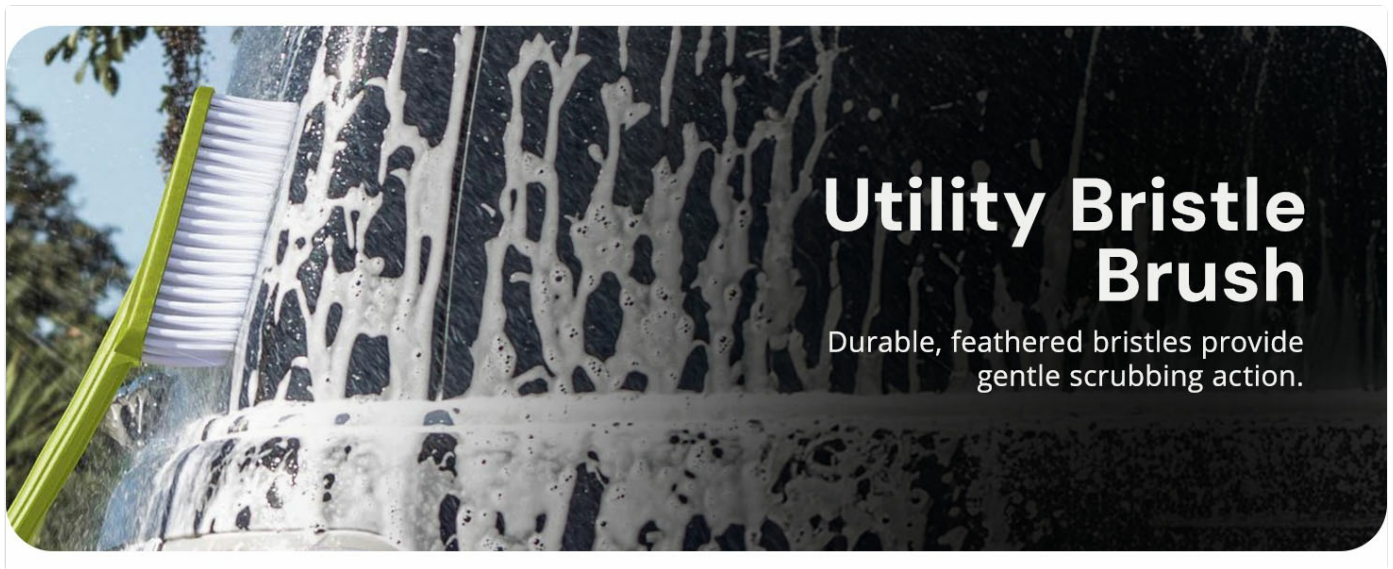

Provides powerful scrubbing action.

OPERATING INSTRUCTIONS

Utility Bristle Brush

This brush features durable, feathered bristles that provide a gentle scrubbing action. It is ideal for cleaning delicate surfaces such as car bodies, windows, and painted surfaces without causing scratches. Connect it to your pressure washer and apply water while gently scrubbing the surface.

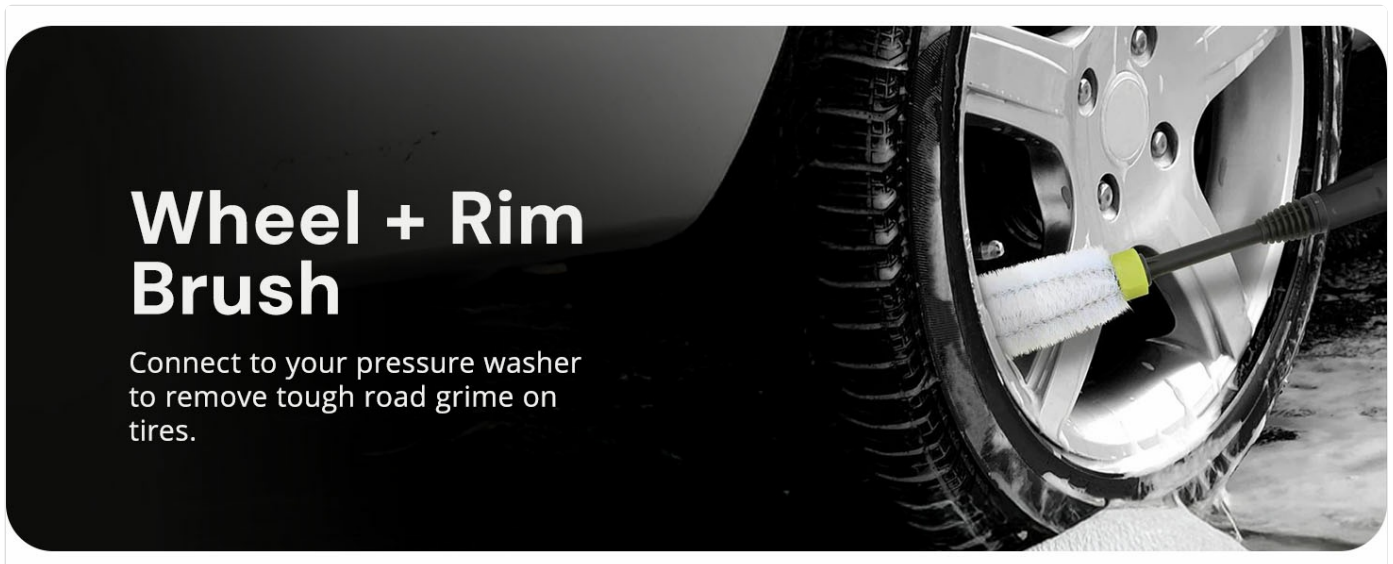

Utility Bristle Brush

Durable, feathered bristles provide gentle scrubbing action.

Wheel + Rim Brush

Designed specifically for wheels and rims, this brush effectively removes tough road grime and brake dust from intricate areas. Attach it to your pressure washer and use the water flow combined with the brush's bristles to clean between spokes and around lug nuts.

Wheel + Rim Brush

Connect to your pressure washer to remove tough road grime on tires.

Rotary Wash Brush

The 5.7-inch diameter rotary wash brush features an adjustable head that can rotate from 0° to 180°. This allows for versatile cleaning angles and spins away gunk and grime with powerful scrubbing action. It is ideal for larger flat surfaces like vehicle hoods, roofs, and siding.

Turbo Nozzle + 20-inch Extension Rod

The 20-inch extension rod combined with the 90° angled turbo nozzle is perfect for reaching hard-to-access areas, such as under cars, wheel wells, and gutters. The turbo nozzle provides a concentrated, rotating spray for powerful cleaning of stubborn dirt and debris.

Microfiber Cloth

The included 16" x 16" microfiber cloth is washable and reusable. Use it for drying surfaces after pressure washing to achieve a streak-free finish, or for applying cleaning solutions and polishing. Its soft texture ensures gentle treatment of surfaces.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your cleaning system.

- **Cleaning Accessories:** After each use, rinse all brushes and nozzles thoroughly with clean water to remove any soap residue or debris.
- **Microfiber Cloth:** The microfiber cloth is washable. Machine wash with similar colors and air dry for best results. Do not use fabric softener.
- **Storage:** Store all components in a clean, dry place, away from direct sunlight and extreme temperatures. Ensure all parts are dry before storage to prevent mold or mildew.
- **Adapter Care:** Periodically inspect adapters for wear or damage. Replace if necessary to maintain a secure connection.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Accessory does not fit pressure washer.	Incorrect adapter selected.	Refer to the "Setup" section and try a different adapter from the provided set. Ensure the adapter is fully seated.
Water leaks from connection.	Adapter not securely attached or O-ring damaged.	Ensure the adapter and accessory are twisted firmly into place. Check O-rings for wear and replace if necessary.
Poor cleaning performance.	Brush bristles are worn or nozzle is clogged.	Clean the brush bristles or clear any obstructions from the nozzle. Ensure adequate water pressure from your pressure washer.
