PRODUCT OVERVIEW AND FEATURES

The SOMIC GS510 Gaming Headset is designed for an immersive audio experience across multiple platforms.

- **Stereo Surrounding Sound:** Equipped with large 50mm driver units for superior sound quality and realistic gaming audio.
- **Retractable Noise Cancelling Microphone:** An omnidirectional, sensitive microphone provides clear communication by reducing background noise.
- **Magnetic Speaker Tags & LED Light Effect:** Features 2 pairs of detachable magnetic speaker tags for customization and breathing LED lights (USB powered).
- **Wide Compatibility:** Connects via a 3.5mm plug, compatible with PC, PS4, PS5, Xbox One, Nintendo Switch, laptops, iPads, and iPhones.
- **Long-Lasting Comfort:** Soft protein foam earmuffs and breathable ear pads ensure comfort during extended use.
- **Easy Button Control:** Conveniently located volume and microphone mute controls on the headset.

STEREO SURROUND SOUND

50mm powerful drivers bring you immersive gaming experience.

SETUP

Follow these steps to connect your SOMIC GS510 Gaming Headset to your device.

1. **Connect the 3.5mm Audio Jack:** Plug the 3.5mm audio jack from the headset into the corresponding audio port on your PC, laptop, PS4, PS5, Xbox One controller (a Microsoft adapter may be required for older Xbox One controllers, not included), Nintendo Switch, or mobile phone.

MULTI-PLATFORM COMPATIBILITY

Nintendo Switch/ Nintendo New 3DS/ New 3DS XL/3DS/3DS XL

Xbox one/Xbox One X/S/ Xbox Series S/X
(Microsoft Adapter Not Included)

PS4/PS5/Slim/Pro/PS Vita

(USB is only for LED Lights)

PC/Laptop/Desktop Computer

Smartphone/Tablet/Android OS/ IOS/WP OS

Image: Visual guide demonstrating how to connect the headset to Nintendo Switch, Xbox One, PS4/PS5, PC, and smartphones using the 3.5mm jack.

2. **Connect USB for LED Lights (Optional):** If you wish to activate the LED light effect on the headset, connect the USB plug to a USB port on your device (PC, laptop, console with USB port). Note that the LED light effect is only available when the USB is connected. The light color is fixed (white).

3. **Using the Splitter Cable:** For PCs with separate audio input (microphone) and output (headphone) jacks, use the included splitter cable. Connect the headset's 3.5mm jack to the splitter, then plug the two splitter ends into the appropriate microphone and headphone ports on your computer.

Volume Control

Adjust the volume using the scroll wheel located on the left earcup of the headset. Rotate the wheel upwards to increase volume and downwards to decrease volume.

Microphone Usage

The headset features a retractable microphone.

- **Extend/Retract:** Gently pull the microphone out from the left earcup to extend it for use, and push it back in to retract it when not needed.
- **Mute/Unmute:** Use the microphone mute switch located near the volume control on the left earcup. Flip the switch to mute or unmute your microphone.
- **Positioning:** For optimal voice clarity, position the microphone approximately 1-2 inches from your mouth.

RETRACTABLE MICROPHONE

Precision pickup Mic reduces background noise for crystal clear communication.

120° Adjustable

Customizing Speaker Tags

The SOMIC GS510 comes with two pairs of magnetic speaker tags that can be easily interchanged.

- To change a speaker tag, gently pull the current tag off the earcup. It is held in place by magnets.
- Align the new speaker tag with the magnetic points on the earcup and allow it to snap into place.

MAINTENANCE

Proper care will extend the life of your SOMIC GS510 Gaming Headset.

- **Cleaning:** Use a soft, dry cloth to wipe down the headset. Do not use abrasive cleaners or solvents. For ear pads, a slightly damp cloth can be used, but ensure they are completely dry before use.

- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. Avoid placing heavy objects on the headset.
- **Cable Care:** Avoid sharp bends or kinks in the cables. Do not pull on the cable to disconnect the headset; always grasp the plug.
- **Microphone:** When not in use, retract the microphone to protect it from damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound from headset	Volume too low or muted. Incorrect audio output device selected. Cable not fully connected. Headset not compatible with device (e.g., old Xbox One without adapter).	Increase volume on headset and device. Check mute switch. Verify audio settings on your device and select the headset as the output. Ensure 3.5mm jack is fully inserted. For older Xbox One controllers, a Microsoft adapter is required.
Microphone not working	Microphone muted. Incorrect audio input device selected. Microphone not extended. Splitter cable issue (for PC).	Unmute microphone using the switch on the headset. Check device sound settings and select the headset microphone as the input. Ensure microphone is fully extended. If using a PC, ensure the splitter cable is correctly connected to both mic and headphone jacks.
LED lights not working	USB cable not connected. USB port issue.	Ensure the USB cable is securely plugged into a powered USB port. Try a different USB port on your device.
