

HUBBLE CONNECTED HCNVPRO2

Hubble Connected View Pro Twin 5-inch Video Baby Monitor Instruction Manual

1. INTRODUCTION

This instruction manual provides essential information for the safe and effective use of your Hubble Connected View Pro Twin 5-inch Video Baby Monitor. Please read this manual thoroughly before operating the device and retain it for future reference.

The Hubble Connected View Pro Twin is designed to help you monitor your baby with its dual camera system, 5-inch color display, and various features including two-way talk, night vision, and room temperature monitoring. This device operates on a secure, non-WiFi connection for enhanced privacy.

2. SETUP

2.1. Package Contents

Ensure all items are present in the package:

- 1 x Nursery View Pro Parent Unit
- 2 x Nursery Cameras
- 2 x Power Adapters
- Quick Start Guide

What's in the box?

Remote Pan, Tilt
and Zoom Camera

5" Parent Unit
with Split Screen

Figure 2.1: Package Contents - Parent Unit and Two Cameras

2.2. Powering On and Initial Placement

1. Connect each camera to a power outlet using the provided power adapters.
2. Connect the Parent Unit to a power outlet using its dedicated power adapter. The Parent Unit contains a rechargeable battery for portable use.
3. Press and hold the Power button on the Parent Unit until the screen turns on.
4. Place the cameras in a secure location within the baby's room, ensuring a clear view of the crib or play area. Avoid placing cameras within reach of children or near heat sources.

3. OPERATING THE MONITOR

3.1. Parent Unit Controls

The Parent Unit features a 5-inch color display and intuitive buttons for navigation and control:

- **Directional Pad:** Used to navigate menus and control camera pan/tilt/zoom.
- **Menu Button:** Accesses settings and features.
- **Talk Button (Microphone icon):** Activates two-way talk.
- **Power Button:** Turns the unit on/off.
- **Volume Buttons (+/-):** Adjusts the audio volume.

The Perfect View is Just a Touch Away

- 5" Diagonal Color Screen with Split Screen
- Up to 300m (1,000 ft) Range

Figure 3.1: Parent Unit Displaying Split Screen

3.2. Viewing Modes

Your monitor supports multiple viewing options:

- **Single Camera View:** Displays the feed from one camera at a time. Use the menu to switch between cameras.
- **Split-Screen View:** Simultaneously displays feeds from both cameras on the 5-inch screen. This allows for monitoring two areas at once.
- **Scan Mode:** The monitor can automatically cycle through the camera feeds periodically.

3.3. Camera Control (Pan, Tilt, Zoom)

Use the directional pad on the Parent Unit to remotely adjust the camera's view:

- **Pan:** Move the camera horizontally (left/right).
- **Tilt:** Move the camera vertically (up/down).
- **Zoom:** Enlarge or reduce the image.

Stay Connect to What Matters Most

- Remote Pan, Tilt and Zoom
- Two-Way Talk
- Infrared Night Vision
- Lullabies
- High sensitivity microphone

Figure 3.2: Camera Pan, Tilt, and Zoom Functionality

3.4. Two-Way Talk

To communicate with your baby, press and hold the microphone button on the Parent Unit and speak. Release the button to hear your baby's response.

3.5. Night Vision

The cameras are equipped with infrared night vision, which automatically activates in low-light conditions, providing a clear black-and-white image of your baby.

More Than Just a Baby Monitor

Calm your little one with
preloaded soothing sounds,
lullabies, and audiobooks

Figure 3.3: Infrared Night Vision in Operation

3.6. Lullabies and Room Temperature Monitoring

The monitor includes preloaded lullabies to soothe your baby. Access these through the Parent Unit's menu. The system also continuously monitors the room temperature, displayed on the Parent Unit, to ensure a comfortable environment for your child.

4. MAINTENANCE

4.1. Cleaning

To clean the monitor and cameras, use a soft, dry cloth. Do not use abrasive cleaners or solvents. Ensure the devices are unplugged before cleaning.

4.2. Storage

When not in use for extended periods, store the monitor and cameras in a cool, dry place, away from direct sunlight and extreme temperatures.

5. TROUBLESHOOTING

5.1. No Signal/Poor Image

- Ensure both the Parent Unit and cameras are powered on and within range.
- Check for obstructions between the Parent Unit and cameras that might interfere with the signal.
- Relocate the Parent Unit or cameras to improve reception.

5.2. Battery Not Charging/Low Battery Alert

- Verify that the power adapter is securely connected to the Parent Unit and a working power outlet.
- Allow sufficient time for the battery to charge.
- If the issue persists, contact customer support.

6. SPECIFICATIONS

Feature	Detail
Model Name	Nursery View Pro Twin
