To measure your hand:

- 1. Palm Circumference:** Measure around the fullest part of your hand, excluding your thumb.

2. **Hand Length:** Measure from the base of your palm to the tip of your middle finger.

OPERATING INSTRUCTIONS

Wearing the Gloves

Slide your hands into the gloves, ensuring your fingers are fully seated in each digit. Adjust the hook and loop closure strap around your wrist for a secure and comfortable fit. The strap should be snug but not overly tight, allowing for full range of motion.

Protection and Grip

The gloves feature hard knuckle protection and palm padding designed to absorb impact and reduce abrasion. The silicone gel pattern on the palm enhances grip, providing better control over handlebars or equipment. Always ensure the gloves are properly worn to maximize these protective features.

MAINTENANCE

Cleaning Instructions

- **Hand Wash Recommended:** For best results and to preserve material integrity, hand wash the gloves in cool water with a mild detergent.
- **Avoid Harsh Chemicals:** Do not use bleach, fabric softeners, or strong cleaning agents, as these can damage the fabric and protective elements.
- **Rinse Thoroughly:** Ensure all soap residue is rinsed out.
- **Air Dry:** Lay flat or hang to air dry away from direct sunlight or heat sources. Do not tumble dry.

Storage

Store your gloves in a cool, dry place away from direct sunlight when not in use. Avoid compressing them under heavy objects to maintain their shape and protective features.

TROUBLESHOOTING

- **Touchscreen Not Responding:** Ensure the conductive material on the fingertip is making direct and firm contact with the screen. Clean the screen and glove fingertips if necessary.
- **Gloves Feel Too Tight/Loose:** Refer to the sizing chart in the "Setup and Sizing" section. Ensure you have selected the appropriate size. A slightly larger size is recommended if measurements are between sizes.
- **Reduced Grip:** Check the palm for dirt or wear. Clean the gloves as per maintenance instructions. If the silicone grip is significantly worn, replacement may be necessary.
- **Discomfort from Knuckle Protection:** Ensure the gloves are worn correctly and fully seated on your hands. If discomfort persists, verify the size is appropriate.
