

Eglo TOTARI-Z (900001)

Eglo connect.z Smart Home LED Ceiling Light Totari-Z (Ø 38 cm) Instruction Manual

Model: TOTARI-Z (900001)

INTRODUCTION

This manual provides essential information for the safe installation, operation, and maintenance of your Eglo connect.z Smart Home LED Ceiling Light Totari-Z. Please read these instructions carefully before installation and retain them for future reference.

The Eglo connect.z Totari-Z is a smart home LED ceiling light with a white metal body and a round illuminated surface made of white plastic with a sparkling crystal effect. It offers adjustable light color, dimmable functionality, and can be controlled via Bluetooth, app, and compatible voice assistants using ZigBee 3.0 technology.

PACKAGE CONTENTS

The product package includes:

- Eglo connect.z Smart Home LED Ceiling Light Totari-Z
- User Manual

Please ensure all components are present and undamaged before proceeding with installation.

SETUP AND INSTALLATION

The Eglo connect.z Totari-Z ceiling light requires assembly and ceiling mounting. Professional installation is recommended for electrical connections.

Physical Installation

1. **Preparation:** Ensure the power supply to the installation area is switched off at the main circuit breaker.
2. **Mounting:** Securely attach the light fixture to the ceiling using appropriate hardware.
3. **Wiring:** Connect the electrical wires according to local electrical codes and the wiring diagram provided in the full safety manual.
4. **Assembly:** Attach the light diffuser and any decorative elements to the main fixture.

Smart Home Integration

The light can be controlled via the AwoX Home Control app, a separate connect.z remote control (EGLO 99099, sold separately), or compatible voice assistants through ZigBee 3.0.

For App Control:

1. Download the free AwoX Home Control app (available for iOS 13+ and Android 8+).
2. Follow the in-app instructions to pair your Totari-Z light.

For Voice Control (e.g., Amazon Alexa):

1. Ensure you have a compatible voice assistant device with an integrated ZigBee bridge (e.g., Amazon Echo or Echo Plus).
2. Follow the instructions provided by your voice assistant platform to discover and connect new devices.
3. The Eglo connect.z products are compatible with other ZigBee products.

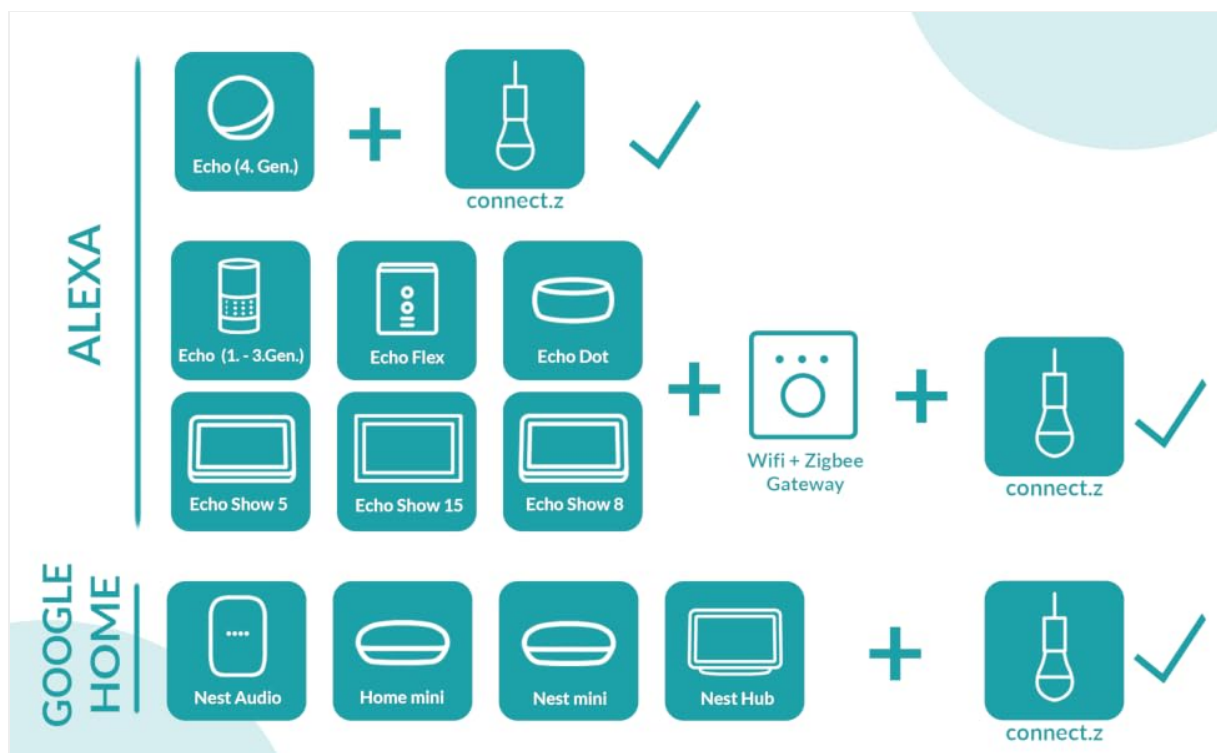

Image: A compatibility chart showing various Amazon Alexa (Echo 4th Gen, Echo 1st-3rd Gen, Echo Flex, Echo Dot, Echo Show) and Google Home (Nest Audio, Home mini, Nest mini, Nest Hub) devices and their compatibility with Eglo connect.z lights, indicating whether a WiFi + Zigbee Gateway is required.

OPERATING INSTRUCTIONS

The Eglo connect.z Totari-Z offers a range of lighting options and smart features.

Basic Functions (via App or Remote Control)

- **Dimming:** Adjust the brightness of the light.
- **Color Temperature Adjustment:** Change the light color from warm white (2700 Kelvin) to neutral white and cool white (up to 6500 Kelvin).
- **RGB Color Selection:** Choose from a wide selection of RGB colors to set the mood.
- **Saving Favorites:** Save your preferred light settings for quick access.
- **Grouping Lights:** Create groups of lights for synchronized control.

Image: A diagram illustrating the various functionalities of Eglo connect.z smart lights, including timer, dimming, color temperature change, RGB selection, night light, favorite modes, disco function, light alarm, presence simulation, and light group creation. It also shows the AwoX APP interface and the optional connect.z remote control (EGLO 99099).

Advanced App Features (AwoX Home Control App)

- **Timer:** Schedule the light to turn on or off at specific times.
- **Night Light:** Activate a soft, low-intensity light for nighttime.
- **Twilight Simulation:** Mimic the natural progression of light from dusk to dawn.
- **Light Alarm:** Use light to gently wake you up.
- **Presence Simulation:** Make it appear as if someone is home by turning lights on and off randomly.
- **Disco Mode:** Dynamic light effects for entertainment.

Voice Control

Once integrated with a compatible voice assistant (e.g., Amazon Alexa), you can control the light using voice commands. Examples include:

- "Alexa, turn on the ceiling light."
- "Alexa, set the ceiling light to warm white."
- "Alexa, dim the ceiling light to 50%."
- "Alexa, change the ceiling light to blue."

MAINTENANCE

To maintain the appearance and functionality of your Eglo connect.z Totari-Z ceiling light:

- **Cleaning:** Disconnect power before cleaning. Use a soft, dry cloth to wipe the surface. Do not use abrasive cleaners or solvents.
- **LEDs:** The integrated LED light source is not user-replaceable. If the LEDs fail, the entire fixture may need to be replaced.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	No power, loose connection, faulty switch.	Check power supply, ensure connections are secure, test the switch.
Cannot connect to AwoX Home Control app.	Bluetooth/Wi-Fi off, light not in pairing mode, app issues.	Ensure Bluetooth/Wi-Fi is enabled on your device. Power cycle the light. Restart the app. Refer to the app's help section for pairing instructions.
Voice control (Alexa/Google Home) not working.	No ZigBee bridge, incorrect setup, network issues.	Verify your voice assistant device has an integrated ZigBee bridge or is connected to one. Re-run device discovery in your voice assistant app. Check your home Wi-Fi network.

Problem	Possible Cause	Solution
Light color/dimming not responding.	Connectivity issue, remote battery low, app glitch.	Check app/remote connection. Replace remote batteries if applicable. Power cycle the light.

If problems persist, please contact Eglo customer support.

SPECIFICATIONS
