havit GK58B

havit GK58B USB Gaming Microphone User Manual

Model: GK58B

INTRODUCTION

The havit GK58B is a USB plug-and-play gaming microphone designed for clear voice communication. It features omnidirectional sound pickup, a flexible gooseneck, a stable base, and unique RGB lighting effects. This manual provides instructions for setup, operation, maintenance, and troubleshooting to ensure optimal performance.

FEATURES

- **USB Plug and Play:** Simple connection without driver installation.
- **Omnidirectional Pickup:** Captures sound from all directions for clear communication.
- **Flexible Gooseneck:** Adjustable microphone position for optimal voice capture.
- **Stable Base:** Ensures the microphone remains securely in place.
- **RGB Lighting:** Integrated lighting for an enhanced aesthetic.

PACKAGE CONTENTS

The havit GK58B package includes:

- 1 x havit GK58B USB Gaming Microphone
- 1 x User Manual (this document)

SETUP

1. **Unpack the Microphone:** Carefully remove the havit GK58B microphone from its packaging.
2. **Position the Microphone:** Place the microphone on a stable, flat surface. Adjust the flexible gooseneck to position the microphone head optimally for your voice, typically 15-30 cm (6-12 inches) from your mouth.
3. **Connect to Computer:** Plug the USB connector of the microphone cable into an available USB port on your computer.
4. **Driver Installation:** The microphone is plug-and-play and does not require additional driver installation. Your operating system should automatically detect and configure the device.
5. **Select as Default Device:**
 - **Windows:** Go to *Sound Settings > Sound Control Panel > Recording* tab. Select "havit GK58B" or similar as your default recording device.
 - **macOS:** Go to *System Preferences > Sound > Input* tab. Select "havit GK58B" or similar as your input device.

OPERATING INSTRUCTIONS

1. **Microphone Activation:** Once connected and selected as the default input device, the microphone is ready for use. The RGB lighting on the base will illuminate, indicating it is powered on.
2. **Adjusting Volume:** Microphone input volume can be adjusted through your computer's sound settings or within the specific application you are using (e.g., game chat, communication software).
3. **Omnidirectional Pickup:** The GK58B features an omnidirectional polar pattern, meaning it picks up sound equally from all directions. This is suitable for capturing ambient sound or multiple speakers around the microphone. For best voice clarity, speak directly towards the microphone head.
4. **RGB Lighting Control:** The microphone base features RGB lighting. While specific controls are not detailed, typically these lights cycle automatically or can be toggled via a button on the base if present. Refer to the product's

physical buttons for any lighting control options.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe the microphone and its base. Avoid using liquid cleaners or abrasive materials, as these can damage the device.
- **Storage:** When not in use, store the microphone in a clean, dry environment away from direct sunlight and extreme temperatures.
- **Cable Care:** Do not bend or crimp the USB cable excessively. Always grasp the plug, not the cable, when disconnecting.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Microphone not detected / No sound input	- Loose USB connection - Incorrect sound settings - Faulty USB port	- Ensure the USB cable is securely plugged into both the microphone and the computer. - Check your computer's sound settings to ensure the GK58B is selected as the default input device. - Try plugging the microphone into a different USB port. - Restart your computer.
Low microphone volume	- Microphone input level too low - Microphone positioned too far away	- Adjust the microphone input level in your computer's sound settings or application settings. - Move the microphone closer to your mouth (optimal distance is 15-30 cm).
RGB lighting not working	- Microphone not powered - Lighting feature malfunction	- Ensure the microphone is properly connected via USB and receiving power. - If there's a physical button for lighting, press it to cycle modes or turn it on.

SPECIFICATIONS

Model Name	GK58B
Connectivity Technology	USB
Connector Type	USB Type-A
Polar Pattern	Omnidirectional
Sensitivity	-36±3dB
Impedance	2.2kΩ
Frequency Response	30Hz – 16kHz
Cable Length	1.5m
Operating Voltage	5.0V
Operating Current	90mA
Microphone Dimensions	φ6*5mm
Product Dimensions	7.5 x 13 x 11 cm
Item Weight	2 g
Compatible Devices	Laptop, Personal Computer

Special Feature	Stand, RGB Lighting
