## nanoblock NBMC-11B

# Nanoblock Pokémon NBMC-11B Fire Mininano Gift Set Instruction Manual

### IMPORTANT SAFETY INFORMATION

**WARNING:** Not suitable for children under 3 years due to small parts that can be swallowed. Choking hazard.

This product is recommended for ages 12 and up, requiring fine motor skills and patience for assembly.

### PRODUCT OVERVIEW

Nanoblocks are miniature building blocks manufactured by the Japanese company Kawada. Each block measures approximately 4x4x5 mm, which is significantly smaller than standard building blocks. This compact size allows for the creation of highly detailed models.

The Nanoblock Pokémon NBMC-11B Fire Mininano Gift Set includes six distinct Pokémon figures from the Fire type category, designed for assembly by users with a skill level of 2.

### PACKAGE CONTENTS

The Nanoblock Pokémon Fire Mininano Gift Set contains all the necessary Nanoblock pieces to construct the following six Pokémon figures:

- Fennekin
- Chimchar
- Tepig
- Cyndaquil
- Charmander
- Charizard

Figure 1: The complete set of six Nanoblock Pokémon figures included in the gift set.

## SETUP AND ASSEMBLY

Assembly of Nanoblock figures requires careful attention to detail and patience. Follow these general steps:

1. **Preparation:** Unpack all Nanoblock pieces. It is recommended to sort the blocks by color and size on a clean, well-lit, flat surface. This will help in easily locating the required pieces during construction.
2. **Instructions:** Refer to the specific instruction diagrams provided within the product packaging for each individual Pokémon figure. These diagrams illustrate the step-by-step placement of each block.
3. **Connection:** Nanoblocks connect by aligning the studs on the top of one block with the holes on the bottom of another. Apply gentle, even pressure to ensure a secure fit.
4. **Precision:** Due to the small size of the blocks, fine motor skills are essential. Small tools like tweezers (not included) may be helpful for placing very tiny pieces or for adjusting blocks in tight spaces.

Figure 2: An example of an assembled Nanoblock figure (Charmander).

## OPERATING (BUILDING TIPS)

- **Work Area:** Always build on a stable, flat, and well-lit surface to prevent losing small pieces.
- **Patience is Key:** Nanoblock assembly can be intricate. Take your time and follow each step carefully.
- **Double-Check:** Before moving to the next step, ensure all blocks from the current step are correctly and firmly attached.
- **Breaks:** If you feel frustrated, take a short break. Returning with fresh eyes can often help resolve difficulties.

## MAINTENANCE

- **Cleaning:** To clean assembled Nanoblock figures, gently wipe them with a dry, soft cloth. For stubborn dust, a slightly damp cloth can be used, followed by immediate drying. Avoid using harsh chemical cleaners, as these may damage the plastic or alter its color.
- **Storage:** Store assembled models away from direct sunlight and extreme temperatures to prevent discoloration, warping, or weakening of connections. Unassembled blocks should be kept in their original packaging or a sealed container to prevent loss and protect them from dust.

- **Handling:** Handle assembled figures with care, especially those with delicate parts, to avoid accidental disassembly.

## TROUBLESHOOTING

- **Missing Pieces:** If you believe you have missing pieces, first carefully re-check your work area and packaging. If pieces are genuinely missing, please contact Nanoblock customer support or the retailer from whom you purchased the product.
- **Difficulty Connecting Blocks:** Ensure the blocks are correctly oriented and aligned. Apply firm, even pressure. If a block does not fit, do not force it, as this may damage the block. Re-examine the instructions to confirm correct placement.
- **Figure Falling Apart:** This usually indicates that some blocks are not fully connected. Carefully review the assembled sections, pressing down on each block to ensure a secure fit. Pay particular attention to the base and any load-bearing sections.

## SPECIFICATIONS

Specification	Detail
Brand	nanoblock
Model Number	NAN22363 (NBMC-11B)
Product Dimensions (L x W x H)	2.5 x 3.09 x 3.49 cm (individual figures vary)
Item Dimensions (L x W x H)	25 x 31 x 35 millimeters (packaging/overall)
Weight	141 grams
Manufacturer Recommended Age	3 years and up (with caution for small parts); Skill Level 2
Material	Plastic
Color	Pokémon Type Fire Vol. 1 (Multi-color blocks)
Number of Pieces	6 (referring to 6 figures in the set)
Educational Objective	Concentration, Dexterity, Spatial Reasoning, Color Recognition, Shape Recognition
Country of Origin	Japan

## WARRANTY AND SUPPORT

For specific warranty information, product support, or to inquire about replacement parts, please refer to the official Nanoblock website or contact the retailer from whom this product was purchased. Please have your product model number (NBMC-11B or NAN22363) and proof of purchase available when contacting support.
