nanoblock NAN22364

nanoblock - Pokémon - Type Electric Set 1 Instruction Manual

Brand: nanoblock | Model: NAN22364

1. INTRODUCTION

The nanoblock Pokémon Type Electric Set 1 offers a unique building experience with micro-sized blocks. This set allows you to construct detailed models of six different Electric-type Pokémon. Designed for enthusiasts of all ages, it provides a rewarding challenge and results in charming display pieces.

This complete box contains one of each of the six unique characters: Pikachu, Flaaffy, Rotom, Magnemite, Charjabug, and Alolan Raichu. Each finished Pokémon model stands approximately 1.38 inches tall.

2. SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.

Due to the extremely small size of nanoblock pieces (as small as 4mm x 4mm x 5mm), adult supervision is recommended for younger builders. Keep all pieces out of reach of small children and pets to prevent accidental ingestion.

3. SETUP AND PREPARATION

Before you begin building, ensure you have a clean, flat, and well-lit workspace. The small size of the blocks requires a stable surface to prevent pieces from being lost.

3.1 Unpacking the Set

1. Carefully open the product box.
2. Each Pokémon character's blocks are typically packaged separately within the blind box. Identify the individual bags for each character.
3. Locate the instruction manual specific to each Pokémon model.

3.2 Identifying Components

Each nanoblock set comes with a variety of block shapes and colors. Familiarize yourself with the different types of blocks before starting. The instruction manual will guide you on which blocks to use for each step.

4. BUILDING INSTRUCTIONS

Building nanoblock models requires precision and patience. Follow the detailed step-by-step instructions provided with each character to ensure correct assembly.

4.1 General Building Tips

- **Read Ahead:** Always review the next few steps in the instructions before placing blocks.
- **Organize:** Sort blocks by color and shape to make them easier to find.
- **Press Firmly:** Ensure each block is pressed firmly into place to create a stable structure.
- **Use Tweezers (Optional):** For very small or hard-to-reach areas, fine-tipped tweezers can be helpful.

4.2 Step-by-Step Assembly

Each Pokémon model comes with its own specific instruction sheet. The instructions typically use diagrams to show block

placement. Pay close attention to the orientation and color of each block as indicated.

The set includes the following Pokémon:

Pikachu: The iconic electric mouse Pokémon.

Flaaffy: The wool Pokémon, known for its electric wool.

Rotom: A ghost-like Pokémon that can possess appliances.

Magnemite: A magnet Pokémon with powerful electromagnetic abilities.

Charjabug: The Battery Pokémon, a bug/electric type.

Alolan Raichu: The evolved form of Pikachu, with psychic abilities in its Alolan form.

5. MAINTENANCE AND CARE

Once assembled, nanoblock models are durable but can be delicate due to their small size. Proper care will ensure your creations last.

5.1 Cleaning

To clean your nanoblock models, gently dust them with a soft brush or a can of compressed air. Avoid using water or

harsh cleaning agents, as these can damage the plastic or loosen the connections between blocks.

5.2 Storage and Display

Store your completed models in a stable location where they are unlikely to be knocked over. Display cases or shelves are ideal. If transporting models, handle them carefully to prevent pieces from detaching.

Image: Several nanoblock Pokémon figures arranged on a clear tiered display stand, demonstrating an effective way to showcase the collection.

6. TROUBLESHOOTING

6.1 Missing Pieces

While rare, if you find a piece missing, first double-check your workspace and the packaging. Due to the small size, pieces can easily be overlooked. If a piece is genuinely missing, refer to the warranty and support section for contact information.

6.2 Difficulty Assembling

If you encounter difficulty, re-examine the instruction diagrams closely. Sometimes, a block's orientation or a previous step's placement might be incorrect. Take a break and return to it with fresh eyes if needed. The small size of the blocks can be challenging, but also rewarding.

7. PRODUCT SPECIFICATIONS

Feature	Detail
Product Dimensions	0.98 x 1.22 x 1.38 inches (per figure, approximate)
Item Weight	4.9 ounces (total package)
Model Number	NAN22364
Manufacturer Recommended Age	8 years and up

Release Date	April 1, 2022
Manufacturer	Kawada
Contents	6 unique nanoblock Pokémon figures (Pikachu, Flaaffy, Rotom, Magnemite, Charjabug, Alolan Raichu)

8. WARRANTY AND PRODUCT SUPPORT

This nanoblock product is an officially licensed Kawada product, distributed by Bandai Namco for the U.S. Markets. The product box will feature a Bandai Namco warning label, which serves as proof of authenticity.

The affixed label also entitles the purchaser to product support assistance within the United States. For any inquiries regarding missing parts, product defects, or general support, please refer to the contact information provided on the product packaging or the official Bandai Namco website.

This product has been thoroughly tested for safety and meets all North American consumer product safety regulations.
