6. Maintenance and Care

To ensure the longevity and optimal performance of your YOTMS H2 Gaming Headset, please follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the headset. For ear pads, a slightly damp cloth can be used, but ensure they are completely dry before use. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. When not in use, it is recommended to store it on a headset stand to maintain its shape and prevent cable tangling.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cables. The high tensile strength and anti-twist braided cable are designed for durability, but proper handling will extend their life.
- **Avoid Moisture:** The headset is not water-resistant. Keep it away from liquids and high humidity to prevent damage to internal components.

7. Troubleshooting

If you encounter issues with your YOTMS H2 Gaming Headset, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No sound from headset	Volume too low; incorrect audio settings; loose connection.	Check the inline volume wheel; verify audio output settings on your device; ensure 3.5mm jack is fully inserted.
Microphone not working	Microphone muted; incorrect input settings; platform incompatibility.	Ensure microphone mute switch is off; check microphone input settings on your device; note that Switch does not support mic via 3.5mm.
LED lights not illuminating	USB not connected; USB port not powered; platform incompatibility.	Ensure USB cable is securely plugged into a powered USB port; LED lights only work via USB and are not supported on consoles/mobile.
Sound distortion or static	Loose connection; interference; faulty audio jack.	Reconnect the 3.5mm jack; try connecting to a different audio port or device to rule out port issues.

If the problem persists after trying these solutions, please contact YOTMS customer support for further assistance.
