SETUP GUIDE

Follow these steps to set up your new wireless keyboard and mouse combo:

- 1. Install Batteries:** The keyboard requires 2 AAA batteries and the mouse requires 1 AA battery. These are included. Open the battery compartments on the underside of both the keyboard and mouse and insert the batteries, ensuring correct polarity.
- 2. Locate USB Receiver:** The USB receiver is conveniently placed on the bottom of the mouse. Carefully remove it from its slot.
- 3. Connect Receiver:** Insert the USB receiver into an available USB port on your PC or laptop.
- 4. Initial Pairing:** When inserting the USB receiver for the first time, ensure the keyboard and mouse are less than 20cm (approximately 8 inches) from the USB receiver. This proximity helps establish the initial connection.
- 5. Automatic Driver Installation:** Your computer should automatically detect and install the necessary drivers. This

process may take a few moments.

6. **Ready for Use:** Once the connection is successful, you can use the keyboard and mouse normally within a 10-meter range.

OPERATING INSTRUCTIONS

Round Keycap Design

The keyboard features unique round keycaps inspired by vintage typewriters, offering a distinctive visual and tactile experience. The design is based on research into finger-keycap contact areas, aiming for a more comfortable typing experience.

2.4G Wireless Technology

Utilizing 2.4G wireless technology, this combo provides a stable connection up to 10 meters (approximately 33 feet), minimizing concerns about signal interruption. This wireless setup helps reduce desktop clutter, making it ideal for both business and gaming environments.

Power Saving Mode

To conserve battery life, both the keyboard and mouse will automatically enter a sleep mode after 3-5 minutes of inactivity. To wake them up, simply click any button on either device.

Compatibility Notes

- This is a 2.4G wireless product and requires a USB receiver. It cannot connect to iPads or mobile phones via Bluetooth.
- The multimedia shortcut keys on the keyboard are not supported when used with Mac systems.

TROUBLESHOOTING

If Not Responding:

If your keyboard or mouse is not responding, please follow these steps to re-establish connection:

1. Insert the USB receiver into a USB port on your PC. Wait for the driver to install automatically if it hasn't already.
2. Remove the USB receiver from the port.
3. Remove the batteries from both the mouse and the keyboard.
4. Plug the USB receiver back into the same USB port.
5. Within 10 seconds of plugging in the receiver, re-install the batteries into the keyboard and mouse. Ensure the devices are less than 20cm (approximately 8 inches) from the receiver during this pairing process.
6. The pairing should complete automatically, and your keyboard and mouse will be ready for use within a 10-meter range.
