

Liectroux i5 Pro

Liectroux i5 Pro Cordless Wet and Dry Vacuum Cleaner User Manual

MODEL: i5 PRO

1. Safety Information

Please read all instructions carefully before operating the Liectroux i5 Pro vacuum cleaner. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Do not immerse the appliance, power cord, or plug in water or other liquids.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Use only the power adapter supplied with the appliance.
- Do not use the appliance if the power cord or plug is damaged. Contact customer service for repair.
- Do not vacuum flammable or combustible materials, such as gasoline, or use in areas where they may be present.
- Ensure all tanks and filters are correctly installed before operation.
- Keep hair, loose clothing, fingers, and all parts of the body away from openings and moving parts.

2. Package Contents

Verify that all items are present in the package:

- Liectroux i5 Pro Main Unit
- Handle Assembly
- Charging Dock
- Power Adapter
- Ultra-soft Fiber Brush Roller (for hard floors)
- Stiff Fiber Brush Roller (for carpets)
- Cleaning Tool
- User Manual

3. Product Overview

The Liectroux i5 Pro is a versatile cordless wet and dry vacuum cleaner designed for comprehensive floor care. It integrates vacuuming, washing, and UV sterilization functions to provide a thorough cleaning experience.

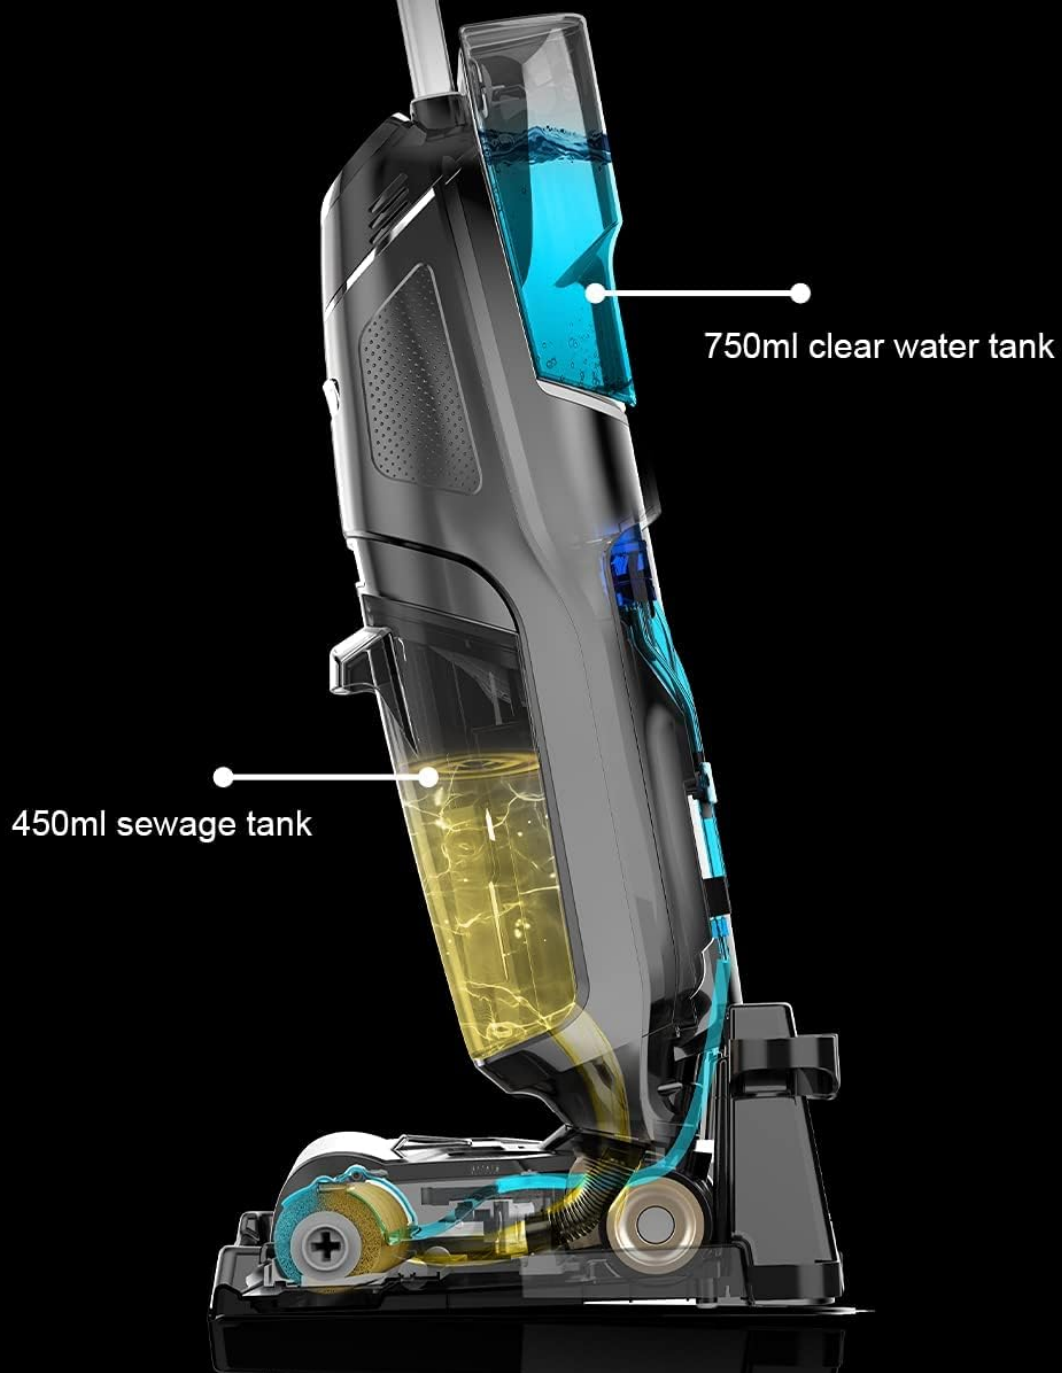

An 'All in One' design allows simultaneous vacuuming and washing of floors. Key components include a brushless motor, noise-isolating materials, and an intelligent display screen.

Key Features:

- **3-in-1 Cleaning:** Simultaneously vacuums, washes, and UV sterilizes surfaces.
- **Dual Tank System:** Separates clean and dirty water to prevent cross-contamination.
- **Multi-Surface Capability:** Effective on hard floors, hardwood, porcelain tiles, and various carpet types.
- **Self-Cleaning Function:** Automatic brush roller cleaning for easy maintenance.
- **UV Sterilization:** Integrated 254nm UV light for bacterial protection.
- **Smart LED Display:** Provides real-time operational status and alerts.

Double Tank Design

To avoid secondary pollution

The dual tank design prevents secondary pollution by keeping clean water separate from dirty water. It features a 750ml clear water tank and a 450ml sewage tank.

4. Setup

1. **Assemble the Handle:** Carefully insert the handle assembly into the main unit until you hear a click, ensuring it is securely locked in place.
2. **Initial Charging:** Place the Liectroux i5 Pro onto the charging dock. Connect the power adapter to the charging dock and then plug it into a suitable wall outlet. Allow the unit to fully charge before its first use. The intelligent LED display will show the charging status.
3. **Fill Clean Water Tank:** Locate the clean water tank on the main unit. Open the tank cap and fill the tank with clean tap water. For enhanced cleaning, you may add a recommended floor cleaning solution. Do not exceed the maximum fill line. Close the cap securely to prevent leaks.

5. Operating Instructions

Before operating, ensure the unit is fully charged and the clean water tank is filled.

Wet and Dry Vacuum Clean

For carpet and hard floors

The Liectroux i5 Pro is designed for effective wet and dry vacuuming on both carpets and hard floors.

1. **Power On:** Press the power button located on the handle to turn on the vacuum cleaner. The LED display will illuminate.
2. **Surface Selection:** The Liectroux i5 Pro is equipped with intelligent sensors that automatically adjust suction power based on the floor type. For optimal performance, ensure the appropriate brush roller (ultra-soft for hard floors, stiff for carpets) is installed.
3. **Start Cleaning:** Gently tilt the main unit back with your foot and begin moving it across the floor. Move the vacuum

cleaner in a steady, overlapping motion for best results.

4. **Water Spray Function:** For stubborn stains or heavily soiled areas, press the dedicated water spray button on the handle. This will release additional cleaning solution onto the floor.
5. **UV Sterilization:** The 254nm UV sterilization lamp activates automatically during operation, providing an additional layer of hygiene by sanitizing the cleaned surfaces.
6. **Power Off:** When finished cleaning, press the power button again to turn off the device.

6. Maintenance

Regular maintenance ensures optimal performance and extends the lifespan of your Liectroux i5 Pro.

One-key Self-cleaning

Automatically clean rolling brush and pump stains into dirty water tank

The one-key self-cleaning function automatically cleans the rolling brush and pumps dirty water into the sewage tank when docked, simplifying maintenance.

1. **Empty and Clean Dirty Water Tank:** After each use, remove the dirty water tank from the main unit. Open the lid and dispose of the collected dirty water and debris. Rinse the tank thoroughly with clean water and allow it to air dry before re-installing.
2. **Initiate Self-Cleaning Cycle:** Place the vacuum cleaner back onto its charging dock. Press the dedicated self-cleaning button (refer to the LED display for specific instructions if needed). The unit will automatically perform a

cleaning cycle for the brush roller, removing dirt, hair, and debris.

3. **Clean Brush Rollers:** Periodically, or if you notice reduced cleaning performance, remove the brush roller from the head unit. Use the provided cleaning tool to remove any tangled hair or stubborn debris. Rinse the brush roller with water and allow it to dry completely before re-inserting.
4. **Filter Maintenance:** The filter, located within the dirty water tank, should be cleaned regularly. Remove the filter, rinse it under running water, and ensure it is completely dry before placing it back into the tank.
5. **Storage:** Store the Liectroux i5 Pro on its charging dock in a dry, cool place.

UV Sterilization

Protect your family against bacteria

7. Troubleshooting

If you encounter issues with your Liectroux i5 Pro, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No Power	Battery is depleted; Power adapter not connected.	Charge the unit fully; Ensure power adapter is securely plugged in.
Poor Suction	Dirty water tank full; Brush roller clogged; Filter dirty.	Empty and clean dirty water tank; Clean brush roller; Clean or replace filter.
Water Leakage	Tanks not properly installed or sealed; Damaged tank.	Ensure tanks are correctly seated and caps are tight; Inspect tanks for damage.
Unit not Self-Cleaning	Not properly docked; Dirty water tank full.	Ensure unit is correctly placed on the charging dock; Empty dirty water tank.

8. Specifications

Feature	Specification
