## HoMedics UHE-CMP15-BK

# HoMedics TotalComfort Portable Ultrasonic Humidifier

Model: UHE-CMP15-BK

## INTRODUCTION

---

The HoMedics TotalComfort Portable Ultrasonic Humidifier is designed to provide a fine, evenly dispersed cool mist, enhancing comfort in various personal environments such as bedrooms, offices, or during travel. Its compact and portable design, combined with user-friendly features, makes it an ideal solution for maintaining optimal humidity levels wherever you go.

## SETUP GUIDE

---

Follow these steps to set up your HoMedics Portable Humidifier for first use:

1. **Unpack:** Carefully remove the humidifier and all components from the packaging. Ensure you have the humidifier unit, three wicks, and the USB charging cord.
2. **Prepare for Filling:** Twist the top section of the humidifier counter-clockwise to separate it from the water tank.
3. **Add Water:** Fill the 8.5-ounce water tank with clean, cool tap water. Distilled water is recommended to minimize mineral buildup. The top-fill design allows for easy and convenient refilling.
4. **Reassemble:** Align the top section with the water tank and twist clockwise until securely fastened.
5. **Power Connection:** Connect the USB charging cord to the port on the back of the humidifier and plug the other end into a compatible USB power source (e.g., wall adapter, computer, car USB port).

## OPERATING INSTRUCTIONS

---

Your humidifier offers customizable settings for optimal comfort:

- **Power On/Off:** Press the power button located on the back of the unit to turn the humidifier on or off.
- **Mist Settings:** The humidifier features two cool mist settings:
  - **Continuous Mist:** Provides a steady stream of mist.
  - **Intermittent Mist:** Cycles mist on and off to conserve water and extend runtime.

Press the power button repeatedly to cycle between these settings.

- **Color-Changing Accent Light:** The built-in color-changing accent light can be turned on or off for optional ambiance. Refer to the specific button on the unit for light control.
- **Runtime:** When plugged in, the 8.5-ounce water tank provides up to 10 hours of continuous runtime. When operating on battery power, it provides up to 3.5 hours of runtime.

- **Quiet Operation:** The humidifier operates with whisper-quiet technology, making it suitable for nighttime use or in quiet office environments.
- **Auto-Off Timer:** A built-in auto-off timer is included for convenience, offering various options to suit your needs.

## MAINTENANCE

---

Proper maintenance ensures the longevity and optimal performance of your humidifier:

- **Clean Tank Technology:** The humidifier incorporates Clean Tank Technology, which helps protect the tank from mold and mildew buildup.
- **Regular Cleaning:** Despite Clean Tank Technology, regular cleaning is recommended. Empty the water tank when not in use.
- **Mist Hole Maintenance:** To prevent mineral deposits from obstructing the mist holes, periodically clean them with a cotton swab or paper towel dampened with a 50/50 mixture of vinegar and water.
- **Wick Replacement:** The unit includes 3 wicks. Replace wicks as needed to maintain mist output and performance.

## TROUBLESHOOTING

---

If you encounter issues with your humidifier, consider the following common solutions:

- **No Mist/Hissing:** If the unit is not producing mist or is making a hissing sound, check if the mist holes are clear of mineral deposits. Clean them as described in the Maintenance section.
- **Unit Not Turning On:** Ensure the humidifier is properly plugged into a working USB power source. If using battery power, confirm the battery is charged.
- **Short Runtime:** If the unit runs for a shorter duration than expected, ensure it is fully charged or continuously plugged in for maximum runtime.
- **Dry Throat/Ineffective Humidification:** For optimal humidification, ensure the unit is placed in an appropriate location where the mist can disperse effectively into the air. Consider using continuous mist mode for higher humidity needs.

## SPECIFICATIONS

Feature	Detail
Brand	HoMedics
Model Name	TotalComfort Portable Ultrasonic
Model Number	UHE-CMP15-BK
Color	Black
Operation Mode	Ultrasonic
Water Tank Capacity	8.5 ounces
Max Runtime (Plugged In)	Up to 10 hours
Max Runtime (Battery)	Up to 3.5 hours
Product Dimensions	2.51"D x 2.51"W x 7"H
Item Weight	0.3 Kilograms (10.5 ounces)
Included Components	Humidifier, Instruction Book, 3 Wicks, USB Charging Cord
Special Feature	Programmable, Color-Changing Accent Light, Quiet Operation, Auto-Off Timer, Clean Tank Technology
