MAINTENANCE

To ensure the longevity and optimal performance of your Nokia 110 4G, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the phone's surface. Avoid abrasive materials or harsh chemicals.
- **Temperature:** Operate the phone within recommended temperature ranges. Avoid extreme heat or cold.
- **Moisture:** Keep the phone dry. Exposure to moisture can damage internal components.
- **Battery Care:**
 - Charge the battery fully before first use.
 - Use only the provided power adapter and USB cable.
 - Avoid overcharging or completely draining the battery frequently.
 - The battery has a talk time of approximately 12 hours and a standby time of 48 hours. Full charging takes about 3 hours.
- **Storage:** Store the phone in a safe place away from dust and direct sunlight when not in use.

TROUBLESHOOTING

If you encounter issues with your Nokia 110 4G, consider the following steps:

- **Restart the Device:** Often, a simple restart can resolve minor software glitches.
- **Check Connections:** Ensure SIM cards are properly inserted and the battery is securely in place.
- **Software Updates:** Check for and install any available software updates for your device.
- **Factory Reset:** As a last resort, you may perform a factory reset. *Note: This will erase all data on your phone. Back up important information before proceeding.*
