UPBRIGHT Cholas KZD02 Power Supply

UpBright 12.6V AC/DC Adapter User Manual

Model: Cholas KZD02 Power Supply

PRODUCT OVERVIEW

This manual provides instructions for the UpBright 12.6V AC/DC Adapter, designed to power and charge compatible devices such as the Cholas KZD02 Deep Tissue Massage Gun. This adapter features a barrel round plug tip and incorporates multiple safety protections to ensure reliable operation.

1. SETUP AND COMPATIBILITY

Before connecting the adapter, please verify that your device requires a 12.6V DC input with a barrel round plug. This adapter is specifically designed for devices with these specifications.

1.2 Connecting the Adapter

1. Ensure the massage gun or compatible device is turned off.
2. Insert the barrel round plug tip of the adapter firmly into the charging port of your device.
3. Plug the AC adapter into a standard wall outlet (100-240VAC, 50/60Hz).
4. The device should indicate that it is charging (e.g., an LED indicator).

2. OPERATING INSTRUCTIONS

The UpBright AC/DC Adapter is designed for straightforward operation. Once connected, it will automatically begin providing power or charging your compatible device.

2.1 Safety Protections

This adapter is equipped with advanced safety features to protect both the adapter and your connected device:

- **OVP (Over Voltage Output Protection):** Prevents damage from excessive voltage output.
- **OCP (Over Current Output Protection):** Guards against damage from excessive current flow.
- **SCP (Short Circuit Output Protection):** Protects against short circuits.
- **Over-Temp Protection:** Prevents overheating of the adapter.
- **Overcharge Protection:** Safeguards the device's battery from overcharging.

Advanced Power Management Chips

3. MAINTENANCE

Proper care and maintenance will extend the lifespan of your UpBright AC/DC Adapter.

- **Storage:** Store the adapter in a cool, dry place when not in use.
- **Cleaning:** Wipe the adapter with a dry, soft cloth. Do not use liquid cleaners or solvents.
- **Cable Care:** Avoid bending or crimping the cable excessively, especially near the connectors. Do not pull the cable to unplug the adapter; always grasp the plug itself.
- **Environmental Conditions:** Do not expose the adapter to water, high humidity, or extreme temperatures.

4. TROUBLESHOOTING

If you encounter issues with your UpBright AC/DC Adapter, refer to the following common solutions:

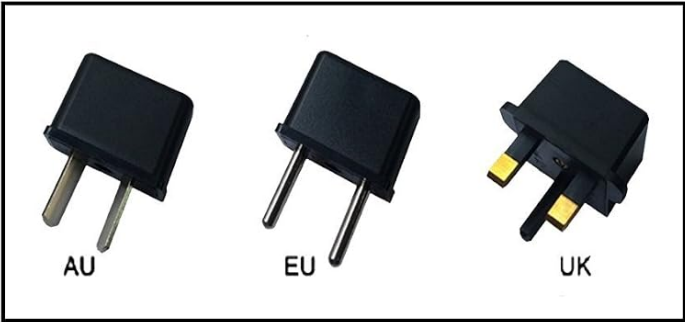

Problem	Possible Cause	Solution
Device not charging/powering on.	◦ Loose connection. ◦ Incorrect voltage/connector type. ◦ Faulty power outlet. ◦ Device issue.	◦ Ensure all connections are secure. ◦ Verify device compatibility (12.6V, barrel plug). ◦ Test the outlet with another appliance. ◦ Consult your device's manual or manufacturer.
Adapter feels warm during use.	Normal operation, or heavy load.	This is often normal. If it becomes excessively hot or emits smoke/smell, unplug immediately and discontinue use.
Adapter not working after a power surge.	Internal protection triggered or damage.	The adapter's protection circuits (OVP, OCP, SCP) may have activated. If it does not reset, the adapter may need replacement.

If the problem persists after trying these steps, please contact UpBright customer support.
