TicWatch TicWatch Pro 3 Ultra GPS

TicWatch Pro 3 Ultra GPS Smartwatch User Manual

Model: TicWatch Pro 3 Ultra GPS

1. INTRODUCTION

Welcome to the TicWatch Pro 3 Ultra GPS user manual. This guide provides essential information for setting up, operating, and maintaining your smartwatch. The TicWatch Pro 3 Ultra GPS is a high-performance smartwatch designed for men, featuring advanced health and fitness tracking, long battery life, and smart functionalities powered by Wear OS by Google and the Qualcomm Snapdragon Wear 4100 platform.

2. SETUP

2.1 What's in the Box

Your TicWatch Pro 3 Ultra GPS package includes the following items:

- 1x TicWatch Pro 3 Ultra GPS Smartwatch
- 1x USB Charging Cable
- 1x Quick Guide

Image: Contents of the TicWatch Pro 3 Ultra GPS retail box, including the smartwatch, charging cable, and quick start guide.

2.2 Initial Charging

Before first use, fully charge your smartwatch. Connect the USB charging cable to the charging port on the back of the watch and plug the other end into a compatible USB power adapter (not included). The watch display will indicate charging status.

2.3 Pairing with Your Smartphone

To unlock the full potential of your TicWatch Pro 3 Ultra GPS, pair it with your Android smartphone. (Note: Some features like sending texts and making calls are Android-only.)

1. Download the 'Wear OS by Google' app and the 'Mobvoi' app from the Google Play Store on your smartphone.
2. Ensure Bluetooth is enabled on your smartphone.
3. Turn on your TicWatch Pro 3 Ultra GPS.
4. Open the 'Wear OS by Google' app on your phone and follow the on-screen instructions to pair your watch.
5. Complete the setup process within the Mobvoi app to enable all health and fitness tracking features.

3. OPERATING YOUR SMARTWATCH

3.1 Display and Navigation

The watch features a 1.4-inch AMOLED display for vibrant colors and a secondary FSTN screen for power efficiency. The display has automatically adjustable brightness and is protected by Corning Gorilla anti-fingerprint glass.

- **AMOLED Display:** Provides high-resolution visuals (454x454 pixels) for detailed information.
- **FSTN Screen:** A low-power display that shows essential information like time, steps, and heart rate, significantly extending battery life.
- **Customizable Backlight:** The FSTN screen's backlight can be customized with various colors for better visibility in different lighting conditions, especially in the dark.

3.2 Basic Smart Functions

- **Notifications:** Receive calls, texts, and social media messages directly on your watch. (Note: Sending texts and making calls are Android-only features.)
- **Google Pay (NFC):** Utilize the built-in NFC for quick and easy payments in stores.
- **Built-in Speaker and Microphone:** Allows for hands-free calls and voice commands.

3.3 Health and Fitness Tracking

The TicWatch Pro 3 Ultra GPS offers comprehensive health and fitness monitoring:

- **Heart Rate Monitoring:** Continuous 24-hour heart rate tracking with an advanced sensor. It records changes and can alert you to unusual patterns.
- **Blood Oxygen (SpO2) Monitoring:** Track your blood oxygen saturation levels.
- **Stress Management:** Assess mental stress and track daily energy levels.
- **Sleep Tracking:** Monitor your sleep patterns and quality.
- **100+ Professional Sports Modes:** Track various activities with detailed metrics.
- **Built-in GPS:** Supports GPS, Beidou, Glonass, Galileo, and QZSS for accurate outdoor activity tracking.
- **Barometer:** For altitude and atmospheric pressure readings.

Important Note: The health tracking features are not intended to diagnose or treat any medical condition or for any other medical purpose. Consult a medical professional for health concerns.

100+ Workout Modes* and Wellness Management

*To get new workout modes, search for TicExercise and TicHealth in the Google Play Store and update both apps to the latest versions.

3.4 Battery Modes

The TicWatch Pro 3 Ultra GPS features two primary battery modes:

- **Smart Mode:** Offers full smartwatch functionality with up to 72 hours of battery life.
- **Essential Mode:** Utilizes the FSTN display for basic time and health tracking, extending battery life up to 45 days.

4. MAINTENANCE

4.1 Water Resistance

The TicWatch Pro 3 Ultra GPS is IP68 water and dust resistant, making it suitable for:

- Swimming (pool swimming)
- Handwashing
- Exposure to sweat

Caution: Not suitable for diving, high-pressure water activities, or hot water environments (e.g., saunas, hot showers) as steam can

Image: The smartwatch shown in a water-splashed environment, emphasizing its IP68 waterproof capabilities for activities like swimming and handwashing.

4.2 Cleaning and Care

To ensure longevity and proper function:

- Wipe the watch and strap regularly with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive materials.
- Ensure the charging contacts are clean and dry before charging.

5. TROUBLESHOOTING

5.1 Common Issues and Solutions

- **Short Battery Life:** Ensure you are not running too many background apps. Consider using Essential Mode when full smart functionality is not required. Disable always-on display or reduce screen brightness.

- **Connectivity Problems:** Check if Bluetooth is enabled on both the watch and phone. Ensure the Wear OS and Mobvoi apps are updated to the latest versions. Restart both devices.

- **Health Data Inaccuracy:** Ensure the watch is worn snugly on your wrist. Clean the sensor regularly. Remember that these features are for general wellness and not medical diagnosis.

- **Watch Not Responding:** Try a soft reset by holding down the power button until the watch restarts. If unresponsive, ensure it is charged.

For further assistance, refer to the official Mobvoi support website or contact customer service.
