

LeYi KWSS2200

LeYi Protective Case and Screen Protector Kit Instruction Manual

For Xiaomi Redmi Note 10 4G / Redmi Note 10S

1. INTRODUCTION

This manual provides comprehensive instructions for the installation, usage, and maintenance of your LeYi protective case, tempered glass screen protectors, and camera lens protectors. This kit is designed to offer robust protection for your Xiaomi Redmi Note 10 4G or Redmi Note 10S device.

2. PACKAGE CONTENTS

Please verify that all items are present in your package:

- 1 x LeYi Protective Case with Integrated Ring Stand
- 2 x Tempered Glass Screen Protectors
- 2 x Camera Lens Protectors
- 1 x Installation Kit (cleaning wipes, dust removal sticker)

3. COMPATIBILITY

This product is specifically designed for:

- **Xiaomi Redmi Note 10 4G (6.43 inches)**
- **Xiaomi Redmi Note 10S**

Important: This product is NOT compatible with Xiaomi Redmi Note 10 5G (6.5 inches).

4. SETUP AND INSTALLATION

4.1. Case Installation

1. Ensure your phone is clean and free of dust.
2. Align your Xiaomi Redmi Note 10 4G or Note 10S with the case, starting with the top edge.
3. Gently press the phone into the case, ensuring all corners and edges are securely fitted. The flexible TPU frame will accommodate your device.

4.2. Tempered Glass Screen Protector Installation

Note: The screen protector may be slightly smaller than the phone screen to ensure compatibility with various phone cases and prevent lifting.

1. **Clean the Screen:** Use the provided alcohol wipe to thoroughly clean your phone screen. Follow with the microfiber cloth to dry and remove any streaks.
2. **Remove Dust:** Use the dust removal sticker to pick up any remaining dust particles from the screen. Ensure the screen is completely dust-free.
3. **Align the Protector:** Carefully peel off the protective film from the adhesive side of the tempered glass. Align the screen protector with your phone screen, paying attention to the cutouts for the speaker and camera.
4. **Apply:** Once aligned, gently lower the protector onto the screen. The adhesive will start to spread. If bubbles appear, gently push them towards the edges using the microfiber cloth.

4.3. Camera Lens Protector Installation

1. **Clean the Camera Lenses:** Use an alcohol wipe and microfiber cloth to clean the camera lens area on your phone.
2. **Remove Dust:** Use a dust removal sticker to ensure no dust remains on the camera lenses.
3. **Align and Apply:** Carefully peel off the backing from the camera lens protector. Align it precisely over your phone's camera lenses and gently press down to secure it.

5. OPERATING INSTRUCTIONS

5.1. Using the 360° Rotating Ring Stand

The integrated metal ring on the back of the case serves multiple functions:

- **Finger Holder:** Insert your finger through the ring for a secure grip, reducing the risk of accidental drops.
- **Kickstand:** Rotate the ring 150 or 360 degrees to position your phone horizontally or vertically for hands-free viewing of videos or video calls. The ring can be folded flat when not in use.

5.2. Magnetic Car Mount Compatibility

The case features a built-in metal patch that allows it to be securely attached to a magnetic car mount. This provides convenient navigation and hands-free operation while driving.

Note: A magnetic car mount is not included with this product and must be purchased separately.

AMETAL PLATE CAN ATTACH TO MAGNETIC CAR MOUNT

Not include Magnetic CAR Mount

6. MAINTENANCE

To ensure the longevity and effectiveness of your LeYi protective kit:

- **Cleaning the Case:** Wipe the case regularly with a soft, damp cloth to remove dust and smudges. For tougher stains, a mild soap solution can be used, followed by thorough drying.
- **Cleaning Screen/Camera Protectors:** Use a microfiber cloth to gently wipe the screen and camera protectors. Avoid abrasive materials or harsh chemicals that could damage the oleophobic coating.
- **Avoid Extreme Conditions:** Do not expose the case or protectors to extreme temperatures or direct sunlight for prolonged periods, as this may affect material integrity.

7. TROUBLESHOOTING

7.1. Screen Protector Bubbles

- If bubbles appear after installation:
- **Small Bubbles:** Gently push them towards the nearest edge using a microfiber cloth or a credit card wrapped in cloth.
 - **Large Bubbles/Dust:** If a bubble persists due to a dust particle, carefully lift the nearest corner of the screen protector with a piece of tape, use another piece of tape to remove the dust, and then reapply.

7.2. Wireless Charging Interference

If you experience issues with wireless charging, please remove the case before placing your phone on the wireless charger. The integrated metal patch may interfere with some wireless charging pads.
