7. TROUBLESHOOTING

If you encounter any issues with your Rulefiss I27 earbuds, please refer to the following common solutions:

Problem	Possible Solution
Earbuds not pairing with device.	◦ Ensure earbuds are charged. ◦ Turn off Bluetooth on your device and turn it back on. ◦ Forget "i27" from your device's Bluetooth list and re-pair. ◦ Place earbuds back in the case, close, wait 5 seconds, then remove to re-enter pairing mode.
Only one earbud is working.	◦ Ensure both earbuds are charged. ◦ Place both earbuds back into the charging case, close the lid, then open and remove them simultaneously. ◦ Try resetting the earbuds (refer to specific reset instructions if available in a full manual, otherwise, the above step often resolves this).

Problem	Possible Solution
Low volume or poor sound quality.	◦ Adjust the volume on both your device and the earbuds. ◦ Ensure eartips are properly sealed in your ear canal. Try different sizes. ◦ Clean any debris from the earbud speaker mesh.
Charging case not charging.	◦ Check the USB Type-C cable and power adapter for damage. ◦ Ensure the charging cable is securely connected to both the case and the power source. ◦ Try a different charging cable or power adapter.
