Remington S9511

Remington Shine Therapy 1 inch Hair Straightener Iron User Manual

Model: S9511

INTRODUCTION

The Remington Shine Therapy Argan Oil & Keratin hair straightener is designed to provide professional-grade hair styling with enhanced hair health and shine. This flat iron incorporates advanced ceramic plates infused with Argan oil and Keratin, aiming to reduce frizz and deliver smooth, radiant results. It is suitable for various hair types and offers precise heat control for optimal styling.

KEY FEATURES

- **Advanced Ceramic Plates:** Features 9X more ceramic than standard Remington models, infused with Argan oil, protein-packed Keratin, and a micro-conditioner for even heat distribution and optimal hair health.
- **2X Shine-Enhancing Technology:** Micro-conditioner combined with advanced ceramic plates helps achieve smooth, radiant shine and reduces frizz.
- **1-inch Wide Floating Plates:** Designed for a silky glide, allowing for straightening or adding curves with ease. Ideal for small sections to achieve precise, root-to-tip results.
- **Digital Precise Heat Control:** Offers adjustable temperature settings from 300°F to 450°F. LCD pulses during heat-up and shows 1-3 bars when ready. Includes a Turbo Mode for maximum heat.
- **Fast Heat-Up:** Ready to use in approximately 15 seconds.
- **Automatic Shut-Off:** For safety and peace of mind, the device automatically turns off after a period of inactivity.
- **Travel-Friendly Design:** Compact and lightweight, making it suitable for use at home or while traveling.

TIME TO SHINE

50%
more shine*

68%
smoother hair**

* Vs. naturally dried hair in 3rd party lab testing. Results may vary by hair type
** Based on plate smoothness vs standard Remington ceramic coating

SETUP AND FIRST USE

1. **Unpacking:** Carefully remove the straightener from its packaging. Ensure all components are present and inspect the device for any damage.
2. **Placement:** Place the straightener on a heat-resistant, flat surface away from water.
3. **Plug In:** Insert the power plug into a standard electrical outlet.
4. **Power On:** Press and hold the power button until the LCD screen illuminates.
5. **Select Temperature:** Use the '+' and '-' buttons to adjust the temperature to your desired setting. The LCD will pulse during heat-up and show 1-3 bars when ready. Refer to the operating section for recommended heat settings.
6. **Heat-Up:** Allow the straightener to heat up. It typically reaches the desired temperature in about 15 seconds.
7. **Preparation:** Ensure your hair is clean, dry, and free of tangles before styling. For best results and hair protection,

apply a heat protectant spray.

OPERATING INSTRUCTIONS

Follow these steps for effective and safe hair styling:

1. **Hair Sectioning:** Divide your dry hair into small, manageable sections, approximately 1-inch wide.
2. **Styling:** Place a section of hair between the plates, close to the roots. Gently glide the straightener down the hair section from root to tip in one smooth, continuous motion. Avoid holding the straightener in one place for too long to prevent heat damage.
3. **Repeat:** Repeat for all sections of hair until desired straightness or style is achieved. For curling, rotate the straightener 180 degrees as you glide it down the hair.
4. **Cool Down:** After styling, turn off the straightener by pressing and holding the power button. Unplug the device from

the outlet. Allow the straightener to cool completely on a heat-resistant surface before storing.

Recommended Heat Settings:

Hair Type	Temperature Range
Fine or Easy to Style	310°F - 350°F
Color Treated	350°F - 390°F
Textured	350°F - 390°F
Thick or Hard to Style	370°F - 450°F

MAINTENANCE

- **Cleaning:** Ensure the straightener is unplugged and completely cool before cleaning. Wipe the plates and exterior with a soft, damp cloth. Do not use abrasive cleaners or harsh chemicals.
- **Storage:** Store the straightener in a cool, dry place. The device features a hinge lock for compact storage. Do not wrap the cord around the appliance, as this can damage the cord.
- **Cord Care:** Regularly inspect the power cord for any signs of damage. If the cord is damaged, discontinue use and contact customer support.

9X MORE CERAMIC

1" floating plates adapt to each pass for smooth glide**

TROUBLESHOOTING

If you encounter issues with your Remington Shine Therapy straightener, refer to the following common solutions:

- **Device Not Turning On:**

- Ensure the power cord is securely plugged into a working electrical outlet.
- Check if the outlet itself is functioning by plugging in another appliance.

- **Not Heating Up:**

- Verify that the straightener is powered on and the temperature setting is selected.
- Allow sufficient time for the device to heat up (approximately 15 seconds).

- **Hair Snagging:**

- Ensure hair is thoroughly detangled before use.
- Use smaller sections of hair.
- Ensure the floating plates are clean and free of residue.

- **Reduced Shine/Frizz:**

- Ensure hair is completely dry before styling.
- Apply a heat protectant or styling product designed to enhance shine and reduce frizz.
- Clean the ceramic plates regularly to remove product buildup.

For issues not covered here, please refer to the full user manual or contact Remington customer support.

SPECIFICATIONS

SAFETY INFORMATION

Please read and understand all safety warnings before using this appliance to prevent injury or damage.

- **Keep away from children:** This appliance is not intended for use by children.
- **Avoid contact with skin:** The plates become extremely hot during operation. Avoid direct contact with skin, especially the scalp, face, and neck.
- **Unattended use:** Do not leave the appliance unattended while it is plugged in or turned on.
- **Burn hazard:** The appliance can cause burns. Handle with care.
- **Water and moisture:** Do not use this appliance near water, in a bathtub, shower, or over a basin filled with water. If the appliance falls into water, unplug it immediately. Do not reach into the water.
- **Storage:** Always unplug the appliance after use and allow it to cool down completely before storing.
