SETUP GUIDE

1. **Download the App:** Search for the "Arenti" app on your smartphone's app store (iOS or Android) and install it.
2. **Create an Account:** Open the Arenti app and follow the on-screen instructions to create a new user account.
3. **Power On the Device:** Connect the camera to a power source using the provided USB cable and power adapter. The camera will power on and its indicator light will begin to flash.
4. **Add Device:** In the Arenti app, tap the "+" icon to add a new device. Select the LAXIHUB M1 camera from the list.
5. **Connect to Wi-Fi:** Follow the app's instructions to connect the camera to your 2.4GHz Wi-Fi network. Ensure your phone is connected to the same 2.4GHz network during setup.
6. **Scan QR Code:** The app will display a QR code. Hold your phone with the QR code in front of the camera lens (approximately 15-25 cm or 5-8 inches away) until you hear a confirmation sound from the camera.
7. **Complete Setup:** Once the camera connects, follow the remaining prompts in the app to name your camera and finalize the setup.

OPERATING INSTRUCTIONS

Live View

Open the Arenti app and select your camera to view the live feed. You can pinch to zoom, take screenshots, or record video directly from the live view.

Motion and Sound Detection

The camera is equipped with advanced motion and sound detection. When activity or noise is detected, you will receive instant alerts on your smartphone. Sensitivity levels can be adjusted in the app settings.

Recording Every Special Moment

Two-Way Audio

To use two-way audio, tap the microphone icon in the live view within the app. You can then speak through your phone, and your voice will be transmitted through the camera's speaker. Release the icon to listen.

Night Vision

The camera automatically switches to night vision mode in low-light conditions, providing clear black and white images. The infrared range is up to 10 meters.

Storage Options

- **MicroSD Card:** Insert a MicroSD card (up to 128GB, not included) into the designated slot for local continuous recording.
- **Cloud Storage:** Subscribe to the cloud service for secure online storage of your recordings. This allows access to historical videos even if the camera is offline.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the camera lens and body. Avoid abrasive cleaners or solvents.
- **Firmware Updates:** Regularly check the Arenti app for available firmware updates to ensure optimal performance and security.
- **Placement:** Ensure the camera is placed in a stable location, away from direct sunlight, heat sources, and moisture.

TROUBLESHOOTING (Q&A)

Q: Will this work if not connected to Wi-Fi?

A: No. The wireless camera requires a network connection to function.

Q: How many people can view the camera app at the same time?

A: There is no limit. You can share access with multiple people.

Q: Will it send an alert if the power goes off?

A: No, the indoor camera requires continuous power to operate and send alerts.

Q: Can this device be used without the cloud service?

A: Yes, you can use the camera without a cloud subscription. However, historical videos will not be accessible. You can use an SD card for local storage of recordings.

Q: What is the maximum distance to the Wi-Fi router?

A: The effective range depends on the Wi-Fi router signal strength. Normally, the security camera supports 10-20 meters without obstructions.

Q: Can I use two cameras and view them on the same app screen?

A: Yes. Using one app, you can view different cameras and switch between them by swiping.
