## BJN New Figo 2012-2015 Models

# BJN Plastic 3D Car Floor/Foot Mats User Manual

Model: New Figo 2012-2015 Models | Brand: BJN

## 1. PRODUCT OVERVIEW

---

The BJN Plastic 3D Car Floor/Foot Mats are designed to provide comprehensive protection for your vehicle's interior. These all-weather mats feature deeply sculpted channels engineered to effectively trap water, road salt, mud, and sand, keeping your car's original carpet clean and dry.

Constructed from an advanced, virtually odorless Thermoplastic Elastomer (TPE) compound, these mats are an OEM-approved, latex-free material. They contain no harmful PVCs, cadmium, or lead, and are 100% recyclable. The material is engineered to remain flexible even in cold temperatures and features a protective, non-stick finish for easy cleaning.

### Key Features:

- **3D Dimension Design:** Ensures a perfect fit for your vehicle's floor with raised edges to contain spills and debris.
- **100% Waterproof:** Efficiently protects the car from water, oil, dirt, mud, dust, and snow.
- **Anti-Slipping Layer:** Features anti-skid ridges on the underside to prevent shifting, providing maximum safety while driving.
- **Molded Heel Pad:** The driver's mat includes a molded TPR heel pad for enhanced durability and comfort.
- **Environmentally Friendly:** Non-toxic, odorless, and extra-lightweight, making maintenance simple and pleasant.

## 2. INSTALLATION GUIDE

---

These floor mats are custom-designed for the New Fig o 2012-2015 Models to ensure a precise fit. Follow these steps for proper installation:

- 1. Prepare the Vehicle Floor:** Before installing, ensure the vehicle's original floor carpet is clean and free of any debris, dirt, or moisture.
- 2. Identify Mats:** Separate the mats into front driver's side, front passenger's side, and rear mats. The driver's mat typically has a heel pad and may have specific cutouts for pedals.
- 3. Install Front Mats:** Place the driver's side mat first, aligning it with the vehicle's floor contours and ensuring it does not interfere with the operation of the accelerator, brake, or clutch pedals. Repeat for the front passenger's side mat.
- 4. Install Rear Mats:** Position the rear mats to cover the floor area behind the front seats. Ensure they lay flat and cover the maximum possible area.
- 5. Secure Placement:** Verify that all mats are securely in place and do not shift during normal vehicle operation. The anti-skid ridges on the underside are designed to help prevent movement.

*Note:* Always ensure floor mats are properly installed and do not obstruct pedal operation, as this could lead to unsafe driving conditions.

## 3. USAGE AND FUNCTIONALITY

---

The BJN 3D Car Floor Mats are engineered to provide superior protection and enhance the cleanliness of your car's interior. Their 3D design with raised edges creates a barrier that effectively contains spills, mud, snow, and other debris, preventing them from reaching your vehicle's original carpet.

The anti-slipping layer on the underside, combined with the precise fit, ensures that the mats remain securely in place, minimizing movement and enhancing driving safety. The durable TPE material is designed for long-lasting performance and resistance to wear and tear from daily use.

## 4. CARE AND MAINTENANCE

---

Maintaining your BJN 3D Car Floor Mats is simple due to their non-stick finish and waterproof properties. Regular cleaning will ensure their longevity and continued effectiveness:

- **Routine Cleaning:** For light dirt and dust, simply remove the mats from the vehicle and shake them out.
- **Deep Cleaning:** For heavier dirt, mud, or spills, use a hose to rinse the mats with water. A mild soap or car interior cleaner can be used for stubborn stains.
- **Scrubbing:** Use a soft brush or cloth to gently scrub any soiled areas.
- **Drying:** Allow the mats to air dry completely before placing them back into the vehicle. Ensure they are fully dry to prevent moisture buildup underneath.
- **Avoid Harsh Chemicals:** Do not use harsh chemicals, abrasive cleaners, or stiff brushes, as these may damage the mat material or finish.

## 5. TROUBLESHOOTING

---

While BJN 3D Car Floor Mats are designed for durability and ease of use, here are some common considerations:

- **Mats Shifting:** If mats appear to be shifting, remove them and re-install, ensuring they are properly aligned with the vehicle's floor contours. Check for any debris underneath that might prevent proper seating. The anti-skid ridges should provide sufficient grip.
- **Odor:** Although the mats are virtually odorless, a new product scent may be present initially. This will dissipate quickly with ventilation.
- **Stains Not Coming Off:** For very stubborn stains, a dedicated automotive interior cleaner designed for rubber or plastic surfaces may be more effective. Always test on an inconspicuous area first.

## 6. TECHNICAL SPECIFICATIONS

---

Attribute	Detail
Brand	BJN
Model	New Figo 2012-2015 Models
Material	Thermoplastic Elastomer (TPE)
Color	Black
Product Dimensions (LxWxH)	10 x 10 x 10 cm (approximate, as per packaging)
Item Weight	2 kg
Water Resistance	100% Waterproof
Safety Features	Anti-slipping layer, molded TPR Heel Pad

## 7. PACKAGE CONTENTS

---

The product package includes the following items:

- 1 x 3D Mat Set (complete set for front and rear of vehicle)

## 8. WARRANTY AND SUPPORT

---

For detailed information regarding the product warranty, return policy, or any support inquiries, please refer to the documentation provided at the time of purchase or contact BJN customer service directly. Specific warranty terms and conditions may apply.
