Belkin WCB006zbWH

Belkin 40W Dual USB-C PD Wall Charger User Manual

Model: WCB006zbWH

Product Overview

The Belkin 40W Dual USB-C PD Wall Charger (Model: WCB006zbWH) is designed to provide fast and efficient charging for two compatible devices simultaneously. Featuring two USB-C Power Delivery ports, each capable of delivering up to 20W, this charger is universally compatible with a wide range of USB-C PD enabled smartphones and tablets, including devices from Apple, Google, and Samsung.

What's Included

- Belkin 40W Dual USB-C PD Wall Charger (Model: WCB006zbWH)

Note: Charging cables are not included and must be purchased separately.

Setup Instructions

1. **Unpack the Charger:** Carefully remove the Belkin 40W Dual USB-C PD Wall Charger from its packaging.
2. **Locate a Power Outlet:** Identify a standard wall power outlet (220 Volts input voltage).
3. **Plug in the Charger:** Insert the charger's prongs firmly into the wall outlet.
4. **Connect Devices:** Using compatible USB-C to USB-C charging cables (not included), connect your devices to the USB-C ports on the charger. Ensure the cables are securely inserted into both the charger and your devices.

Operating Instructions

The Belkin 40W Dual USB-C PD Wall Charger operates automatically once connected to a power source and compatible devices. It intelligently delivers optimal power to each connected device.

- **Fast Charging:** Each USB-C port provides up to 20W of power, enabling fast charging for devices that support USB Power Delivery (PD). For example, an iPhone 12 can charge from 0-50% in approximately 25 minutes, and an iPad in about 40 minutes.
- **Simultaneous Charging:** The charger can deliver a total output of 40W, split between both ports when in use simultaneously (20W per port).
- **Universal Compatibility:** This charger is compatible with a wide range of USB-C PD enabled devices, including smartphones and tablets from various manufacturers.

Safety and Maintenance

Safety Precautions

- Do not expose the charger to liquids or extreme temperatures.
- Do not disassemble or attempt to repair the charger.
- Use only certified and compatible charging cables.
- Unplug the charger from the wall outlet when not in use or during electrical storms.
- Ensure proper ventilation around the charger during operation.

Maintenance

- Clean the charger with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Regularly inspect the charger and cables for any signs of damage.

Troubleshooting

Problem	Possible Cause	Solution
Device not charging.	Charger not properly plugged in; faulty cable; incompatible device; device issue.	Ensure charger is firmly plugged into a live outlet. Try a different USB-C cable. Verify your device supports USB-C PD charging. Test with another device.
Slow charging.	Cable not supporting fast charging; device not supporting fast charging; high power consumption by device.	Use a high-quality USB-C cable designed for fast charging. Ensure your device supports USB Power Delivery. Close background applications on your device.

Problem	Possible Cause	Solution
Charger feels warm.	Normal operation during charging.	This is normal. If it becomes excessively hot or emits smoke/smell, unplug immediately and discontinue use.

Specifications

Feature	Detail
Model Number	WCB006zbWH
Total Output Power	40W (20W per USB-C port)
Ports	2 x USB-C
Input Voltage	220 Volts
Connectivity Technology	USB
Compatible Devices	Cellular Phones, Tablets (USB-C PD enabled)
Color	White
Product Dimensions (LxWxH)	40 x 100 x 130 Millimeters
Item Weight	1 kg
