## LFSYS 1

# LFSYS 50 Pack Window Fly Trap Instruction Manual

Model: 1 | Brand: LFSYS

## PRODUCT OVERVIEW

---

The LFSYS Window Fly Trap is designed for effective indoor fly control. These transparent, non-toxic sticky traps are formulated to catch flies, fruit flies, gnats, and other small flying insects without the use of harmful chemicals or odors. The clear design ensures minimal visual impact on your windows.

- **Safe and Convenient:** Non-toxic and eco-friendly, safe for use around children and pets.
- **Clean and Clear:** Transparent design does not obstruct light and is discreet.
- **Efficient Glue:** Features a strong, pollution-free adhesive to effectively trap insects.
- **No Residue:** Designed for easy removal without leaving sticky marks on surfaces.

## SETUP AND INSTALLATION

Follow these steps to properly install your LFSYS Window Fly Trap:

**1. Step 1: Prepare the Trap**

Carefully peel off the thin white release liner from one side of the trap.

**2. Step 2: Attach to Surface**

Attach the trap to a clean, flat surface such as a window pane. Ensure the side with the exposed adhesive is facing outwards.

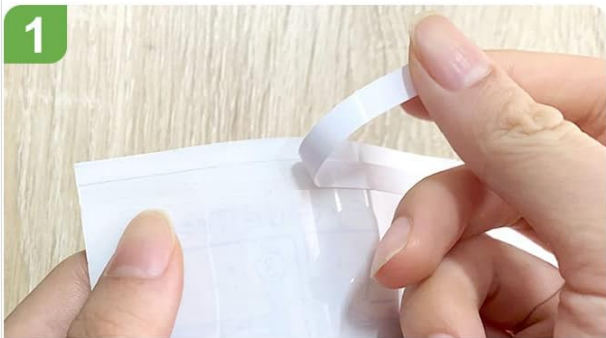

**3. Step 3: Activate the Trap**

Once securely attached, peel off the larger release paper from the front of the trap to expose the full sticky surface.

**4. Step 4: Placement**

For optimal results, place traps on sunny windows or in areas where flies are frequently observed, such as near kitchen areas or trash bins.

# EASY TO USED

**First:** Peel off thin white release liner

**Second:** Attach the trap to window or other flat surface

**Third:** Peel off the large release paper

**Last:** All set and wait for catches

## OPERATING INSTRUCTIONS

The LFSYS Window Fly Trap works by attracting flying insects to bright windows. Once an insect lands on the transparent, ultra-sticky surface, it becomes trapped. The trap is designed to be discreet and effective without emitting odors or chemicals.

- ✓ Easy to apply
- ✓ Transparent
- ✓ Non-toxic

## MAINTENANCE

---

The LFSYS Window Fly Trap is designed for single-use and easy disposal. Replace the trap when it is full of insects or its stickiness diminishes.

- **Removal:** To remove a used trap, gently peel it off the surface. The dedicated glueless corners help keep adhesive off your fingers.
- **Disposal:** Dispose of the used trap in household waste.
- **Residue:** The traps are designed to leave no sticky residues on your windows or other surfaces upon removal.

## TROUBLESHOOTING

---

If the fly traps are not performing as expected, consider the following:

- **Insufficient Catches:** Ensure the trap is placed in an area with adequate light and where insects are frequently observed. Flies are naturally attracted to bright windows.
- **Loss of Stickiness:** Replace the trap if it has accumulated too much dust or debris, or if its adhesive properties have diminished over time.

## SPECIFICATIONS

---

<b>Brand</b>	LFSYS
<b>Model Number</b>	1
<b>Color</b>	Clear
<b>Material</b>	Paper
