5. MAINTENANCE

Proper maintenance will help preserve the appearance and structural integrity of your bed frame.

5.1. Cleaning

- Wipe surfaces with a soft, damp cloth.
- Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish.
- Dry immediately with a clean cloth to prevent water spots.

5.2. Hardware Checks

- Periodically (e.g., every 3-6 months) check all bolts, screws, and connections to ensure they are tight.
- Tighten any loose hardware to maintain stability and prevent squeaking.

6. TROUBLESHOOTING

If you encounter any issues with your Bellemave Twin House Bed, refer to the following common problems and solutions:
