Husky Liners 95071

Husky Liners Weatherbeater Floor Mats Instruction Manual

Model: 95071 | For 2021-2024 Ford Mustang Mach-E

INTRODUCTION

Husky Liners Weatherbeater Floor Mats are engineered to provide durable and precise protection for your vehicle's interior. These custom-fit liners are designed specifically for the 2021-2024 Ford Mustang Mach-E, covering the front and second rows. They feature a robust material that withstands various environmental conditions and common chemicals, ensuring long-lasting performance.

The unique FormFit Design ensures an ultra-tight, glove-like fit, while the patented FormFit Edge creates a raised barrier along the door jam to contain mud, snow, and spills, keeping your vehicle's carpets clean. StayPut Cleats on the underside help keep the mats firmly anchored in place.

SETUP AND INSTALLATION

These floor mats are custom-designed for a precise fit in your 2021-2024 Ford Mustang Mach-E. Installation is straightforward and does not require special tools.

1. **Preparation:** Ensure your vehicle's floorboards are clean and free of debris before installation.
2. **Remove Old Mats:** If your vehicle has existing factory floor mats, remove them before installing the Husky Liners. Do not place Husky Liners over other floor mats.
3. **Position Front Liners:** Place the driver's side and passenger's side front liners into their respective footwells. Align the liners with the vehicle's floor contours and any factory retention posts. Press down firmly around the retention posts to secure the liners.
4. **Position Rear Liner:** Place the second-row liner into the rear footwell, ensuring it is properly seated and covers the entire floor area.
5. **Verify Fit:** Confirm that all liners are securely in place and do not interfere with the operation of the accelerator, brake, or clutch pedals.

OPERATING AND USAGE

Husky Liners Weatherbeater Floor Mats are designed for everyday use, offering protection against dirt, spills, and wear. Their durable construction ensures they remain effective in various weather conditions, from sub-zero temperatures to blistering heat.

- **All-Weather Protection:** The material is resistant to common chemicals such as gas, oil, and battery acid, providing comprehensive protection for your vehicle's carpet.
- **Spill Containment:** The raised FormFit Edge is designed to contain liquids and debris, preventing them from reaching your vehicle's carpet.
- **Secure Placement:** StayPut Cleats on the underside of the liners grip the carpet, minimizing movement and ensuring the mats remain in their intended position.
- **Comfort:** The liners provide a comfortable surface underfoot, designed for extended use.

COMFORT UNDERFOOT MILE AFTER MILE

MAINTENANCE AND CLEANING

Maintaining your Husky Liners Weatherbeater Floor Mats is simple, ensuring they continue to protect your vehicle's interior effectively.

1. **Removal:** Carefully remove the floor liners from your vehicle.
2. **Cleaning:** Hose down the liners with water to remove loose dirt and debris. For more stubborn grime, use a mild soap or common household cleaner and a soft brush.
3. **Rinsing:** Rinse the liners thoroughly with water to remove all soap residue.
4. **Drying:** Allow the liners to air dry completely before reinstalling them in your vehicle. Ensure they are dry to prevent moisture buildup under the mats.

TROUBLESHOOTING

Husky Liners are designed for a precise fit. If you encounter any issues, consider the following:

- **Improper Fit:** Double-check that all factory floor mats have been removed from the vehicle before installing the Husky Liners. Ensure the liners are correctly aligned with the vehicle's contours and any retention posts.
- **Shifting Liners:** Verify that the liners are securely pressed onto any factory retention posts. The StayPut Cleats on the underside should grip the carpet to prevent shifting.
- **Odor:** New products may have a slight odor upon unboxing. This typically dissipates quickly when aired out in a well-ventilated area.

SPECIFICATIONS

- **Brand:** Husky Liners
- **Model:** Weatherbeater Series (95071)

- **Vehicle Fitment:** 2021-2024 Ford Mustang Mach-E
- **Coverage:** Front & 2nd Row (3-piece set)
