MAINTENANCE AND CARE

Proper maintenance will extend the life and appearance of your PATIOJOY furniture set.

Cleaning Instructions:

- **Frame:** Wipe the PE rattan and steel frame with a dry cloth. For more stubborn dirt, use a damp cloth with mild soap and water, then rinse thoroughly and dry completely.
- **Cushions and Pillows:** All cushion and pillow covers are removable for easy cleaning thanks to their zipper design. Hand wash or machine wash on a gentle cycle with cold water and mild detergent. Air dry only; do not tumble dry. Ensure cushions are completely dry before re-inserting.
- **Tempered Glass Tabletop:** Clean with a glass cleaner and a soft cloth. Avoid abrasive cleaners or scouring pads that could scratch the surface.

Zipper Design for Easy Cleaning

General Care:

- During periods of heavy rain, snow, or extreme weather, it is recommended to store cushions indoors or cover the entire set with a protective outdoor furniture cover.
- Periodically check and tighten all bolts and connections to ensure stability.
- Avoid placing hot items directly on the tempered glass tabletop without a coaster or protective mat.

TROUBLESHOOTING

This section addresses common issues you might encounter with your patio furniture set.

Common Issues and Solutions:

- **Issue:** Furniture feels wobbly or unstable.
Solution: Check all bolts and connections. Ensure they are securely tightened. Make sure the furniture is placed on a level surface. The anti-rust aluminum feet are designed to prevent direct contact with the ground, but uneven ground

can still cause instability.

- **Issue:** Cushions appear flattened or lose shape.

Solution: The cushions are filled with soft vertical cotton and high-density sponge. Over time, compression can occur. Fluff cushions regularly. If exposed to moisture, ensure they are thoroughly dried to prevent permanent damage.

- **Issue:** Rattan appears faded or damaged.

Solution: The PE rattan is all-weather resistant, but prolonged exposure to direct sunlight can cause some fading over many years. Consider using a furniture cover when not in use for extended periods to protect against UV rays and environmental elements.

- **Issue:** Missing parts during assembly.

Solution: Refer to the "Components Included" list in the Assembly section. If parts are genuinely missing, contact customer support with your purchase details and the specific missing components.
