Generas B09H37W2JC

Generas 48-Inch Workbench with Power Outlets and Light User Manual

Model: B09H37W2JC | Brand: Generas

Introduction

This manual provides essential instructions for the safe assembly, operation, and maintenance of your Generas 48-Inch Workbench. Designed for durability and functionality, this workbench features robust steel construction, integrated power outlets, an overhead work light, a full-width pegboard for organized storage, and two convenient drawers. Please read this manual thoroughly before assembly and use to ensure proper function and longevity of your product.

Safety Information

Always prioritize safety when assembling and using the workbench. Failure to follow these instructions may result in injury or damage to the product.

- Read all instructions carefully before beginning assembly.
- Wear appropriate personal protective equipment, such as gloves and safety glasses, during assembly.
- Ensure all fasteners are securely tightened before using the workbench.
- Do not exceed the maximum load capacity of the workbench (200 pounds).
- Keep the work area clean and well-lit.
- Do not modify the workbench or its electrical components.
- Ensure the power cord is properly routed and not pinched or damaged.
- Unplug the workbench from the power source before performing any maintenance or cleaning.

Package Contents

Verify that all components listed below are present before starting assembly. If any parts are missing or damaged, contact Generas customer support.

- Workbench Frame Components (Legs, Crossbars)
- Worktop Surface
- Lower Storage Shelf
- Drawers (2) with slides and handles

- Pegboard Back Panel
- Overhead Light Fixture
- Integrated Power Strip with Outlets
- Assembly Hardware (Bolts, Nuts, Washers, Screws)
- Instruction Manual

Setup and Assembly

Follow these steps carefully to assemble your workbench. It is recommended to have two people for certain assembly steps.

1. **Unpack and Organize:** Carefully remove all components from the packaging. Lay them out on a clean, flat surface. Identify each part and compare it with the package contents list. Keep all hardware organized.
2. **Assemble the Main Frame:** Attach the workbench legs to the horizontal crossbars using the provided bolts and nuts. Ensure all connections are finger-tight at this stage to allow for adjustments.
3. **Install the Lower Shelf:** Secure the lower storage shelf to the designated frame supports. Tighten all bolts for the main frame and lower shelf securely once aligned.
4. **Attach the Worktop:** Place the worktop surface onto the main frame. Align the pre-drilled holes and secure the worktop using the appropriate screws.
5. **Assemble and Install Drawers:** Assemble the two drawers according to their specific instructions, attaching the slides and handles. Install the assembled drawers into their respective compartments beneath the worktop. Ensure they slide smoothly.

6. **Mount the Pegboard:** Attach the full-width pegboard back panel to the rear supports of the workbench frame. Secure it firmly with the provided hardware.
7. **Install Light and Power Strip:** Mount the overhead light fixture and the integrated power strip to the upper frame or pegboard support as indicated in the diagrams. Connect the light to the power strip if required, and ensure the main power cord is accessible.

Operating Instructions

- **Power Outlets:** The integrated power strip provides convenient access to electrical power for your tools and devices. Ensure the workbench is plugged into a properly grounded outlet. Do not overload the power strip.
- **Work Light:** Use the switch on the light fixture to turn the overhead light on or off. This provides ample illumination for your workspace.
- **Pegboard:** Utilize the pegboard for organizing tools and accessories. Compatible pegboard hooks (not included) can be inserted into the holes to hang items.
- **Drawers:** The two drawers are suitable for storing light objects and smaller tools. Avoid placing excessively heavy items in the drawers to prevent damage to the slides.

Maintenance

Regular maintenance will help prolong the life of your workbench.

- **Cleaning:** Wipe down steel surfaces with a damp cloth and mild detergent. Avoid abrasive cleaners. For the worktop, use appropriate cleaners for its material.
- **Fasteners:** Periodically check all bolts, nuts, and screws for tightness. Retighten as necessary to maintain stability.
- **Electrical Components:** Inspect the power cord and outlets for any signs of wear or damage. If damage is found, discontinue use and replace the component or contact a qualified electrician.
- **Drawer Slides:** If drawers become stiff, apply a small amount of silicone lubricant to the slides.

Troubleshooting

- **Workbench is Unstable:** Ensure all assembly bolts are fully tightened. Check that the workbench is on a level surface.
- **Light Not Working:** Verify the workbench is plugged into a live outlet. Check the light switch. If the bulb is replaceable, check the bulb.
- **Power Outlets Not Functioning:** Ensure the workbench is plugged in. Check if the power strip has a reset button (if applicable) or if the circuit breaker has tripped.
- **Drawers Stick or Don't Slide Smoothly:** Check for obstructions in the drawer slides. Ensure the drawer slides are properly aligned and lubricated.

Specifications

Feature	Specification
Brand	Generas
Model	B09H37W2JC
Material	Steel (Frame: Alloy Steel)
Color	Black
Finish Type	Painted
Base Type	Casters
Load Capacity	200 Pounds
Item Weight	90 pounds
Assembly Required	Yes

Feature	Specification
UPC	364967371079
ASIN	B09H37W2JC

Warranty and Support

For warranty information or technical support, please refer to the documentation included with your purchase or contact Generas customer service directly. Keep your purchase receipt for warranty claims.
Note: Specific warranty terms may vary.
