Philips AWP225/24

Philips Water AWP225/24 Filter Cartridge Instruction Manual

Model: AWP225/24

INTRODUCTION

The Philips Water AWP225/24 Filter Cartridge is designed to provide clean, great-tasting water by effectively reducing common contaminants. This 3-stage instant filter utilizes innovative activated carbon fiber for efficient absorption, significantly reducing chlorine, lead, pesticides, microplastics, and other particles. It is specifically designed as a replacement filter for the Philips AWP2980WH carafe, offering a faster flow rate compared to traditional filters.

Each cartridge filters up to 100 liters of water, contributing to environmental sustainability by reducing the need for single-use plastic bottles.

SAFETY INFORMATION

- Use only with cold water.
- Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.
- Ensure the filter is correctly installed to prevent leaks and ensure proper filtration.
- Replace the filter cartridge as recommended to maintain optimal performance and water quality.
- Keep out of reach of children.

SETUP AND INSTALLATION

This section provides instructions for installing your new Philips Water AWP225/24 Filter Cartridge into your compatible Philips AWP2980WH water carafe.

1. **Prepare the Filter:** Remove the new filter cartridge from its packaging. It is recommended to rinse the new filter under cold tap water for approximately 1 minute to remove any loose carbon particles.
2. **Remove Old Filter:** If replacing an existing filter, carefully remove the old filter from the carafe. Dispose of the old filter responsibly.
3. **Insert New Filter:** Align the new AWP225/24 filter cartridge with the designated slot in the water carafe. Gently push and twist the filter clockwise until it is securely seated. Ensure a snug fit to prevent unfiltered water

from bypassing the cartridge.

4. **Initial Flush:** Fill the carafe with tap water. Dispense and discard the first two full carafes of filtered water. This flushes out any remaining carbon fines and prepares the filter for use.
5. **Reset Filter Indicator (if applicable):** If your carafe has a filter lifetime indicator, reset it according to your carafe's specific instructions.

OPERATING INSTRUCTIONS

Once the AWP225/24 filter cartridge is installed and flushed, your Philips water carafe is ready for use. The filter provides instant filtration, meaning water is filtered as it is dispensed, eliminating waiting times.

- **Filling:** Open the flip-top lid of your Philips AWP2980WH carafe and fill the reservoir with tap water.
- **Dispensing:** Press the dispense button on your carafe to instantly receive filtered water.
- **Filtration Process:** The 3-stage filter works to reduce impurities as water passes through it, ensuring clean and fresh-tasting water with every pour.

MAINTENANCE

Regular maintenance, primarily filter replacement, is crucial for optimal performance of your Philips water filter system.

- **Filter Lifetime:** Each AWP225/24 filter cartridge is designed to filter up to 100 liters of water. The actual lifespan may vary depending on local water quality and usage.
- **Replacement Schedule:** It is recommended to replace the filter cartridge approximately every 30 days or after filtering 100 liters, whichever comes first. Your Philips AWP2980WH carafe may have an indicator to help you track filter life.
- **Replacement Procedure:** Follow the steps outlined in the 'Setup and Installation' section to replace the used filter with a new one.
- **Environmental Benefit:** By using and replacing these filters, you contribute to saving over 300 single-use plastic bottles (330 ml equivalent) per cartridge.

TROUBLESHOOTING

If you encounter any issues with your Philips Water AWP225/24 Filter Cartridge or compatible carafe, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Slow water flow	Filter is clogged or nearing end of life.	Replace the filter cartridge. Ensure the filter is properly seated.
Unpleasant taste or odor in water	Filter needs replacement or was not properly flushed.	Replace the filter cartridge. Ensure initial flushing procedure was followed.
Water leaking from filter area	Filter not securely installed.	Remove and re-install the filter, ensuring it is twisted clockwise until snug.
Filter indicator not working	Carafe specific issue or indicator not reset.	Refer to your Philips AWP2980WH carafe manual for troubleshooting the indicator. Ensure it was reset after filter replacement.

SPECIFICATIONS

Feature	Detail
Model Number	AWP225/24
Material	Plastic
Product Dimensions	1.81"D x 4.53"W x 1.81"H
Item Weight	0.004 ounces (0.1 Grams)
External Testing Certification	NSF
Product Benefits	Reduces Chlorine, Lead, Pesticides, Microplastics, and other particles
Compatible Water Purifier Models	Philips AWP2980WH
Filter Capacity	Up to 100 liters

WARRANTY AND SUPPORT

Philips products are manufactured to the highest standards and undergo rigorous quality checks. For detailed warranty information specific to your region and product, please refer to the warranty card included with your Philips AWP2980WH water carafe or visit the official Philips Water Solutions website.

For customer support, technical assistance, or to purchase additional filter cartridges, please visit the Philips support page or contact their customer service directly. Contact information can typically be found on the Philips website or in your product packaging.
