Yaheetech Full Size Bed Frame Instruction Manual

Model: YT-00109427-001

1. INTRODUCTION

This manual provides detailed instructions for the assembly, usage, and maintenance of your Yaheetech Full Size Upholstered Platform Bed Frame with Wing Edge Headboard. Please read all instructions carefully before beginning assembly to ensure safe and correct setup.

The bed frame features a classic design with a wing-side, channel-tufted headboard, skin-friendly linen fabric, and a sturdy wood-metal construction with wooden slats for mattress support. It is designed to be noise-free and does not require a box spring.

2. SAFETY INFORMATION

- Do not load more than 800 lbs on the bed frame.
- Assemble carefully to ensure stability.
- Be cautious around sharp edges on the wing headboard during assembly and use.
- Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten fasteners.
- Keep small parts away from children during assembly.

3. PACKAGE CONTENTS

Before assembly, verify that all components are present and undamaged. The package typically includes:

- Upholstered Headboard (Part A)
- Upholstered Footboard (Part B)
- Upholstered Side Rails (Parts C1, C2)

- Headboard Side Posts (Parts D1, D2)
- Center Support Beam (Part G)
- Support Legs (Part H)
- Wooden Slats (Part F)
- Hardware Kit (Bolts, Washers, Allen Wrench, etc.)
- Installation Manual

Refer to the included installation manual for a complete list of parts and their corresponding labels.

4. ASSEMBLY INSTRUCTIONS

Follow these steps for assembling your Yaheetech bed frame. It is recommended to have two people for assembly.

4.1. Unpacking and Preparation

1. Carefully unpack all components from the box.
2. Lay out all parts on a soft, clean surface to prevent scratches.
3. Identify each part using the labels (A, B, C1, C2, D1, D2, F, G, H) and the hardware from the kit.

4.2. Headboard Assembly

1. Attach the headboard side posts (D1 and D2) to the main headboard panel (A) using the specified bolts and washers from the hardware kit. Ensure the posts are oriented correctly as shown in the diagram.
2. Securely tighten all connections.

4.3. Footboard and Side Rail Assembly

1. Attach the footboard (B) to the side rails (C1 and C2) using the appropriate hardware. Pay attention to the orientation of the footboard legs.
2. Connect the assembled side rails (C1 and C2) to the headboard assembly. Do not fully tighten all screws until the entire frame is assembled to allow for adjustments.

4.4. Center Support and Slats Installation

1. Install the center support beam (G) and attach the support legs (H) to it.
2. Place the wooden slats (F) across the bed frame, ensuring they are evenly spaced and secured according to the manual. The slats are designed for direct mattress placement, eliminating the need for a box spring.
3. Once all components are in place and aligned, fully tighten all bolts and screws.

Image: Detailed view of the bed frame's construction. This image showcases the channel tufted headboard, the robust wooden slat support system, and the sturdy bed legs, emphasizing the quality and design elements.

5. USAGE GUIDELINES

- **Mattress Compatibility:** This platform bed is designed to support a mattress directly on its wooden slats. No box spring is required. It is compatible with full, queen, and king size mattresses, with a recommended mattress height of 8-12 inches.
- **Weight Capacity:** The bed frame has a maximum weight capacity of 800 lbs. Do not exceed this limit to ensure safety and product longevity.
- **Under-Bed Clearance:** The bed frame provides approximately 6 inches of under-bed clearance, allowing for easy cleaning and limited storage of low-profile items.

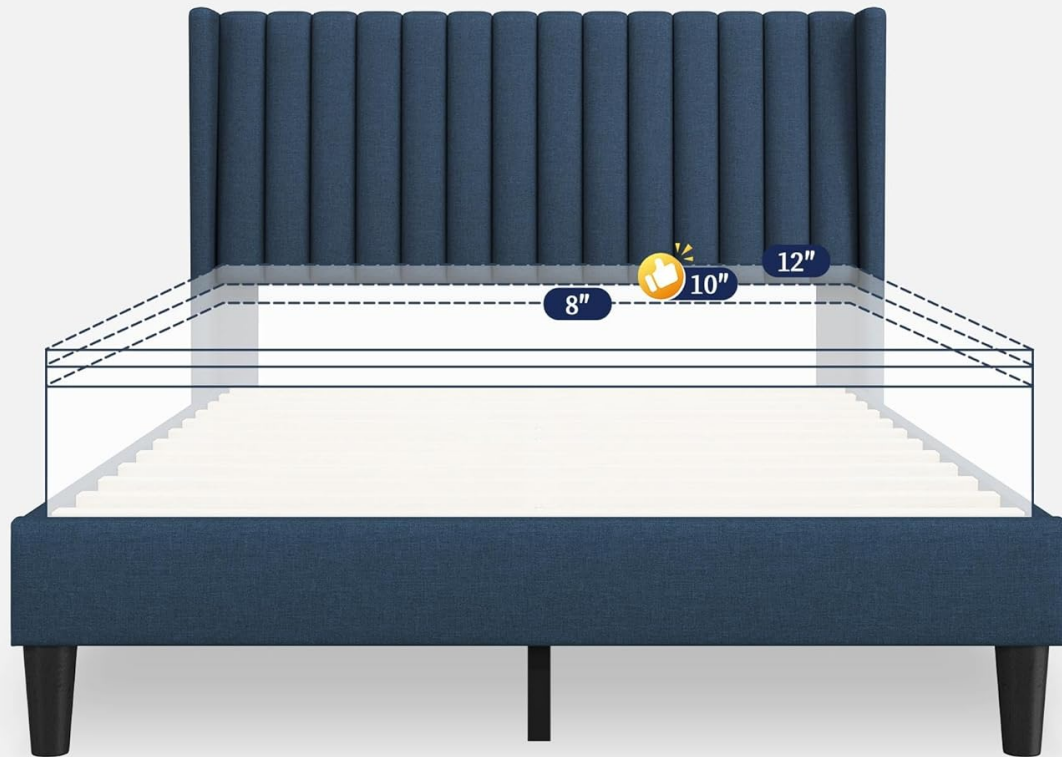

Easy to Sweep

A 6" under-bed space allows the robot cleaner to pass freely.

Compatible with Various Mattress Heights

Recommended Mattress
Height: 8-12 inches

Recommended Total Height
(Mattress+Box Spring):
8-12 inches

Image: Mattress height compatibility guide. This diagram shows the recommended mattress height range (8-12 inches) for optimal fit and aesthetic with the bed frame.

6. MAINTENANCE

- **Fabric Care:** The upholstered linen fabric should be dry cleaned only. Avoid using harsh chemicals or abrasive cleaners.
- **General Cleaning:** For routine cleaning, gently vacuum the fabric to remove dust and debris. Spot clean with a damp cloth and mild detergent if necessary, testing on an inconspicuous area first.
- **Hardware Check:** Periodically inspect all bolts and screws to ensure they remain tight. Re-tighten as needed to maintain the bed frame's stability and prevent squeaking.
- **Floor Protection:** The bed frame includes protective foot pads to prevent scratches on your floor. Ensure these remain in place.

7. TROUBLESHOOTING

If you encounter any issues with your Yaheetech bed frame, consider the following:

- **Squeaking Noises:** Check all connection points and ensure bolts are securely tightened. The EVA foam on the center reinforced bearing bar is designed to minimize noise, but loose connections can still cause squeaks.
- **Instability:** Verify that all parts are correctly assembled according to the manual and that all fasteners are fully tightened. Ensure the bed frame is placed on a level surface.
- **Missing Parts:** If any parts are missing or damaged upon arrival, please contact Yaheetech customer support immediately.

For further assistance, refer to the 'Warranty & Support' section.

8. SPECIFICATIONS

Feature	Detail
Brand	Yaheetech
