# Yaheetech Classic Metal Platform Bed Frame User Manual

Model: YT-00109942-002

Brand: Yaheetech

## INTRODUCTION

This manual provides detailed instructions for the assembly, usage, and maintenance of your Yaheetech Classic Metal Platform Bed Frame. Designed with a Victorian style iron-art headboard and footboard, this bed frame offers robust support and under-bed storage without the need for a box spring. Please read all instructions carefully before beginning assembly.

## SAFETY INFORMATION

---

For your safety and to prevent damage to the product, please adhere to the following guidelines:

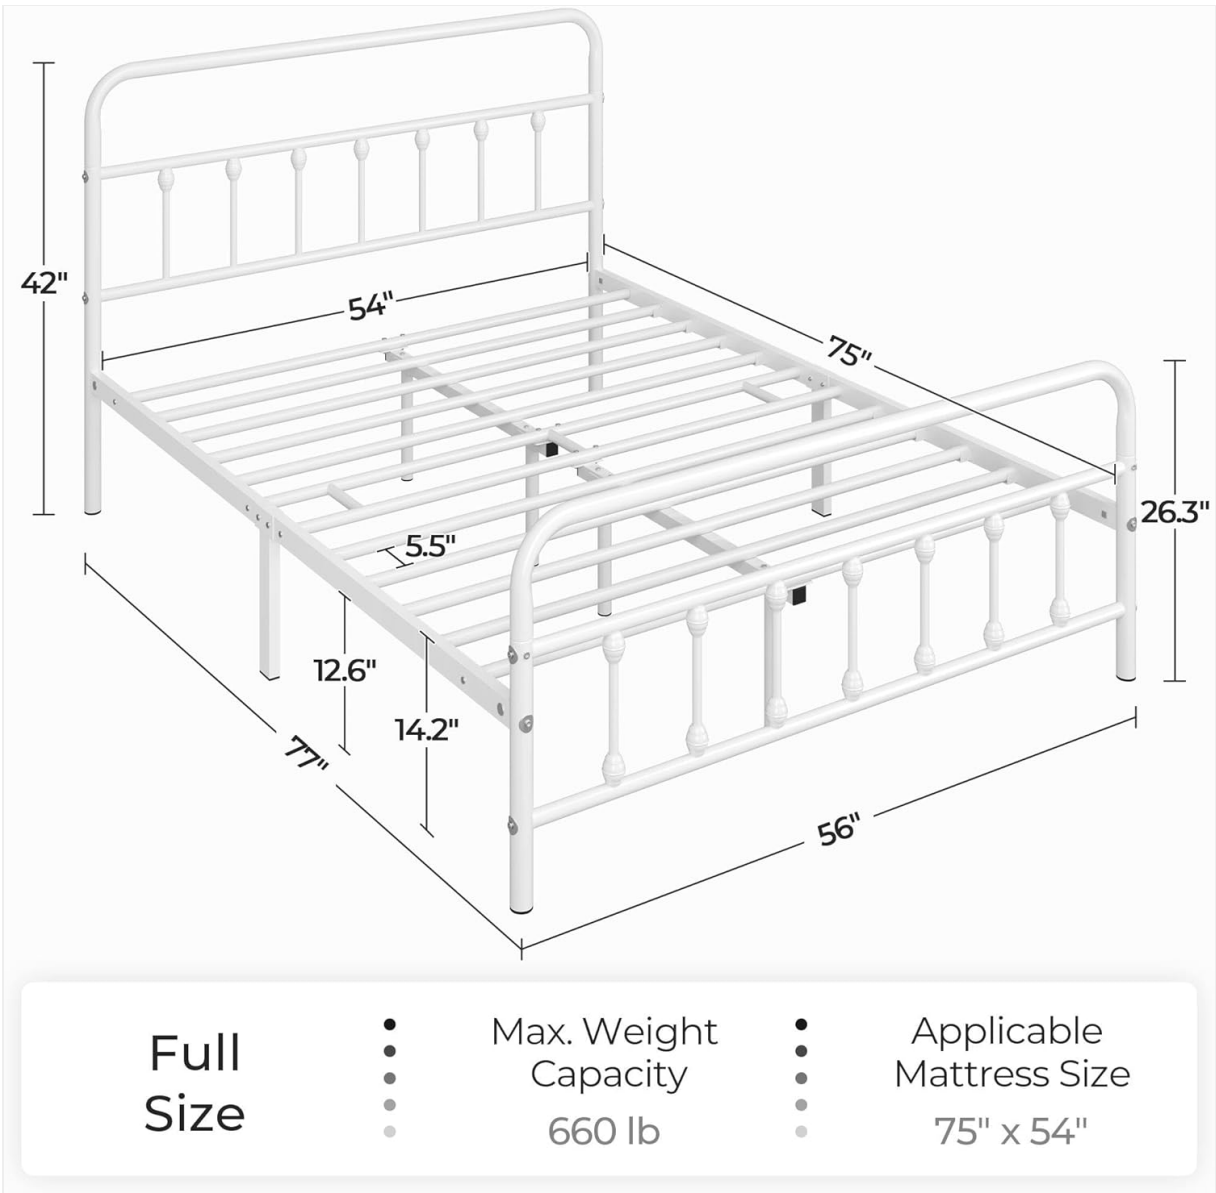

- Always assemble according to the provided instructions to ensure stability.
- Keep the area around the bed clear to prevent tripping hazards.
- Exercise caution when moving the bed frame to avoid injury from sharp edges.
- Ensure all bolts and fasteners are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not exceed the maximum weight capacity of 660 lbs.

## COMPONENTS AND PARTS LIST

---

Before assembly, verify that all components listed below are present and undamaged. Refer to the included installation manual for a detailed visual parts list.

- Headboard
- Footboard
- Side Rails
- Support Slats
- Center Support Legs

## SETUP AND ASSEMBLY

The Yaheetech bed frame is designed for quick and straightforward assembly. All necessary hardware and tools are provided. Follow the illustrated installation manual included in your package for step-by-step guidance.

1. **Unpack and Identify:** Carefully unpack all components and lay them out. Identify each part using the labels and the parts list in the manual.

2. **Assemble Headboard and Footboard:** Connect the main sections of the headboard and footboard as per the manual's diagrams.
3. **Attach Side Rails:** Securely attach the side rails to the assembled headboard and footboard using the provided hardware.
4. **Install Support Slats:** Position and secure the metal support slats across the frame. Ensure they are properly seated in the notches for stability.
5. **Tighten All Connections:** Once all parts are in place, go back and ensure all bolts and screws are fully tightened to prevent wobbling and ensure structural integrity.

## OPERATING AND USAGE

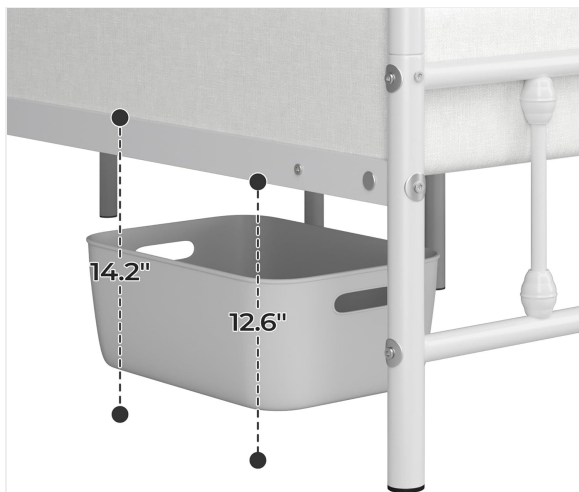

Your Yaheetech Platform Bed Frame is designed for optimal comfort and convenience. It eliminates the need for a box spring, providing direct support for your mattress.

- **Mattress Placement:** Place your mattress directly onto the metal slats. The built-in slats are designed to prevent the mattress from sliding.

- **Under-Bed Storage:** Utilize the generous 12.6 inches of ground clearance for convenient under-bed storage. This space is ideal for storage bins, seasonal items, or extra bedding.
- **Headboard Use:** The high headboard design provides comfortable back support for reading or watching TV in bed.

### 12.6 INCH OF GROUND CLEARANCE

Make full use of the space under the bed for storage.

## MAINTENANCE

To maintain the appearance and longevity of your Yaheetech bed frame, follow these simple care instructions:

- **Cleaning:** Wipe clean with a dry cloth. Avoid using harsh chemicals or abrasive cleaners, which may damage the powder-coated finish.
- **Regular Checks:** Periodically inspect all connections and re-tighten any loose bolts to ensure the frame remains sturdy and squeak-resistant.
- **Avoid Excessive Moisture:** Keep the bed frame in a dry environment to prevent rust.

## TROUBLESHOOTING

If you encounter any issues with your bed frame, consider the following common solutions:

- **Squeaking Noises:** Squeaking often indicates loose connections. Re-tighten all bolts, especially those connecting the side rails to the headboard and footboard, and the support slats.
- **Instability/Wobbling:** Ensure the bed frame is on a flat, level surface. Check that all support legs are making firm contact with the floor and that all connections are fully tightened.
- **Mattress Sliding:** Verify that the mattress is properly centered on the slats. The built-in design should minimize sliding, but an ill-fitting mattress or uneven weight distribution can sometimes cause minor movement.

If problems persist, please contact Yaheetech customer support for further assistance.
