Miyavix OKVYVOWATCHLESE/12

Miyavix OverLay Paper Screen Protector User Manual

For VYVO WATCH Lite Edition SE (Model: OKVYVOWATCHLESE/12)

1. INTRODUCTION

This manual provides essential information for the proper installation, use, and maintenance of your Miyavix OverLay Paper screen protector for the VYVO WATCH Lite Edition SE. Please read this manual thoroughly before installation to ensure optimal performance and longevity of the product.

2. SAFETY INFORMATION

- Keep the product out of reach of small children to prevent accidental ingestion or injury.
- Avoid applying excessive force during installation, which may damage the screen protector or your device.
- Do not attempt to modify or cut the screen protector, as this may impair its protective qualities and void any warranty.
- Dispose of packaging materials responsibly.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- Miyavix OverLay Paper Screen Protector for VYVO WATCH Lite Edition SE
- Cleaning cloth
- Dust removal sticker

4. INSTALLATION GUIDE

Follow these steps carefully for a bubble-free installation:

1. **Prepare Your Device:** Ensure your VYVO WATCH Lite Edition SE is powered off. Thoroughly clean the screen surface using the provided cleaning cloth to remove all dust, smudges, and fingerprints. Use the dust removal sticker to pick up any remaining lint. A clean screen is crucial for successful application.
2. **Align the Protector:** Carefully peel back a small portion of the release liner (usually marked as '1' or 'Back') from one end of the screen protector. Align the exposed adhesive edge with the corresponding edge of your watch screen. Take your time to ensure precise alignment with the screen and any cutouts.
3. **Apply Gradually:** Slowly peel off the rest of the release liner while gently pressing the screen protector onto the watch screen. Use a soft card (like a credit card, wrapped in the cleaning cloth) or your finger to smooth out any air bubbles as you go, pushing them towards the edges.
4. **Remove Air Bubbles:** If bubbles remain, gently lift the nearest edge of the screen protector and re-apply, smoothing it down again. The special silicone adhesive is designed to allow air to escape easily, minimizing bubbles.
5. **Final Touches:** Once the screen protector is fully adhered, gently peel off the top protective film (if present, usually marked as '2' or 'Front'). Give the screen a final wipe with the cleaning cloth.

5. PRODUCT FEATURES AND OPERATION

The Miyavix OverLay Paper screen protector is engineered to enhance your device experience with several key features:

- **Paper-like Writing Feel:** Designed to replicate the tactile sensation of writing on paper, providing a comfortable and precise experience for stylus input or finger gestures.
- **Anti-Fingerprint:** The surface is treated to resist fingerprints and smudges, keeping your screen cleaner and clearer.
- **Anti-Bubble Application:** Utilizes a special silicone adhesive that naturally expels air, making installation easier and significantly reducing the likelihood of trapped air bubbles.
- **Reduced Reflection:** Minimizes glare from ambient light, improving screen visibility in various lighting conditions.
- **Durable Protection:** Provides a protective layer against scratches and minor impacts, safeguarding your watch's display.
- **Made in Japan:** Manufactured with high-quality domestic materials and production processes in Japan, ensuring reliability and precision.

demonstrating its fit and appearance on the device.

6. MAINTENANCE AND CARE

To maintain the clarity and effectiveness of your screen protector:

- **Cleaning:** Use a soft, lint-free cloth (like the one provided) to gently wipe the screen protector. For stubborn smudges, slightly dampen the cloth with water or a screen cleaner specifically designed for electronics. Avoid harsh chemicals or abrasive materials.
- **Avoid Sharp Objects:** While the protector offers scratch resistance, extreme care should be taken to avoid contact with sharp objects that could damage the film.
- **Storage:** If removing the protector for any reason, store it flat in a clean, dust-free environment to prevent damage to the adhesive side.

7. TROUBLESHOOTING

Common issues and their solutions:

Problem	Possible Cause	Solution
Bubbles remain after installation	Dust particles trapped underneath; uneven application.	Gently lift the nearest edge of the protector, use a dust removal sticker to remove particles, then re-apply slowly, smoothing out bubbles.
Protector does not adhere properly	Screen not clean enough; protector damaged.	Ensure screen is thoroughly cleaned. If the protector is damaged, it may need replacement.
Reduced touch sensitivity	Incorrect installation; device settings.	Re-check installation for proper adhesion. Adjust touch sensitivity settings on your device if available.

8. SPECIFICATIONS

Specification	Detail
Compatible Device	VYVO WATCH Lite Edition SE
Brand	Miyavix
Model Number	OKVYVOWATCHLESE/12
Features	Paper-like writing feel, Anti-fingerprint, Anti-bubble, Reduced reflection

Specification	Detail
Material	Special silicone adhesive, PET film
Manufacturing Origin	Japan
Package Dimensions	18 x 10.4 x 1.9 cm
Package Weight	20 g

9. WARRANTY AND SUPPORT

Miyavix is committed to providing high-quality products and customer satisfaction. For support regarding your OverLay Paper screen protector, please refer to the following:

- **Application Failure Replacement Service:** In the event of an application failure, Miyavix offers a replacement service. Please refer to the product packaging or the official Miyavix website for details on how to utilize this service.
- **Free Protective Film Application Service:** Certain retailers or services may offer a free application service for protective films. Check with your point of purchase or the Miyavix official channels for availability.
