

LaView LV-X2-B-US

LaView Star Projector User Manual

MODEL: LV-X2-B-US

Brand: LaView

1. INTRODUCTION

Thank you for choosing the LaView Star Projector. This device is designed to transform any room into a captivating celestial environment, projecting high-definition images of galaxies, stars, and planetary bodies. With its user-friendly features and advanced optical system, it provides an unparalleled visual experience for relaxation, education, or entertainment.

This manual provides essential information for the safe and efficient operation of your LaView Star Projector. Please read it thoroughly before use and retain it for future reference.

2. KEY FEATURES

- **Excellent Image Experiences:** Utilizes 8 sets of high light transmission (LTR) optical lenses and a 3-level light adjustable green laser. Projects an ultra-large area up to 130 square feet for lifelike images.
- **Mini 6K HD Galaxy Discs:** Includes ultra-high definition optical film discs with at least 6000x6000 resolution, such as Earth & Moon and Southern Hemisphere. Each 0.47 square inch disc can project 4000 times HD images.
- **User-friendly and Artistic Design:** Inspired by the new moon, featuring a half-moon shape hollow-carved design. Comes with an infrared remote control for convenient operation.
- **Adjustable Projection Angle:** Offers 0-90° adjustment, allowing projection on ceilings or walls.
- **Auto-off Timer:** Features an auto-off timer with settings for 10, 30, or 60 minutes, ideal for falling asleep.
- **Immersive Atmosphere:** Creates instant mood ambiance for parties, gaming rooms, meditation spaces, or as a mesmerizing night light.

- **Silent Rotation Motor:** Ensures quiet operation for an undisturbed experience.

3. PRODUCT OVERVIEW

The LaView Star Projector with its included remote control, ready to create a celestial display.

Project The Spectacular Earth & Moon Disc

Come with 4 slide discs

Carina Nebula

Earth & Moon

Northern Hemisphere

Orbiting the Moon

The four interchangeable slide discs included with the projector: Carina Nebula, Earth & Moon, Northern Hemisphere, and Orbiting the Moon.

4. SETUP

1. **Unpacking:** Carefully remove all components from the packaging. Ensure you have the projector unit, remote control, power cable, and the included galaxy discs.
2. **Power Connection:** Connect the power cable to the projector's power input port and then plug it into a standard 120V electrical outlet.
3. **Disc Installation:**
 - Locate the disc tray on the side of the projector.
 - Gently pull out the disc tray.
 - Select your desired galaxy disc. Ensure the disc is clean and free of dust or fingerprints.
 - Place the disc into the tray, ensuring it faces up and is securely locked into position.
 - Slide the disc tray back into the projector until it clicks into place.

Detailed view of the projector's high light transmission optical lens, crucial for clear image projection.

4. **Placement:** Place the projector on a stable, flat surface. For optimal projection, ensure the room is dark. The projection area can be adjusted by moving the projector closer or further from the wall/ceiling.

5. OPERATING INSTRUCTIONS

The LaView Star Projector can be operated using the buttons on the unit or the included infrared remote control.

Basic Functions:

- **Power On/Off:** Press the power button on the projector or remote to turn the unit on or off.
- **Brightness Adjustment:** Use the brightness control buttons on the remote to cycle through 3 levels of brightness for the projected image.
- **Rotation Control:** Activate or deactivate the silent rotation feature using the dedicated button on the remote.
- **Timer Setting:** Set the auto-off timer to 10, 30, or 60 minutes using the timer button on the remote. The projector will automatically shut down after the selected duration.
- **Adjusting Projection Angle:** The projector allows for a 0-90° adjustment of the projection head. Gently tilt the projector to direct the image onto your desired surface (ceiling or wall).

Creating Ambiance:

Experience a peaceful night's sleep under a canopy of projected stars and celestial bodies.

Rotate the lens to achieve a clear and focused projection, enhancing the visual quality of the galaxy discs.

Create a romantic atmosphere for dining or special occasions by projecting a starry sky.

Adjust the 3 levels of brightness to set the perfect mood for any activity, from gaming to relaxation.

6. MAINTENANCE

- **Cleaning the Lens:** Use a soft, lint-free cloth specifically designed for optical lenses to gently wipe the projector lens. Avoid abrasive materials or harsh chemicals.
- **Cleaning Discs:** Handle the galaxy discs by their edges. If necessary, gently wipe them with a soft, dry cloth to

remove dust or fingerprints. Store them in their protective cases when not in use.

- **General Cleaning:** Wipe the exterior of the projector with a soft, dry cloth. Do not use liquid cleaners or sprays directly on the unit.
- **Storage:** When not in use for extended periods, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Projector does not turn on.	No power supply.	Ensure the power cable is securely connected to both the projector and a working electrical outlet.
Image is blurry or out of focus.	Incorrect focus or projection distance.	Adjust the focus by rotating the lens. Move the projector closer or further from the projection surface until the image is clear. Ensure the room is sufficiently dark.
Remote control is not working.	Low battery or obstruction.	Replace the remote control batteries. Ensure there are no obstructions between the remote and the projector's infrared receiver. Point the remote directly at the projector.
No image projected.	Disc not inserted correctly or damaged.	Check if the galaxy disc is properly inserted and locked into the disc tray. Ensure the disc is not damaged.

8. SPECIFICATIONS

Feature	Detail
Model Number	LV-X2-B-US
Color	Black
Shape	Square
Material	Plastic
Finish Type	Glossy
Light Source Type	LED
Power Source	Corded Electric

Feature	Detail
Voltage	120 Volts
Maximum Compatible Light Source Wattage	200 Watts
Item Weight	2.7 pounds
Product Dimensions	7.87"L x 7.87"W x 2.76"H
Beam Angle	1.2 Degrees
Number of Light Sources	2
Switch Style	Remote
Included Components	Power Cable, Remote Control

9. WARRANTY & SUPPORT

Warranty: The LaView Star Projector comes with a 1-year limited warranty from the date of purchase. This warranty covers manufacturing defects and workmanship under normal use. Please retain your proof of purchase for warranty claims.
