LaView LV-PWB5B-4PK

LaView 4MP 2K Security Camera User Manual

Model: LV-PWB5B-4PK

INTRODUCTION

Thank you for choosing the LaView 4MP 2K Security Camera. This manual provides detailed instructions for setting up, operating, and maintaining your camera system. These wired cameras are designed for both indoor and outdoor use, featuring IP65 weather resistance, 2K clarity, starlight sensor for enhanced night vision, motion/person detection, two-way audio, and spotlight functionality. They are compatible with Amazon Alexa and the LaView app, offering seamless integration into your smart home security.

WHAT'S IN THE BOX

- 4 x Security Camera
- 4 x Charger
- 4 x Data Line

KEY FEATURES

Waterproof IP65 & 2K HD Clarity

The LaView cameras are designed with IP65 weather resistance, making them suitable for both indoor and outdoor environments. They deliver 4MP 2K clarity, ensuring detailed surveillance footage day and night.

Image: LaView camera with rain droplets, highlighting its 2K HD resolution and IP65 waterproof rating.

Starlight Sensor & Color Night Vision

Equipped with a Starlight Sensor, these cameras provide crisp images even in low-light conditions. The smart night mode activates spotlights to ensure no detail is missed, offering color night vision upon motion detection up to 100 feet.

Advanced Starlight Night Sensor

Even in low-light conditions, the advanced starlight sensor produces stunning high-resolution images

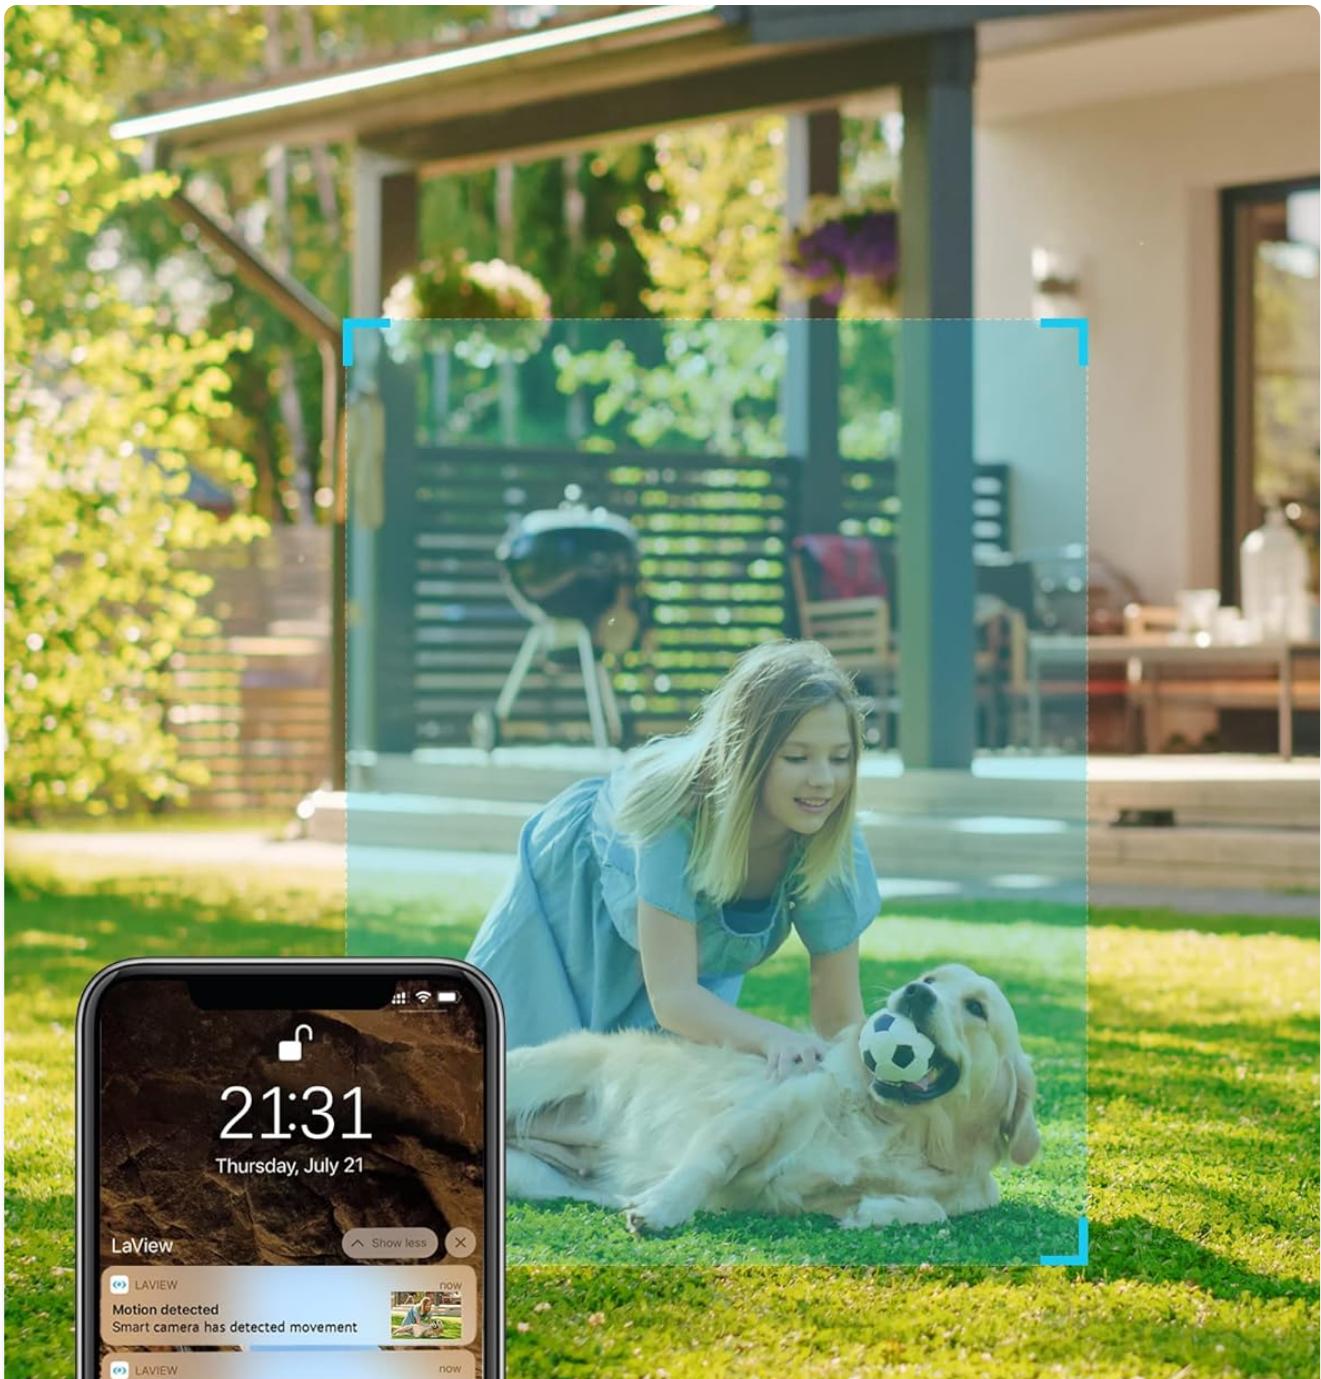

Image: Comparison of night vision quality with and without the Starlight Sensor, showing enhanced clarity.

Video: Demonstrates the color night vision capabilities of the LaView security camera in indoor and outdoor settings.

Detection, Notification & 2-Way Talk

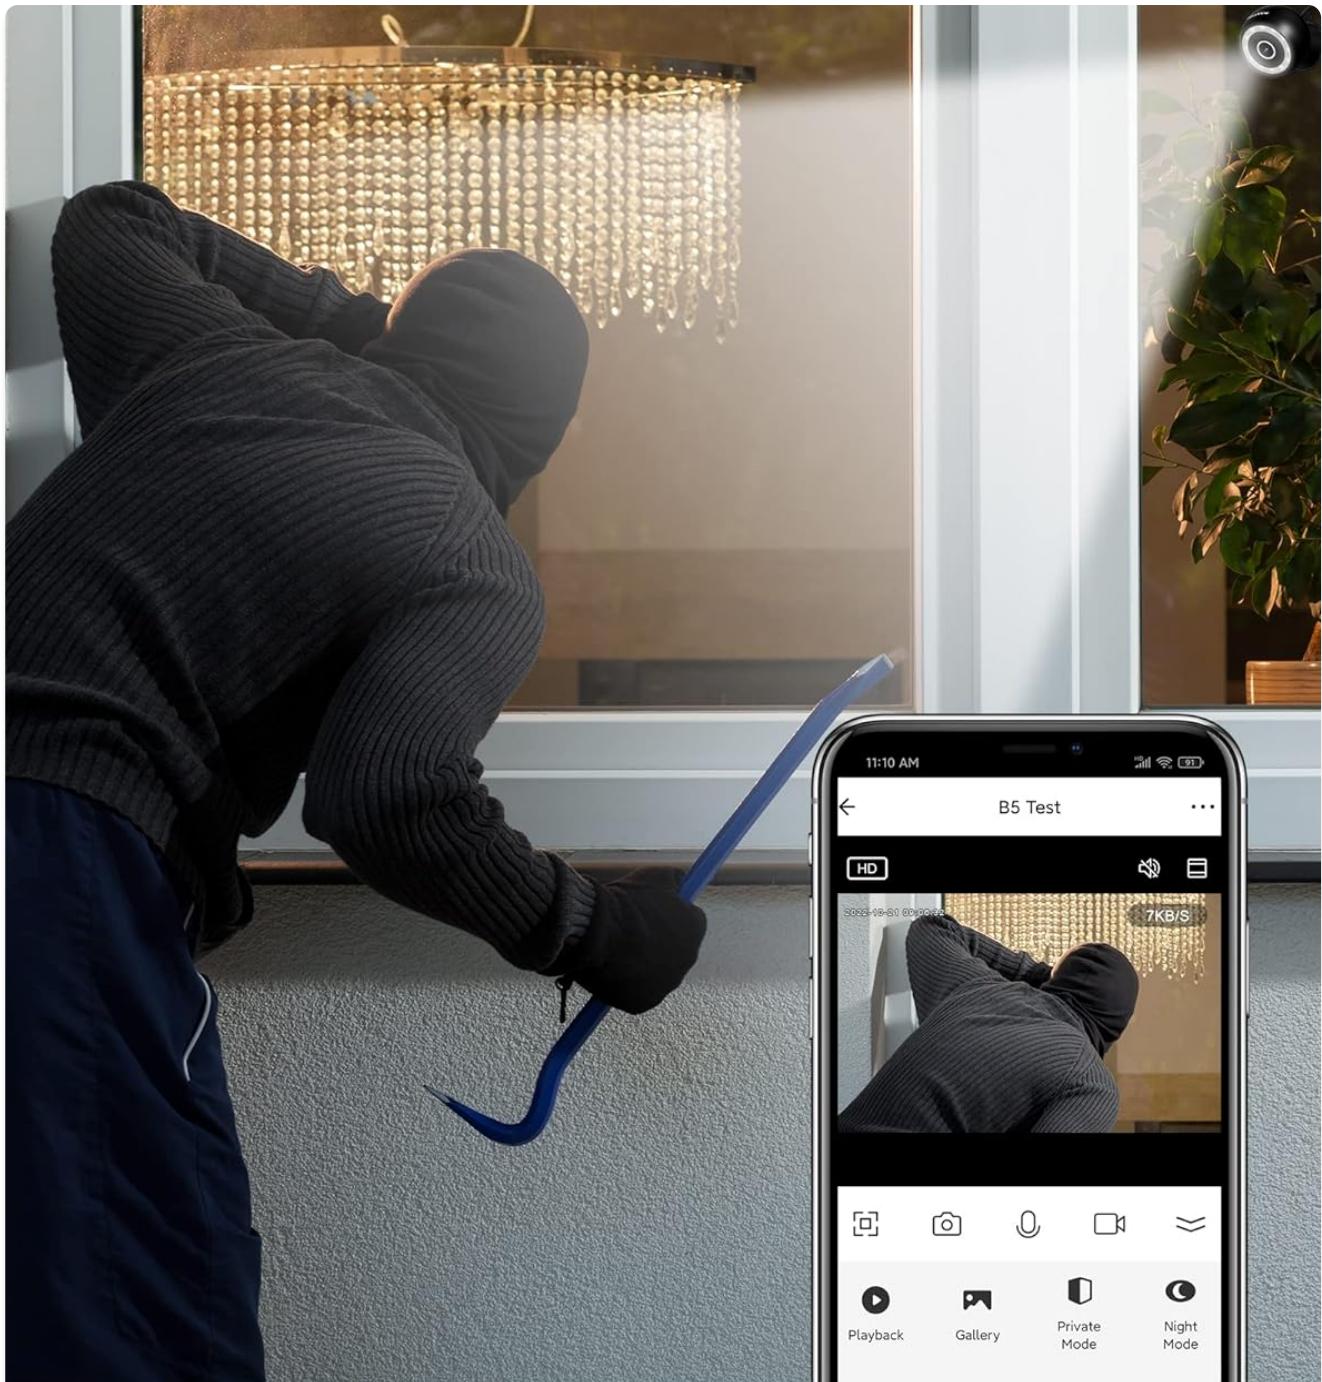

Receive instant alerts for motion or human presence through AI-powered algorithms. The cameras feature superior two-way talk with high-quality microphones and speakers, allowing for real-time communication via the LaView app.

Smart Human Detection, and Custom Activity Zones

Get instantly notification if there is motion, a person, or if there is specific movement in one of your custom activity zones.

Image: Illustrates smart human detection and the ability to set custom activity zones for targeted alerts.

Crisp 2-way Talk and Built-in Spotlight

Activate push-to-talk anytime for high-quality sound on both sides of the conversation, and use the built-in spotlight to ward off intruders.

Image: Shows the two-way talk feature and the built-in spotlight, useful for deterring intruders.

Stay Connected Anywhere

Access 24/7 live streams from your wired WiFi camera via the LaView app on your mobile device or through a web browser. The system supports up to 9 simultaneous live feeds, keeping you connected to your home at all times.

Connect and view up to 16 cameras simultaneously

Image: Displays simultaneous viewing across multiple devices including computer, mobile phone, and iPad.

Storage Options

Benefit from a 30-day free trial of US cloud storage, securely hosted on AWS servers. The cameras also support local storage via a micro-SD slot (up to 128GB), ensuring your recordings are safe.

Easy to Install

Magnetic Mount
Flexible installation

SETUP

Camera Installation

Your LaView camera offers flexible installation options, including wall mount, ceiling mount, or placement on a flat surface. The magnetic mount simplifies positioning.

Your browser does not support the video tag.

Video: Step-by-step guide on how to install the LaView security camera onto a wall using the provided mounting plate and screws.

Video: A tutorial on how to set up the LaView app, including account registration and adding your camera device.

OPERATING YOUR CAMERA

Once set up, you can access live view, review recordings, and manage settings through the LaView app. The intuitive interface allows for easy navigation and control of your security system.

- **Live View:** Tap on the camera feed in the app to view real-time footage.
- **Two-Way Audio:** Use the microphone icon in the live view to speak through the camera and the speaker icon to hear audio from the camera's location.
- **Recording Playback:** Access recorded events from cloud storage or the installed microSD card.
- **Night Mode:** Switch between Smart Mode, Infrared Mode, and Color Light Mode for optimal night vision based on your needs.

MAINTENANCE

MicroSD Card Installation

For local storage, insert a compatible microSD card into the camera's slot. Ensure the card is 16-128GB, Class 10 rated or above, and formatted to FAT32 for optimal performance. It is recommended to use a LaView Purple Surveillance Grade Micro SD Card.

Video: Demonstrates how to install a microSD card into the camera and provides important specifications for compatible cards.

Camera Reset

If you need to reset your camera (e.g., to put it into pairing mode, if WiFi password or router is changed, or if the camera indicator is not correct), locate the reset button under the rubber cover and press and hold it for 5 seconds until the camera beeps 3 times.

Video: Shows the process of resetting the camera, including locating the reset button and the duration for holding it.

TROUBLESHOOTING

Camera Does Not Scan QR Code

If your camera is having difficulty scanning the QR code during setup, try moving the phone slightly back and forth towards the camera to find the optimal distance (typically 8-12 inches). Ensure the following:

- Any plastic film is removed from the camera lens.
- There is no dirt or stain on the camera lens.
- The QR code displayed on your phone screen is complete and not cut off.
- Your phone screen is not broken or cracked in the area displaying the QR code.
- Use a phone with a large screen for better QR code visibility.

Your browser does not support the video tag.

Video: Addresses common issues encountered when the camera fails to scan the QR code during the setup process, offering solutions and tips.

SPECIFICATIONS

Feature	Specification
Indoor/Outdoor Usage	Outdoor, Indoor
Compatible Devices	Laptop, Desktop, Tablet, Smartphone
